Reporting War Stuart Allan, Barbie Zelizer, 2004-06-01 Reporting War explores the social responsibilities of the journalist during times of military conflict News media treatments of international crises especially the one underway in Iraq are increasingly becoming the subject of public controversy and discussion is urgently needed Each of this book's contributors challenges familiar assumptions about war reporting from a distinctive perspective An array of pressing issues associated with conflicts over recent years are identified and critiqued always with an eye to what they can tell us about improving journalism today Special attention is devoted to recent changes in journalistic forms and practices and the ways in which they are shaping the visual culture of war and issues discussed amongst many include the influence of censorship and propaganda us and them news narratives access to sources 24 7 rolling news and the CNN effect military jargon such as friendly fire and collateral damage embedded and unilateral reporters tensions between objectivity and patriotism The book raises important questions about the very future of journalism during wartime questions which demand public dialogue and debate and is essential reading for students taking courses in news and news journalism as well as for researchers teachers and practitioners in the field

Reporting War and Conflict Janet Harris, Kevin Williams, 2018-10-03 Reporting War and Conflict brings together history theory and practice to explore the issues and obstacles involved in the reporting of contemporary war and conflict The book examines the radical changes taking place in the working practices and day to day routines of war journalists arguing that managing risk has become central to modern war correspondence How individual reporters and news organisations organise their coverage of war and conflict is increasingly shaped by a variety of personal professional and institutional risks The book provides an historical and theoretical context to risk culture and the work of war correspondents paying particular attention to the changing nature of technology organisational structures and the role of witnessing The conflicts in Iraq Afghanistan and Syria are examined to highlight how risk and the calculations of risk vary according to the type of conflict The focus is on the relationship between propaganda censorship the sourcing of information and the challenges of reporting war in the digital world The authors then move on to discuss the arguments around risk in relation to gender and war reporting and the coverage of death on the battlefield Reporting War and Conflict is a guide to the contemporary changes in warfare and the media environment that have influenced war reporting It offers students and researchers in journalism and media studies an invaluable overview of the life of a modern war correspondent

Reporting War Ray Moseley, 2017-02-21 This excellent wonderfully researched chronicle of WWII journalism explores the lives and work of embedded reporters across every theater of war Chris Ogden former Time magazine bureau chief in London Luminary journalists Ed Murrow Martha Gellhorn

Walter Cronkite and Clare Hollingworth were among the young reporters who chronicled World War II's daily horrors and triumphs for Western readers. In *Reporting War*, fellow foreign correspondent Ray Moseley mines their writings to create an exhilarating parallel narrative of the war effort in Europe, Pearl Harbor, North Africa, and Japan. This vivid history also explores the lives, methods, and motivations of the courageous journalists who doggedly followed the action and the story often while embedded in the Allied armies. Moseley's sweeping yet intimate history draws on newly unearthed material to offer a comprehensive account of the war. *Reporting War* sheds much needed light on an abundance of individual stories and overlooked experiences, including those of women and African American journalists, which capture the drama as it was lived by reporters on the front lines of history.

A New History of War Reporting Kevin Williams, 2019-12-23 This book takes a fresh look at the history of war reporting to understand how new technology, new ways of waging war, and new media conditions are changing the role and work of today's war correspondent. Focussing on the mechanics of war reporting and the logistical and institutional pressures on correspondents, the book further examines the role of war propaganda, accreditation, and news management in shaping the evolution of the specialism. Previously neglected conflicts and correspondents are reclaimed, and wars considered as key moments in the history of war reporting, such as the Crimean War 1854-56 and the Great War 1914-18, are re-evaluated. The use of objectivity as the yardstick by which to assess the performance of war correspondents is questioned. The emphasis is instead placed on war as a messy business which confronts reporters and photographers with conditions that challenge the norms of professional practice. References to the demise of the war correspondent have accompanied the growth of the specialism since the days of William Howard Russell, the so-called father of war reporting. This highlights the fragile nature of this sub-genre of journalism and emphasises that continuity as much as change characterises the work of the war correspondent. A thematically organised, historically rich introduction makes this book ideal for students of journalism, media, and communication.

Reporting from the Wars 1850 - 2015 Barry Turner, Daniel Barredo Ibáñez, Steven James Grattan, 2019-07-05 From the foundations of the world's first great empires to the empires of today, war has preoccupied human civilisation for as many as 4000 years. It has fascinated, horrified, thrilled, confused, inspired, and disgusted mankind since records began. Provoking such a huge range of emotions and reactions and fulfilling all the elements of newsworthiness, it is hardly surprising that war makes good news. Modern technological advancements such as the camera and television brought the brutality of war into the homes and daily lives of the public. No longer a far away and out of sight affair, the public's ability to see what was happening on the frontline changed not only how wars were fought but why they were fought. Even when a war is considered popular, the involvement of the press and the weight of public opinion has led to criticisms that have transformed modern warfare almost in equal measure to the changes brought about by weapon technology. War reporting seeks to look beyond the official story to understand the very nature of conflict whilst acknowledging that it is no longer simply good versus evil. This edited volume presents a unique

insight into the work of the war correspondent and battlefield photographer from the earliest days of modern war reporting to the present. It reveals how influenced by the changing face of modern warfare the work of the war correspondent has been significantly altered in style, method and practice. By combining historical analysis with experiences of modern day war reporting, this book provides an important contribution to the understanding of this complicated profession which will be of interest to journalists, academics and students alike.

American Journalists in the Great War Chris Dubbs, 2017-03-01. When war erupted in Europe in 1914, American journalists hurried across the Atlantic ready to cover it the same way they had covered so many other wars. However, very little about this war was like any other. American Journalists in the Great War tells the dramatic stories of the journalists who covered World War I for the American public.
