

ENCUENTRO DE DOS MUNDOS

12 de octubre

El 12 de octubre se ha considerado como un día memorable porque a partir de entonces se inició el contacto entre Europa y América, que culminó con el llamado "encuentro de dos mundos", que transforma las visiones del mundo y las vidas tanto de europeos como de americanos.

A pesar de que Cristóbal Colón siempre pensó que había llegado a la India, su llegada al continente americano también sirvió para confirmar que la tierra no era plana, sino, redonda.

Changes, Conflicts and Ideologies in Contemporary Hispanic Culture Teresa Fernandez Ulloa, 2014-06-02 This book is formed by various chapters studying the manner in which conflicts changes and ideologies appear in contemporary Hispanic discourses The contributions analyze a wide variety of topics related to the manner in which ideological and epistemological changes of the 19th 20th and 21st centuries are reflected in and shape Spanish language literature and other cultural expressions in both Spain and Latin America The 19th century was conducive to various movements of independence while in Europe radical changes of different types and in all contexts of life and knowledge occurred Language was certainly affected by these changes resulting in new terminology and discourse strategies Likewise new schools of thought such as idealism dialectic materialism nihilism and nationalism among others were established in addition to new literary movements such as romanticism evocative of r evolution individualism and realism inspired by the social effects of capitalism Scientific and technological advances continued throughout the 20th century when the women's liberation movement consolidated The notion of globalization also appears simultaneously to various crises despotism wars genocide social exclusion and unemployment Together these trends give rise to a vindicating discourse that reaches large audiences via television The classic rhetoric undergoes some changes given the explicit suasion and the absence of delusion provided by other means of communication The 21st century is defined by the flood of information and the overpowering presence of mass communication so much so that the technological impact is clear in all realms of life From the linguistic viewpoint the appearance of anglicisms and technicalities mirrors the impact of post modernity There is now a need to give coherence to a national discourse that both grasps the past and adapts itself to the new available resources with the purpose of conveying an effective and attractive message to a very large audience Discourse is swift since society does not seem to have time to think but instead seeks to maintain interest in a world filled with stimuli that in turn

change constantly Emphasis has been switched to a search for historical images and moments that presumably explain present and future events It is also significant that all this restlessness is discussed and explained via new means such as the world wide web The change in communication habits e mail chats forums SMS and tools computers mobile phones that was initiated in the 20th century has had a net effect on the directness and swiftness of language
