Interventions in Human Sexuality Carol Nadelson, 2012-12-06 Despite much progress in the past ten years American medical schools have woefully inadequate sex education curricula While some have a reasonable amount of lecture time few have clinical opportunities for students to develop practical skills in working with patients who are struggling with sexual problems It is my impression that the same is true in medical and gynecological residencies as well as in graduate schools of psychology counseling and social work This book was specifically written to help fill that gap This is a book for clinicians and it will provide a wealth of practical clinical knowledge and skills in dealing with the gamut of patient s sexual concerns problems and dilemmas Twenty four experts have contributed eighteen chapters which address both the common and unusual sexual issues encountered in practice These include sexual concerns from childhood to old age gender identity and sexual preference sexual dysfunction including that of the physically ill and disabled counseling with students premarital marital and divorced patients fertility and infertility and chapters dealing with rape incest and other sexual contacts between adults and children Of particular importance are chapters on human sexuality in American minority populations a chapter on alcohol medication and other drugs and a chapter on medical management of sexual problems in the gay population a subject long ignored by the profession The focus on practical intervention and skill development is amplified by the concluding four appendixes devoted to patient management problems **Reproductive Restraints** Sanjam

Ahluwalia, 2010-10-01 *Reproductive Restraints* traces the history of contraception use and population management in colonial India while illuminating its connection to contemporary debates in India and birth control movements in Great Britain and the United States Sanjam Ahluwalia draws attention to the interactive and relational history of Indian birth control by including western activists such as Margaret Sanger and Marie Stopes alongside important Indian campaigners In revealing the elitist politics of middle class feminists Indian nationalists western activists colonial authorities and the medical establishment Ahluwalia finds that they all sought to rationalize procreation and regulate women while invoking competing notions of freedom femininity and family Ahluwalia s remarkable interviews with practicing midwives in rural northern India fills a gaping void in the documentary history of birth control and shows that the movement has had little appeal to non elite groups in India Finding that Jaunpuri women s reproductive decisions are bound to their emotional cultural and economic reliance on family and community Ahluwalia presents the limitations of universal liberal feminist categories which often do not consider differences among localized subjects She argues that elitist birth control efforts failed to account for Indian women s values and needs and have worked to restrict reproductive rights rather than liberate subaltern Indian women since

colonial times *Youth Organizing for Reproductive Justice* Chris Barcelos, 2025-03-04 This helpful how to guide introduces the practices history and politics of youth movements for justice in the United States Grounded in the struggles and worldmaking of queer and trans youth and people of color Youth Organizing for Reproductive Justice shows us how all youth organizing is reproductive justice as young people resist systems of oppression that limit bodily autonomy and self determination Through case studies activist spotlights and organizing how tos this book provides a powerful tool for understanding the interconnected struggles at the center of youth activism From the school to prison pipeline to transgender youth s access to gender affirming care to support for pregnant and parenting teens Chris Barcelos shows that reproductive justice inspires political organizing across a range of issues This book will help mobilize scholars activists policy makers reproductive justice nonprofit workers and youth organizers toward collective liberation **Textbook of Contraception, Sexual and Reproductive Health** Johannes Bitzer, Tahir A. Mahmood, 2024-01-25 This practical evidence based handbook will meet the needs of those working in the field of SRH care and will also help those preparing for the joint EBCOG and ESCRH Certificate and Diploma examination in Sexual and Reproductive Health and is designed to closely follow the examination s curriculum **A Guide for Christian Sex Education of Youth** Thomas Edwards Brown, 1968 *Marriage, the Family, and Personal Fulfillment* David A.
