Salinas de Los Nueve Cerros, Guatemala Brian D. Dillon, 1977 The Archaeological Ceramics of Salinas de Los Nueve Cerros, Alta Verapaz, Guatemala Brian Dervin Dillon, 1992 **The Archaeological Ceramics of Salinas de Los Nueve Cerros, Alta Verapaz, Guatemala** Brian D. Dillon, 1979 **Approaches to Monumental Landscapes of the Ancient Maya** Brett A. Houk, Barbara Arroyo, Terry G. Powis, 2019-12-11 This volume brings together a wide spectrum of new approaches to ancient Maya studies in an innovative exploration of how the Preclassic and Classic Maya shaped their world. Moving beyond the towering temples and palaces typically associated with the Maya civilization, contributors present unconventional examples of monumental Maya landscapes. Featuring studies from across the central Maya lowlands, Belize and the northern and central Maya highlands and spanning over 10,000 years of human occupation in the region, these chapters show how the word monumental can be used to describe natural and constructed landscapes, political and economic landscapes, and ritual and sacred landscapes. Examples include a massive system of aqueducts and canals at the Kaminaljuyu site, a vast arena designed for public spectacle at Chan Chich, and even the complex realms of Maya cosmology as represented by the ritual cave at Las Cuevas. By including physical, conceptual, and symbolic ways, monumentality pervaded ancient Maya culture. This volume broadens traditional understandings of how the Maya interacted with their environment and provides exciting analytical perspectives to guide future study. A volume in the series *Maya Studies* edited by Diane Z. Chase and Arlen F. Chase. *The Real Business of Ancient Maya Economies* Marilyn A. Masson, David A. Freidel, Arthur A. Demarest, 2020-08-25 A timely synthesis of the latest research and perspectives on ancient Maya economics, this volume illuminates the sophistication and intricacy of economic systems in the Preclassic, Classic, and Postclassic periods. Contributors from a wide range of disciplines move beyond paradigms of elite control and centralized exchange to focus on individual agency, highlighting production and exchange that took place at all levels of society. Case studies draw on new archaeological evidence from rural households and urban marketplaces to reconstruct the trade networks for tools, ceramics, obsidian, salt, and agricultural goods throughout the empire. They also describe the ways household production integrated with community, regional, and interregional markets. Redirecting the field of ancient Maya economic studies away from simplistic characterizations of the past by fully representing the range of current views on the subject, this volume delves deeply into multiple facets of a complex interdependent material world. Ancient Maya Arthur Demarest, 2004-12-09 In this new archaeological study Arthur Demarest brings the lost pre-Columbian civilization of the Maya to life In applying a holistic perspective to the most recent evidence from archaeology paleoecology and epigraphy this theoretical interpretation emphasises both the brilliant rain forest adaptations of the ancient Maya and the Native American spirituality that permeated all aspects of their daily life Demarest draws on his own discoveries and the findings of colleagues to reconstruct the complex lifeways and volatile political history of the Classic Maya states of the first to eighth centuries He provides a new explanation of the long standing mystery of the ninth century abandonment of most of the great rain forest cities Finally he draws lessons from the history of the Classic Maya cities for contemporary society and for the ongoing struggles and resurgence of the modern Maya peoples who are now re-emerging from six centuries of oppression

demonstrate that the Maya conceptualized the body in varying roles as a metaphor of time as a gendered sexualized being in distinct stages of life as an instrument of honor and dishonor as a vehicle for communication and consumption as an exemplification of beauty and ugliness and as a dancer and song maker Their findings open a new avenue for empathetically understanding the ancient Maya as living human beings who experienced the world as we do through the body Practical Archaeology Brian D.
