Republics 1 5 Ed Shorey:

The Theoretic Life - A Classical Ideal and its Modern Fate Alexander S. Rosenthal-Pubul, 2019-01-01 In this work Alexander Rosenthal Pubul presents a broad examination of the ancient philosophical question What is the good life while addressing how the liberal arts can help us to answer this question Greek philosophy distinguished between the noble what is good in itself from the merely useful good for something else From thence follows the distinction between the liberal arts which pursue such noble goods and the mechanical arts which are only instrumental For Aristotle the most noble and excellent good is wisdom itself Hence the theoretic life devoted to the love of wisdom for its own sake philosophy is the highest and the most excellent This work theorizes the origins of modernity in a rebellion against this Greek conception resulting in a complete inversion of the classical hierarchy Sir Francis Bacon reconceiving the purpose of knowledge as power enthroned technology over philosophy and the liberal arts The unfolding of the modern Baconian revolution progressively sidelines the liberal arts as practical economic and technical utility become the standard of value In assessing this problem the book engages in a capacious journey across disciplines like philosophy history art politics and science It is also a veritable tour across the Western intellectual tradition including Socrates Plato Aristotle Cicero Seneca Thomas Aquinas Bacon Descartes Hume Kant Nietzsche Dewey Berdyaev Einstein and Heidegger It pleads the urgent need to preserve the humanizing cultural ideals of the ancient classics against the modern tyranny of utility and the dangers of a new barbarism

Image and Argument in Plato's Republic Marina McCoy, 2020-08-01 Although Plato has long been known as a critic of imagination and its limits Marina Berzins McCoy explores the extent to which images also play an important positive role in Plato's philosophical argumentation She begins by examining the poetic educational context in which Plato is writing and then moves on to the main lines of argument and how they depend upon a variety of uses of the imagination including paradigms analogies models and myths McCoy takes up the paradoxical nature of such key metaphysical images as the divided line and cave on the one hand the cave and divided line explicitly state problems with images and the visible realm On the other hand they are themselves images designed to draw the reader to greater intellectual understanding The author gives a perspectival reading arguing that the human being is always situated in between the transcendence of being and the limits of human perspective Images can enhance our capacity to see intellectually as well as to reimagine ourselves vis vis the timeless and eternal Engaging with a wide range of continental dramatic and Anglo American scholarship on images in Plato McCoy examines the treatment of comedy degenerate regimes the nature of mimesis the myth of Er and the nature of Platonic dialogue itself

The National Union Catalog, Pre-1956 Imprints, 1968 *The Transformation of Plato's Republic* Kenneth Dorter, 2006-01-01 Author Ken Dorter in a passage by passage analysis traces Plato's depiction of how the most basic forms of human functioning and social justice contain the seed of their evolution into increasingly complex structures as well as the seed of their degeneration Dorter also traces Plato's tendency to begin an investigation with models

based on rigid distinctions for the sake of clarity which are subsequently transformed into more fluid conceptions that no longer sacrifice complexity and subtlety for clarity
