Research Advances in Alcohol and Drug Problems

Reginald G. Smart, Howard D. Cappell, Frederick B Glaser, Yedy Israel, Harold Kalant, Robert E. Popham, Wolfgang Schmidt, Edward M. Sellers, 2013-03-13 This volume is the eighth in the Research Advances Series and the fifth published by Plenum Press The purpose of the series is to review new work in rapidly changing fields We do not expect reviews to cover the whole field of work on alcoholism and addiction Nor do we expect that they will be like annual reviews covering all work in a delimited field Our reviews are designed to explore only the most exciting parts of the total field and to focus on conclusions that can be made about them The series publishes one volume each year Volume 8 is an omnibus rather than a theme volume in that a wide range of topics is covered including research on alcohol opiates and tobacco As usual the greater emphasis is on alcohol research reflecting the importance of the problem and the volume of work to be reviewed With Volume 8 come some changes in the Editorial Board It will be the last volume in the series for Robert E Popham who has resigned from the Board He has been with the series since its inception and has contributed a great deal to its development The members of the Board are grateful for his help We are adding two new members Dr Howard Cappell whose field is experimental psychology and Dr Edward M Sellers in clinical medicine and pharmacology

Research Advances in Alcohol and Drug Problems H.M. Annis, H.D. Cappell, F.B. Glaser, M.S. Goodstadt, L.T. Kozlowski, 2013-11-11 This is the tenth volume in the Research Advances series and the seventh published by Plenum Press Volume 10 is another omnibus volume providing specialized and advanced reviews in a number of areas related to the use of alcohol illicit drugs and tobacco We include also a brief history of the Center for Alcohol Studies that gives Mark Keller's unique perspective on this noted institution Two of the chapters are decidedly longer than the others very long chapters have appeared occasionally in the past and we think that it is one of the strengths of the series that we are able to accommodate such reviews Again the editorial board has changed After several years of service Reginald G Smart has stepped down New to the board are Helen M Annis Michael S Goodstadt Lynn T Kozlowski and Evelyn R Vingilis This is likely to be the sole volume for which Goodstadt is on the board since before completion of this volume he moved from the Addiction Research Foundation to the Center for Alcohol Studies Rutgers University

Research Advances in Alcohol and Drug Problems Reginald Smart, 2013-11-22 This book continues the series of reviews of research advances first published in 1974 The editors aim here is to present critical and integrative reviews by internationally recognized scholars of areas in which there has been much recent research In this task we have been greatly helped by the staff of Plenum Press and the Advisory Panel listed at the front of this volume Several members of the Panel have retired Dr W M D Paton Dr K Bruun Dr K F Killam and Dr J R Seeley Dr Klaus Makela has accepted our invitation to join the Panel Unfortunately one member of the Panel Professor William McGlothlin died as a result of a tragic accident He was a gifted and sensitive researcher His work over many years was well known to those

studying alcohol and drug problems We want to acknowledge his contributions to the Research Advances Series and to the field in general The editors wish to acknowledge the help of Julliana Newell Ayoub in preparation of this volume This volume contains three papers by H Fingarette R Room and B Kissin on The Disease Concept They were originally prepared for an earlier volume but could not be included because of scheduling problems The editors and not the authors are responsible for this delay Because they are primarily philosophical and theoretical in nature they are not diminished in value by the lesser number of references to recent research Research Advances in Alcohol and Drug Problems Howard Cappell,2013-11-11 This the ninth volume in the series appears some 13 years after the first Like most of its predecessors Volume 9 is deliberately eclectic covering a range of topics that the editors think worthy of inclusion Some of the chapters such as the review of the literature on benzodiazepines represent areas that have received relatively little attention in previous volumes largely because the literature has not previously been ripe for review Others represent literatures that have been reviewed in the past but which continue to advance in sufficient measure that their ripening never ceases Shepard Siegel s contribution represents a relative rarity in previous volumes a chapter not laden with a consideration of current empirical work but a reflective essay designed to stir thought with some provocative ideas The editors trust that readers will continue to find Research Advances to be an important repository of knowledge in the alcohol and drug fields The Editors Toronto IX Contents 1 THE HUMAN PHARMACOLOGY OF NICOTINE Neal L Benowitz 1 Introduction 2 Nicotine in Tobacco Products 2 3 Pharmacokinetics of Nicotine 4 4 Nicotine and Cotinine Blood Levels during Tobacco Use 14 5 Intake of Nicotine during Cigarette Smoking 18 6 Biochemical Markers of Nicotine Intake 18 7 Regulation of Nicotine Intake during Cigarette Smoking 23 8 Pharmacology of Nicotine 28 9 Importance of Nicotine in Human Disease 41 References 45 2 BENZODIAZEPINES AS DRUGS OF ABUSE AND DEPENDENCE 53 Howard D Cappell Edward M Sellers and Usua Busto 1 **Research Advances in Alcohol & Drug Problems** ,1974 **Research Advances in Alcohol and Drug Problems.** Yedy Israel,1983

Research Advances in Alcohol and Drug Problems Yedy Israel,Frederick B. Glaser,Harold Kalant,Robert E. Popham,Wolfgang Schmidt,Reginald G. Smart,2013-11-11 Over the last decade the world has experienced a growing interest in problems associated with the nonmedical use of drugs This interest has corresponded to a real growth in the extent diversity and social impact of the use of alcohol and drugs in many societies As a result the amount of research and writing on the subject of drug problems has greatly increased and it has become very difficult for one individual to keep up with all the relevant literature There is thus an acute need in the field for critical reviews that assess current developments and the present series is intended to fill this need The series is not to be an annual review in the usual sense The aim is not to cover all the work reported during the preceding year in relation to a fixed selection of topics Rather it is to present each year evaluative papers on topics in which enough recent progress has been made to alter the general scope in a particular area Owing to the multidisciplinary nature of problems of drug use and dependence the papers published in each volume will be

drawn from several disciplines However some volumes may be devoted to one particular problem with individual reviews and papers examining various aspects of it The composition of the editorial board and the international advisory board reflects these objectives The editors are members of the senior scientific staff of the Addiction Research Foundation of Ontario
