Duffy, Halford Ross Ryan, 1987 A collection of encyclopedia styled essays on 58 leading political social and religious speakers American Orators of the Twentieth Century fills an enormous void in the literature on American public address Each assesses the orator's impact on American life and delineates such aspects of his or her speaking as argumentation style persuasive techniques delivery and methods of speech preparation Appended to each essay is a chronology of the orator's major speeches and a list of information sources that includes leading research collections speech anthologies critical studies and biographies Given the large number of contributors the entries are remarkably even in coverage and clarity On the whole the editors have achieved a sensible balance among mainstream political leaders religious orators and spokesmen and spokeswomen for a variety of historical and contemporary causes If we judge the book on the quality of the essays it contains rather than on the alternative speakers it might have included it deserves high marks Scrupulously edited superbly produced and splendidly bound it will be the standard reference work on its subject for years to come Amazon.com      **Women's**
