the on going conversation on China's uncivil society *Art in Turmoil* Richard King, Sheng Tian Zheng, Scott Watson, 2010-01-01 Forty years after China's tumultuous Cultural Revolution this book revisits the visual and performing arts of the period the paintings propaganda posters political cartoons sculpture folk arts private sketchbooks opera and ballet and examines what these vibrant militant often gaudy images meant to artists their patrons and their audiences at the time and what they mean now both in their original forms and as revolutionary icons reworked for a new market oriented age Chapters by scholars of Chinese history and art and by artists whose careers were shaped by the Cultural Revolution offer new insights into works that have transcended their times *Animation in China* Sean Macdonald, 2015-11-06 By the turn of the 21st century animation production has grown to thousands of hours a year in the People's Republic of China PRC Despite this and unlike American blockbuster productions and the diverse genres of Japanese anime much animation from the PRC remains relatively unknown This book is an historical and theoretical study of animation in the PRC Although the Wan Brothers produced the first feature length animated film in 1941 the industry as we know it today truly began in the 1950s at the Shanghai Animation Film Studio SAFS which remained the sole animation studio until the 1980s Considering animation in China as a convergence of the institutions of education fine arts literature popular culture and film the book takes comparative approaches that link SAFS animation to contemporary cultural production including American and Japanese animation Pop Art and mass media theory Through readings of classic films such as Princess Iron Fan Upheaval in Heaven Princess Peacock and Nezha Conquers the Dragon King this study represents a revisionist history of animation in the PRC as a form of postmodernism with Chinese characteristics As a theoretical exploration of animation in the People's Republic of China this book will appeal greatly to students and scholars of animation film studies Chinese studies cultural studies political and cultural theory *The Book of Politics* Michael Dutton, 2024-07-05 In *The Book of Politics* Michael Dutton offers an affective theorization of the political and a political theorization of affect Drawing on Western and Chinese social theory and practice Dutton rethinks Carl Schmitt's insistence that the political can be thought of only within the antagonistic pairing of friend and enemy Dutton shows how the power of the friend enemy binary must be understood by conceptualizing the political as the channeling harnessing and transforming of affective energy flows in relation to that binary Given this affective nature of politics Dutton contends that to rethink the political means moving away from a political science toward an art of the political Such an art highlights fluidity and pulls away from Eurocentric political theory requiring a conceptualization of the political as global He juxtaposes ancient Chinese cosmology medicine and Maoism against the monuments of early capitalist modernity such as the Crystal Palace and the Eiffel Tower to highlight the differences in political investments and intensities From the Chinese revolution to the global rise of right wing movements Dutton rethinks politics in the contemporary world ***The Art of Return*** James Meyer, 2019-09-11 More than any other decade the sixties capture our collective cultural imagination And while many Americans can immediately imagine the sound of Martin Luther King Jr

declaring I have a dream or envision hippies placing flowers in gun barrels the revolutionary sixties resonates around the world China's communist government inaugurated a new cultural era African nations won independence from colonial rule and students across Europe took to the streets calling for an end to capitalism imperialism and the Vietnam War In this innovative work James Meyer turns to art criticism theory memoir and fiction to examine the fascination with the long sixties and contemporary expressions of these cultural memories across the globe Meyer draws on a diverse range of cultural objects that reimagine this revolutionary era stretching from the 1950s to the 1970s including reenactments of civil rights antiwar and feminist marches paintings sculptures photographs novels and films Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed These cases show us that the past becomes significant only in relation to our present and our remembered history never perfectly replicates time past This Meyer argues is precisely what makes our contemporary attachment to the past so important it provides us a critical opportunity to examine our own relationship to history memory and nostalgia
