William Shakespeare

Shakespeare And History:

Shakespeare's History of King Henry the Sixth William Shakespeare,1910 **The English History Play in the Age of Shakespeare** Irving Ribner,2005 Recognized as one of the leading books in its field The English History Play in the Age of Shakespeare presents the most comprehensive account available of the English historical drama from its beginning to the closing of the theatres in 1642 **Shakespeare's History Plays** Graham Holderness,1992 **Shakespeare's History Plays: the Family and the State** Robert B. Pierce,1971 Pierce systematically examines the nine history plays of Shakespeare in the 1590s in the approximate sequence of their composition He discovers in them a constant elaboration and rich development of the correspondence between the family and the state into an ever more subtle and effective dramatic technique Through a careful analysis of the language characterization and plots of the chronicles Pierce demonstrates how the family served as an analogue of those grave events that marked the turbulent reign of King John and the subsequent terrible century of civil strife and wars with the French that haunted the imaginations of Englishmen more than a hundred years later At times he finds Shakespeare depicts the family as a miniature of the kingdom and the life of the family becomes a direct or ironic comment on the larger life of the commonwealth At others the family is inextricably bound up in a political situation by means of characters who are portrayed both in their public roles and as members of their families *The Cambridge Companion to Shakespeare's History Plays* Michael Hattaway,2002-12-05 Shakespeare s history plays have been performed more in recent years than ever before in Britain North America and in Europe This 2002 volume provides an accessible wide ranging and informed introduction to Shakespeare s history and Roman plays It is attentive throughout to the plays as they have been performed over the centuries since they were written The first part offers accounts of the genre of the history play of Renaissance historiography of pageants and masques and of women s roles as well as comparisons with history plays in Spain and the Netherlands Chapters in the second part look at individual plays as well as other Shakespearean texts which are closely related to the histories The Companion offers a full bibliography genealogical tables and a list of principal and recurrent characters It is a comprehensive guide for students researchers and theatre goers alike

Shakespeare Graham Holderness,Nick Potter,John Turner,1988 **Shakespeare's History Plays** ,1972

Shakespeare's History Plays Robert Watt,2014-06-11 Shakespeare s history plays are central to his dramatic achievement In recent years they have become more widely studied than ever stimulating intensely contested interpretations due to their relevance to central contemporary issues such as English national identities and gender roles Interpretations of the history plays have been transformed since the 1980s by new theoretically informed critical approaches Movements such as New Historicism and cultural materialism as well as psychoanalytical and post colonial approaches have swept away the humanist consensus of the mid twentieth century with its largely conservative view of the plays The last decade has seen an emergence of feminist and gender based readings of plays which were once thought overwhelmingly masculine in their concerns This

book provides an up to date critical anthology representing the best work from each of the modern theoretical perspectives The introduction outlines the changing debate in an area which is now one of the liveliest in Shakespearean criticism

Shakespeare's History of King Henry the Fourth William Shakespeare,1895 **Shakespeare's Histories** Emma Smith,2004 Shakespeare's history plays with their insistent depictions of leadership and its discontents have prompted very different critical views over the last four centuries This book introduces students to the key critical debates under five headings genre history and politics gender and sexuality language and performance The Guide serves both to enhance students enjoyment of the history plays and to broaden their critical repertoire By presenting ten recent critical interventions in the field it provides a compendium of current scholarship These articles are contextualised with brief critical overviews and annotated suggestions for further reading An additional chapter on pre twentieth century criticism is mainly in narrative form but excerpts significant early views by Johnson Hazlitt and Coleridge

As recognized, adventure as well as experience approximately lesson, amusement, as without difficulty as contract can be gotten by just checking out a book **Shakespeare And History** after that it is not directly done, you could acknowledge even more not far off from this life, a propos the world.
