Death and Dying in the Working Class, 1865-1920 Michael K. Rosenow, 2015-04-15 Michael K Rosenow investigates working people s beliefs rituals of dying and the politics of death by honing in on three overarching questions How did workers their families and their communities experience death Did various identities of class race gender and religion coalesce to form distinct cultures of death for working people And how did people s attitudes toward death reflect notions of who mattered in U S society Drawing from an eclectic array of sources ranging from Andrew Carnegie to grave markers in Chicago s potter s field Rosenow portrays the complex political social and cultural relationships that fueled the United States industrial ascent The result is an undertaking that adds emotional depth to existing history while challenging our understanding of modes of cultural transmission *Consumer Vulnerability* Kathy Hamilton, Susan Dunnett, Maria Piacentini, 2015-08-11 Consumer vulnerability is of growing importance as a research topic for those exploring wellbeing This book provides space to critically engage with the conditions contexts and characteristics of consumer vulnerability which affect how people experience and respond to the marketplace and vice versa Focussing on substantive ethical social and methodological issues this book brings together key researchers in the field and practitioners who work with vulnerability on a daily basis Organised into 4 sections it considers consumer vulnerability and key life stages health and wellbeing poverty and exclusion Methodologically the chapters draw on qualitative research employing a variety of methods from interview to the use of poetry film and other cultural artefacts This book will be of interest to marketing and consumer research scholars and students and also to researchers in other disciplines including sociology public policy and anthropology and practitioners policy makers and charitable organisations working with vulnerable groups **The Routledge International Handbook of Goffman Studies** Michael Hviid Jacobsen, Greg Smith, 2022-06-29 This book explores the fertility and enigma of Erving

Goffman's sociological reasoning and its capacity to shed fresh light on the fundamental features of human sociality. Thematically arranged, it brings together the work of leading scholars of Goffman's work to explore the concepts and themes that define Goffman's analytical preoccupations, examining the ways these ideas have shaped significant fields of study and situating Goffman's sociology in comparison to some eminent thinkers often linked with his name. Through a series of chapters informed by the same inventive and imaginative spirit characteristic of Goffman's sociology, the book presents fresh perspectives on his contribution to the field and reveals the value of his thought for a variety of disciplines now increasingly aware of the importance of Goffman's sociology to a range of social phenomena. A fresh perspective on the legacy of one of sociology's most important figures. The Routledge International Handbook of Goffman Studies will appeal to scholars across the social sciences with interests in interactionist and micro-sociological perspectives.

Exploring Grief Michael Hviid Jacobsen, Anders Petersen, 2019-09-24. As modern society's routine sequestration of death and grief is increasingly replaced by late modern society's growing concern with existential issues and emotionality, this book explores grief as a social emotion, bringing together contributions from scholars across the social sciences and humanities to examine its social and cultural aspects. Thematically organised in order to consider the historical changes in our understanding of grief, literary treatments of grief, contemporary forms of grief, and grief as a perspective from which to engage in critique of society, it provides insights into the sociality of grief and will appeal to scholars of sociology, social theory, and cultural studies with interests in the emotions and social pathologies.

Envisaging Death Michele Aaron, 2014-07-18. *Envisaging Death* Visual Culture and Dying enters the expanding field of Death Studies and connects some of its key interpretive frameworks, such as issues of internment, practice, trauma, or end-of-life care, to visual culture and more than that, to visual culture's socio-political, geographic, and aesthetic specificities. Where the prevailing picture of death within this field is as a Western experience framed by its denial on one side and its sensationalism on the other, this collection confronts the specifics of death's marginalisation, its experience as local rather than universal, and the precise relationship between the context and the cultural mediation of death. Who and where you are, which part of the world you live in, whether you are famous or wealthy, subject to natural catastrophe, civil unrest, or high-tech healthcare, has enormous influence on how your death is marked, imaged, and imagined. As such, this book addresses the socio-cultural factors permeating and styling the visual and inevitably material treatment of death and dying in a broad array of personal and national settings. Advanced society has been characterised by an increased distancing of death from the everyday and its distortion or invisibility within the public sphere. The essays collected here return some shape and context and geo-politics to the treatment of death and dying within contemporary culture and specifically within contemporary visual culture, which provides an ever more dominating forum for society's depiction of and dealings with death. Charting important new interdisciplinary terrain, scholars and practitioners from a wide range of fields address an assortment of cultural mediations of real, fictional, or fictionalised death. They navigate

in different ways the fraught policed but always relative distance between the living and the dead which characterises these mediations a distance which works inevitably to reassure and re secure those supposedly untouched by death and dying Envisaging Death whether through discussion of the cemetery landscape the still or moving image the therapeutic or educational art practice addresses how such a distance is reinforced It also crucially explores countless cases of and increasing possibilities for the disruption of this distance With the various crises of current times be they economic environmental or regional such possibilities for this disruption and the altered dynamics of human connection that they represent can only gain in significance

Natural Burial Douglas Davies, Hannah Rumble, 2012-07-26 An exploration of traditional and emerging spiritualities of life and death in light of natural burial and other recent innovations in bodily disposal

Corpse Care Cody J. Sanders, Mikeal C. Parsons, 2023-01-03 Corpse Care relates the history of death care in the U S to craft robust constructive practical ethics for tending the dead It specifically relates corpse care to economic environmental and pastoral concerns Death and the treatment of the dead body loom large in our collective cultural consciousness The authors explore the materiality and meaning of the dead body and the living s relationship to it All the biggest questions facing the planetary human community relate in one way or another to the corpse Surprisingly Christian communities are largely missing in the discussion of the dead having abdicated the historic role in care for the dead to the funeral industry Christianity has stopped its reflection about the body once that body no longer bears life Corpse Care stakes a claim that the fact of embodiment this incarnational truth this process of our bodily becoming is a practical ethical and theological necessity

The Oxford Handbook of the Archaeology of Death and Burial Sarah Tarlow, Liv Nilsson Stutz, 2013-06-06 The Oxford Handbook of the Archaeology of Death and Burial reviews the current state of mortuary archaeology and its practice highlighting its often contentious place in the modern socio politics of archaeology It contains forty four chapters which focus on the history of the discipline and its current scientific techniques and methods Written by leading international scholars in the field it derives its examples and case studies from a wide range of time periods such as the middle palaeolithic to the twentieth century and geographical areas which include Europe North and South America Africa and Asia Combining up to date knowledge of relevant archaeological research with critical assessments of the theme and an evaluation of future research trajectories it draws attention to the social symbolic and theoretical aspects of interpreting mortuary archaeology The volume is well illustrated with maps plans photographs and illustrations and is ideally suited for students and researchers
