

"I know you're excited, but I'd be lying if I said I wasn't a bit nervous for you." He worried, shifting his hand on the wheel. She paused, glancing over at him.

"Why's that?"

"You're a target for them," He went on quietly. "I know, you haven't seen your friends in forever, but any moment you're not under our protection... the 'Cons... they'll try to kill you."

"Don't worry yourself too much," Aronnax reassured him with a grin. "They take too long to notice anything. Plus, I'll only be gone for a day."

"What's the worst that could happen?"

## **Rerun A Novel:**

*Rerun* Neil Crichton, 1976      **Writing at the Limit** Daniel Punday, 2012-05-01 While some cultural critics are pronouncing the death of the novel a whole generation of novelists have turned to other media with curiosity rather than fear. These novelists are not simply incorporating references to other media into their work for the sake of verisimilitude; they are also engaging precisely such media as a way of talking about what it means to write and read narrative in a society filled with stories told outside the print medium. By examining how some of our best fiction writers have taken up the challenge of film, television, video games, and hypertext, Daniel Punday offers an enlightening look into the current status of such fundamental narrative concepts as character, plot, and setting. He considers well-known postmodernists like Thomas Pynchon and Robert Coover, more accessible authors like Maxine Hong Kingston and Oscar Hijuelos, and unjustly overlooked writers like Susan Daitch and Kenneth Gangemi, and asks how their works investigate the nature and limits of print as a medium for storytelling. *Writing at the Limit* explores how novelists locate print writing within the contemporary media ecology and what it really means to be writing at print's media limit.

The Buffyverse Catalog Don Macnaughtan, 2015-08-21 This bibliographic guide covers the Buffyverse, the fictional worlds of the acclaimed television series *Buffy the Vampire Slayer* (1997–2003) and its spinoff *Angel* (1999–2004), as well as the original *Buffy* feature film of 1992. It is the largest and most inclusive work of its kind. The author organizes and describes both the original texts of the Buffyverse (episodes, DVDs, novels, comic books, games, and more) and the secondary materials created about the shows, including books, essays, articles, documentaries, dissertations, fan production, and websites. This vast and diverse collection of information about these two seminal shows and their feature film forebear provides an accessible, authoritative, and comprehensive survey of the subject.

Restart Gordon Korman, Chase does not remember falling off the roof; in fact, he does not remember anything about himself, and when he gets back to middle school, he begins to learn who he was through the reactions of the other kids. Trouble is, he really is not sure he likes the Chase that is being revealed, but can he take the opportunity amnesia has provided and restart his life? Source not specified.

The Birth of a Political Self Jean-Max Gaudillière, 2020-09-21 This book provides a psychoanalytic reading of works of literature, enhancing the illuminating effect of both fields. The second of two volumes, *The Birth of a Political Self*, The Jean-Max Gaudillière Seminars (2001–2014) contains seven of the *Madness and the Social Link* seminars given by psychoanalyst Jean-Max Gaudillière at the cole des hautes études en sciences sociales (EHESS) in Paris between 2001 and 2014, transcribed by Françoise Davoine from her notes. Each year the seminar was dedicated to an author who explored madness in their depiction of the catastrophes of history. Surprising the reader at every turn, the seminars speak of the close intertwining of personal lives and catastrophic historical events, and of the possibility of repairing injury to the psyche, the mind, and the body in their wake. These volumes expose the usefulness of literature as a tool for healing for all those working in therapeutic fields and will allow lovers of literature to discover a way of reading that gives access to more subtle perspectives and unsuspected

**Biodiversity** John Spicer, 2021-05-06 Our future is closely tied to that of the variety of life on Earth and yet there is no greater threat to it than us From population explosions and habitat destruction to climate change and mass extinctions John Spicer explores the causes and consequences of our biodiversity crisis In this revised and updated edition he examines how grave the situation has become over the past decade and outlines what we must do now to protect and preserve not just nature s wonders but the essential services that biodiversity provides for us seemingly for nothing      Kurt Vonnegut and the American Novel Robert T. Tally Jr., 2011-08-11 The novels of Kurt Vonnegut depict a profoundly absurd and distinctly postmodern world But in this critical study Robert Tally argues that Vonnegut himself is actually a modernist who is less interested in indulging in the free play of signifiers than in attempting to construct a model that could encompass the American experience at the end of the twentieth century As a modernist wrestling with a postmodern condition Vonnegut makes use of diverse and sometimes eccentric narrative techniques such as metafiction collage and temporal slippages to project a comprehensive vision of life in the United States Vonnegut s novels thus become experiments in making sense of the radical transformations of self and society during that curious unstable period called perhaps ironically the American Century An untimely figure Vonnegut develops a postmodern iconography of American civilization while simultaneously acknowledging the impossibility of a truly comprehensive representation      **The DVD Novel** Greg Metcalf, 2012-07-06 Now that television shows can live forever as DVD sets the stories they can tell have changed television episodes are now crafted as chapters in a season long novel instead of free standing stories This book examines how this significant shift in storytelling occurred In 1981 NBC s Hill Street Blues combined the cop show and the soap opera to set the model for primetime serial storytelling which is evident in The Sopranos The Wire and Breaking Bad In 1963 ABC s The Fugitive showed how an anthology series could tell a continuing tale influencing The X Files House and Fringe In 1987 NBC s The Days and Nights of

Molly Dodd changed the situation comedy into attitudinal comedy leading to *Weeds* *Nurse Jackie* and *Entourage* The DVD Novel *How the Way We Watch Television Changed the Television We Watch* not only examines how American television shows changed but also what television artists have been able to create The book provides an alternate history of American television that compares it to British television and explains the influence of Dennis Potter's *The Singing Detective* on the development of long form television and the evolution of drama shows and sitcoms The work considers a wide range of network and cable television shows paying special attention to the work of Steven Bochco David Milch and David Simon and spotlighting the influence of graphic novels and literary novels in changing television

**Moscow, the Fourth Rome**

Katerina Clark, 2011-11-15 The sixteenth century monk Filofei proclaimed Moscow the Third Rome By the 1930s intellectuals and artists all over the world thought of Moscow as a mecca of secular enlightenment Clark shows how Soviet officials and intellectuals sought to establish their capital as the Fourth Rome a cosmopolitan post Christian beacon for the rest of the world
