

REPRESSION, RESISTANCE, AND DEMOCRATIC TRANSITION IN CENTRAL AMERICA

Edited by THOMAS W. WALKER and ARIEL G. ARMONY

Repression Resistance And Democratic Transition In Central America

James J. Phillips

Repression Resistance And Democratic Transition In Central America:

Repression, Resistance, and Democratic Transition in Central America Latin American Studies Association. International Congress, 2000 For Central America the last third of the 20th century was a time of dramatic change in which most countries shifted from dictatorships to formal political democracy This study demonstrates how revolt and revolution served as the motors of political change in Central America The book examines the various ways in which democratic transition has taken place all of which have been distinct from countries in South America where democratization was relatively sudden and peaceful It analyzes the major forces shaping change in the region and provides the recent political history of all six Central American countries Nicaragua El Salvador Guatemala Honduras Costa Rica and Panama Each country's particular transition should add to the reader's understanding of democratization *Crime and Corruption in New Democracies* J. Moran, 2011-10-04 One of the dark sides to democratization can be crime and corruption This book looks at the way political liberalization affects these practices in a number of ways whilst also challenging some of the scare stories about democracy The book also brings the politics of power back into an examination of corruption **Women Legislators in Central America** Michelle A. Saint-Germain, Cynthia Chavez Metoyer, 2009-03-16 During the years between 1980 and 1999 in the midst of war and economic crisis a record number of women were elected to national legislatures in Central American republics Can quantitative increases in the presence of elected women in Central America produce qualitative political changes In this detailed study Michelle A Saint Germain and Cynthia Chavez Metoyer explore the reasons for this unprecedented political rise of women and what effect it has had on the region Focusing on Costa Rica El Salvador Guatemala Honduras and Nicaragua the authors analyze national and regional indicators to evaluate various hypotheses concerning the reasons for women's electoral success in the region as well as to make comparisons with findings from other world regions They find that the election of more women depends on three things the presence of a crisis a pool of politically experienced women and a culture of gender consciousness They also compare the characteristics of Central American women legislators to women in other national legislatures around the world The authors document how elected women have used their policy making power to begin to change the lives of all Central Americans women and men alike In more than seventy five in depth personal interviews these women legislators reflect on their lives political careers and gender identities in their own words providing deep insights into recent events in this region **Latin American Political History** Ronald M. Schneider, 2018-05-04 This chronologically organized new text provides comprehensive historical coverage of Latin America's politics and development from colonial times to the twenty first century **At War's End** Roland Paris, 2004-05-24 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts immediate democratization and marketization Transforming war shattered states into market democracies is basically sound but pushing this process too quickly can have damaging and destabilizing effects

The process of liberalization is inherently tumultuous and can undermine the prospects for stable peace. A more sensible approach to post conflict peacebuilding would seek first to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly as conditions warrant. Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs. Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer lasting and ultimately more intrusive forms of intervention in the domestic affairs of these states. This book was first published in 2004.

Politics of Latin America Harry E. Vanden, Gary Prevost, 2021. An introduction to twenty first century Latin America. Early history. Democracy and dictators. A historical overview from independence to the present day. The other Americans. Society, family and gender. Religion in Latin America. The political economy of Latin America. Presidential elections. Appendix 2. Recent legislative elections.

The Next Christendom Philip Jenkins, 2011-09-13. In this new and substantially expanded Third Edition, Philip Jenkins continues to illuminate the remarkable expansion of Christianity in the global South in Africa, Asia and Latin America. Drawing upon the extensive new scholarship that has appeared on this topic in recent years, he asks how the new Christianity is likely to affect the poor among whom it finds its most devoted adherents. How should we interpret the enormous success of prosperity churches across the Global South? Politically, what will be the impact of new Christian movements? Will Christianity contribute to liberating the poor, to give voices to the previously silent, or does it threaten only to bring new kinds of division and conflict? Does Christianity liberate women or introduce new scriptural bases for subjection? Acclaim for previous editions of *The Next Christendom*. Named one of the Top Religion Books of 2002 by USA Today. Named One of the Top Ten Religion Books of the Year by Booklist 2002. Winner of the Christianity Today Book Award in the category of Christianity and Culture 2002. Jenkins is to be commended for reminding us throughout the often gripping pages of this lively work that the history of Christianity is the history of innovative and unpredictable adaptations. The New York Times Book Review. This is a landmark book. Jenkins's thesis is comprehensively researched; his analysis is full of insight and his projection of the future may indeed prove to be prophetic. Baptist Times. A valuable and provocative look at the phenomenon widely ignored in the affluent North but likely to be of enormous importance in the century ahead. *The Next Christendom* is chillingly realistic about the relationship between Christianity and Islam. Russell Shaw. Crisis. If the times demand nothing less than a major rethinking of contemporary global history from a Christian

perspective The Next Christendom will be one of the significant landmarks pointing the way Mark Noll Books Culture The Promise of Participation D. Altschuler, J. Corrales, 2013-11-27 To what extent does participation in one particular domain of public life lead to wider participation in other areas Through the use of an unprecedented survey supported by case studies this book explores how participatory governance in community managed schools can alter the civic and political behaviour of participants

Extracting Honduras James J. Phillips, 2022-01-04 With a focus on Honduras James J Phillips explores the deeper causes of the massive emigration of Central Americans to the United States Going beyond the frequently given reasons for migration Phillips provides a detailed account of how the frenzied extraction of natural resources has created massive community displacement dependency poverty and vulnerability while encouraging corruption violence gang recruitment drug trafficking militarization of Honduran society and systematic repression of popular protest and resistance Highlighting how this situation is tied to the colonial or imperial extractive relationship of Honduras to the United States Phillips contends that the usual policy of development aid and investment to stem migration will only worsen the conditions that create migration With this book Phillips depicts how the Central American immigration crisis shapes life in the United States and Honduras while making clear that the effects are not what populist politics imagine

Conflict Prevention and Peace-building in Post-War Societies T. David Mason, James D. Meernik, 2006-05-02 This volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts
