Weinberg, Staci Newmahr, 2014-03-06 Offering an anthology of original articles on sexuality from a sociological perspective Selves Symbols and Sexualities An Interactionist Anthology focuses on the diverse and multi layered meanings of sexuality sexual behaviors and sexual identities Thomas S Weinberg and Staci Newmahr bring you essays that explore sexuality as a social process As a whole the book takes the perspective that what each of us understands to be sexual is constructed through everyday social processes and interaction situated in particular spaces and moments identified through our social sexual presentations and symbolized through language objects and practices The book is organized around these four distinct but interrelated processes and augmented by personal narratives around relevant issues The authors goals for the book are to engage students in the sociological enterprise by providing interesting and insightful entries that emphasize the importance of meaning making in human sexuality and to provide them with conceptual tools to understand human sexuality in a complex and quickly changing sexual landscape

The Gendered Society Michael S. Kimmel, 2017 The sixth edition of The Gendered Society explores current thinking about gender both inside academia and in our everyday lives Michael Kimmel challenges the claim that gender is limited to women s experiences his compelling and balanced study of gender includes both masculine and feminine perspectives Kimmel makes three bold and persuasive statements about gender First he demonstrates that gender differences are often extremely exaggerated in fact he argues that men and women have much more in common than we think they do Kimmel also challenges the pop psychologists who suggest that gender difference is the cause of inequality between the sexes instead he reveals that the reverse is true gender inequality itself is the cause of the differences between men and women Finally he illustrates that gender is not merely an element of individual identity but a socially constructed institutional phenomenon
