Propaganda and Information Warfare in the Twenty-First Century Scot

Macdonald,2006-12-05 This is the first book to analyze how the technology to alter images and rapidly distribute them can be used for propaganda and to support deception operations In the past propagandists and those seeking to conduct deception operations used crude methods to alter images of real people events and objects which could usually be detected relatively easily Today however computers allow propagandists to create any imaginable image still or moving with appropriate accompanying audio Furthermore it is becoming extremely difficult to detect that an image has been manipulated and the Internet television and global media make it possible to disseminate altered images around the world almost instantaneously Given that the United States is the sole superpower few if any adversaries will attempt to fight the US military conventionally on the battlefield Therefore adversaries will use propaganda and deception especially altered images in an attempt to level the battlefield or to win a war against the United States without even having to fight militarily Propaganda and Information Warfare in the 21st Century will be of great interest to students of information war propaganda public diplomacy and security studies in general

Flak-Catchers Lindsey Lupo,2010-12-02 Flak Catchers explores the ways in which riot commissions the institutional bodies appointed by an executive in the aftermath of a race riot to determine a riot timeline investigate causes and offer prescriptions for change have dealt with racial violence in the United States over the last century In studying five riots and their commissions Chicago 1919 Harlem 1935 Los Angeles 1965 USA 1967 and Los Angeles 1992 this book shows that riot commissions only serve to give the appearance of strong and responsive government action during uncertain times They primarily benefit the instituting body by focusing on a restoration of law and order while undermining any larger civil rights message However this book also challenges the prevalent idea that riot commissions are all the same by revealing how riot commissions have changed over the last century shifting in their prominence content and focus After the 1968 Kerner Commission which studied the 1967 summer riots it has become increasingly common for the riot commission to fail to answer fundamental questions posed by the crisis

Home Care Fault Lines Cynthia J. Cranford,2020-06-15

racialized and gendered class hierarchies which shapes their pursuit of security Cranford analyzes the tensions alliances and compromises between security for workers and flexibility for elderly and disabled people and she argues that workers and recipients negotiate flexibility and security within intersecting inequalities in varying ways depending on multiple interacting dynamics What comes through from Cranford s analysis is the need for deeply democratic alliances across multiple axes of inequality To support both flexible care and secure work she argues for an intimate community unionism that advocates for universal state funding designs culturally sensitive labor market intermediaries run by workers and recipients to help people find jobs or workers and addresses everyday tensions in home workplaces
