Republic of China Liang-jen Chang,1989      Republic of China Liang-jen Chang,1989      **Republic of China** Liang-jen Chang,1989      **People's Republic of China Yearbook 1989-90** ,1990      **No Man an Island** James Udden,2017-11-21

Taiwan is a peculiar place resulting in a peculiar cinema with Hou Hsiao hsien being its most remarkable product Hou s signature long and static shots almost invite critics to give auteurist readings of his films often privileging the analysis of cinematic techniques at the expense of the context from which Hou emerges In this pioneering study James Udden argues instead that the Taiwanese experience is the key to understanding Hou s art The convoluted history of Taiwan in the last century has often rendered fixed social and political categories irrelevant Changing circumstances have forced the people in Taiwan to be hyperaware of how imaginary identity above all national identity is Hou translates this larger state of affairs in such masterpieces as City of Sadness The Puppetmaster and Flowers of Shanghai which capture and perhaps even embody the elusive slippery contours of the collective experience of the islanders Making extensive uses of Chinese sources from Taiwan the author shows how important the local matters for this globally recognized director In this new edition of No Man an Island James Udden charts a new chapter in the evolving art of Hou Hsiao hsien whose latest film The Assassin earned him the Best Director Award at the Cannes Film Festival in 2015 Hou breaks new ground in turning the classic wuxia genre into a vehicle to express his unique insight into the working of history The unconventional approach to conventions is quintessential Hou Hsiao hsien An excellent and groundbreaking volume This book s very precise analyses of the films as well as their context make it the primary source for any scholar working on Hou in English Chris Berry King s College London In this first book length study on Hou Hsiao hsien James Udden illuminates the most intriguing yet mystifying filmmaker in world cinema No Man an Island is without doubt a major contribution to the fields of Chinese language cinema and film studies Emilie Yueh yu Yeh Lingnan University Hong Kong      Wealth and Freedom Gerald A. McBeath,2018-12-07

First published in 1998 this volume examines the economic miracle of Taiwan s remarkable transition from poverty to one of the world s most affluent economies ten years after its emergence from martial law Gerald A McBeath explores Taiwan from its time as a country barely recovered from Japanese occupation and wartime damage to a nation filled with new office buildings and skyscrapers where few think twice about frequenting expensive restaurants Beginning with the State of Taiwan between 1945 and 1986 McBeath progresses through the transformation of the Party State the changing status of economic interests policy making in the democratic era and Taiwan s internationalisation campaigns      **Industry Policy in Taiwan and Korea in the 1980s** Heather Smith,2000-01-01 This is a very good piece of research As a book it is important because it focuses on important conceptual and empirical issues namely the role of government and industrial policy in promoting rapid economic growth and particularly the case of Taiwan as an exemplar of rapid industrial development The author convincingly refutes the view that sector specific industrial policy was an important source of Taiwan s rapid industrial

growth in the 1980s Hugh T Patrick Columbia University US Dr Smith takes Taiwan and Korea as case studies to address fundamental questions concerning the rapid growth and subsequent financial crisis in East Asia were the Taiwan and Korean governments interventionist in the 1980s did industry policy play a role in the financial crisis of 1997 1998 Heather Smith has put together a comprehensive discussion of strategic industry policy She analyses at length the fascinating connection between the growth of the chaebol in Korea its links to the government and to the financial sector and the unravelling of the financial crisis in Korea Her analysis throws light on the fundamental strength that Taiwan has shown throughout the crisis These are fascinating and important questions vital to the economics profession and of interest to the enormous contingent of economic commentators following the East Asian crisis Ron Duncan Australian National University Australia The growth in global competitiveness and interdependence has led to an increased interest in the role of industrial policy in achieving economic growth objectives Heather Smith reignites the contentious debate of the role of the state using East Asian economic development in general with particular emphasis on Taiwan and Korea Using quantitative techniques the author analyses the view that industry policy interventions were a necessary factor explaining Taiwan s economic performance in the 1980s Taiwan John F Copper,2003-01-23 In the fourth edition of Taiwan Nation State or Province Professor Copper examines Taiwan s geography and history its society and culture its economy its political system and its foreign and security policies in the context of Taiwan s uncertain political status whether a sovereign nation or a province of the People s Republic of China Copper argues that Taiwan s very rapid and successful democratization while leaders in Beijing oppose democratic change suggests Taiwan should be independent and separate from China increasingly important economic links between Taiwan and China says the opposite Professor Copper argues that exacerbating this problem Washington and Beijing espouse opposing policies regarding resolution of the Taiwan issue and that has made the Taiwan Strait the world s number one flashpoint place where major powers collide and where war using weapons of mass destruction may be used This matter has been recently been given further salience by the shift of political power to Chen Shui bian who was elected president in 2000 and the victory of his opposition party which has long advocated an independent Taiwan in the 2001 legislative election and by America s growing perception of a China danger and concern about Beijing s military expansion that is in large part aimed at Taiwan Taiwan Nation State or Province is unlike other books of this genre pursues the theme of Taiwan s unique status and seeks to gauge its future as one of the world s vortex political entities **Taiwan** John Franklin Copper,2019-11-13 In this newly revised and updated seventh edition of Taiwan Nation State or Province Copper examines Taiwan s geography and history society and culture economy political system and foreign and security politics in the context of Taiwan s uncertain status as either a sovereign nation or a province of the People s Republic of China Analyzing possible future scenarios and trends that could affect Taiwan s status the author argues that Taiwan s very rapid and successful democratization suggests Taiwan should be independent and separate from China while economic links between Taiwan and China indicate the
