Repossessions Psychoanalysis And The Phantasms Of Early Modern Culture:

Repossessions Timothy Murray, Alan K. Smith, 1998 A doubled edged critical forum this volume brings early modern culture and psychoanalysis into revisionist dialogue with each other The authors reflect on how psychoanalysis remains possessed by its incorporation of early modern mythologies vision credos and phantasms which may or may not be applicable today 23 photos

The Freudian Exodus: Psychoanalysis and the Mosaic Legacy Andrew Barnaby, 2024-11-11 The Freudian Exodus redefines the traumatic experience that Freud argued was the origin of Judaic monotheism the murder of Moses Focusing instead on the Babylonian Exile the study explores a series of topics understood as the aftershocks of that cultural trauma Among these are the nature of anti-Semitism Christianity's vexed relationship to Judaism the fantasmatic status of subjectivity the cultural function of Torah and Freud's escape at the end of his life from Nazi controlled Austria The in depth analysis of these topics aims for a new understanding of psychoanalysis conceived more as a philosophy than as a mode of therapy

Digital Baroque Timothy Murray, In this intellectually groundbreaking work Timothy Murray investigates a paradox embodied in the book's title What is the relationship between digital in the form of new media art and baroque a highly developed early modern philosophy of art Making an exquisite and unexpected connection between the old and the new Digital Baroque analyzes the philosophical paradigms that inform contemporary screen arts Examining a wide range of art forms Murray reflects on the rhetorical emotive and social forces inherent in the screen arts dialog with early modern concepts Among the works discussed are digitally oriented films by Peter Greenaway Jean Luc Godard and Chris Marker video installations by Thierry Kuntzel Keith Piper and Renate Ferro and interactive media works by Toni Dove David Rokeby and Jill Scott Sophisticated readings reveal the electronic psychosocial webs and digital representations that link text film and computer Murray puts forth an innovative Deleuzian psychophilosophical approach one that argues that understanding new media art requires a fundamental conceptual shift from linear visual projection to nonlinear temporal fields intrinsic to the digital form

A Cultural History of Theatre in the Modern Age Kim Solga, 2019-08-08 To call something modern is to assert something fundamental about the social cultural economic and technical sophistication of that thing over and against what has come before A Cultural History of Theatre in the Modern Age provides an interdisciplinary overview of theatre and performance in their social and material contexts from the late 19th century through the early 2000s emphasizing key developments and trends that both exemplify and trouble the various meanings of the term modern and the identity of modernist theatre and performance Highly illustrated with 40 images the ten chapters each take a different theme as their focus institutional frameworks social functions sexuality and gender the environment of theatre circulation interpretations communities of production repertoire and genres technologies of performance and knowledge transmission

Freud's Italian Journey Laurence Simmons, 2006 Rather the processes of interpretation begun by Freud are turned on Freud himself thus eventually displacing and questioning his theoretical mastery

The Vanishing Christopher Pye, 2000

Through readings of King Lear Hamlet Henry VI and other works this volume employs psychoanalytic theory to arrive at new understandings of the emergence of early modern subjectivities Magical Imaginations Genevieve Guenther,2012-01-01 In the English Renaissance poetry was imagined to inspire moral behaviour in its readers but the efficacy of poetry was also linked to conjuration the theologically dangerous practice of invoking spirits with words Magical Imaginations explores how major writers of the period including Spenser Marlowe and Shakespeare negotiated this troubling link between poetry and magic in their attempts to transform readers and audiences with the power of art Through analyses of texts ranging from sermons and theological treatises to medical tracts and legal documents Genevieve Guenther sheds new light on magic as a cultural practice in early modern England She demonstrates that magic was a highly pragmatic even cynical endeavor infiltrating unexpected spheres including Elizabethan taxation policy and Jacobean political philosophy With this new understanding of early modern magic and a fresh context for compelling readings of classic literary works Magical Imaginations reveals the central importance of magic to English literary history The Shattering of the Self Cynthia Marshall,2003-05-22 In The Shattering of the Self Violence Subjectivity and Early Modern Texts Cynthia Marshall reconceptualizes the place and function of violence in Renaissance literature During the Renaissance an emerging concept of the autonomous self within art politics religion commerce and other areas existed in tandem with an established popular sense of the self as fluid unstable and volatile Marshall examines an early modern fascination with erotically charged violence to show how texts of various kinds allowed temporary release from an individualism that was constraining Scenes such as Gloucester s blinding and Cordelia s death in King Lear or the dismemberment and sexual violence depicted in Titus Andronicus allowed audience members not only a release but a shattering as opposed to an affirmation of the self Marshall draws upon close readings of Shakespearean plays Petrarchan sonnets John Foxe s Acts and Monuments of the Christian Martyrs and John Ford s The Broken Heart to successfully address questions of subjectivity psychoanalytic theory and identity via a cultural response to art Timely in its offering of an account that is both historically and psychoanalytically informed The Shattering of the Self argues for a renewed attention to the place of fantasy in this literature and will be of interest to scholars working in Renaissance and early modern studies literary theory gender studies and film theory

Shakespeare, Cinema and Desire S. Ryle,2013-11-13 Shakespeare Cinema and Desire explores the desires and the futures of Shakespeare s language and cinematographic adaptations of Shakespeare Tracing ways that film offers us a rich new understanding of Shakespeare it highlights issues such as media technology mourning loss the voice narrative territories and flows sexuality and gender Coming Too Late Andrew Barnaby,2017-06-29 Aiming to reconceptualize some of Freud s earliest psychoanalytic thinking Andrew Barnaby s Coming Too Late argues that what Freud understood as the fundamental psychoanalytic relationship a son s ambivalent relationship to his father is governed not by the sexual rivalry of the Oedipus complex but by the existential predicament of belatedness Analyzing the rhetorical tensions of Freud s writing Barnaby

shows that filial ambivalence derives particularly from the son's vexed relation to a paternal origin he can never claim as his own. *Barnaby* also demonstrates how Freud at once grasped and failed to grasp the formative nature of the son's crisis of coming after a duality marked especially in Freud's readings and misreadings of a series of precursor texts: the biblical stories of Moses, Shakespeare's *Hamlet*, E. T. A. Hoffmann's *The Sandman*, that often anticipate the very insights that the Oedipal model at once reveals and conceals. *Reinterpreting Freudian psychoanalysis through the lens of Freud's own acts of interpretation: Coming Too Late* further aims to consider just what is at stake in the foundational relationship between psychoanalysis and literature.
