Lost In Familiar Places Creating New Connections Between The Individual And Society:

Lost in Familiar Places Edward R. Shapiro, A. Wesley Carr, 1991-01-01 In this world of change individuals feel increasingly lost within families and in workplaces and unsure of the roles required of them In this book a psychoanalyst and an Anglican priest using a combination of psychoanalysis and social systems theory offer suggestions to help people regain their bearings

The Inner World in the Outer World Edward R. Shapiro, 1997-01-01 As psychoanalysis enters its second century practitioners and researchers are shifting away from focus on the individual and toward analysis of social existence In this collection of essays psychoanalysts and psychologists investigate the changing analytic situation

Ghosts in the Human Psyche Vamik Volkan, 2019-04-29 Vamik Volkan examines the impact of past and present historical events cultural elements political movements and their mental images on the psyche of individuals Beginning with the history of the debates concerning the relevance of external events to the human psyche Volkan moves on to look at the spread of psychoanalysis worldwide and the need to become familiar with the cultural historical and political issues when working abroad The remaining chapters follow the story of a successful businessman who calls himself a Muslim Armenian His psychological journey clearly illustrates how ghosts from the past can remain alive and active in our lives and how a clear understanding of his people's history and culture allowed the analyst to understand some important causes of his symptoms and personality characteristics By presenting a total case report Volkan illustrates the methods applied to improve the analysis and psychological health By presenting a case from the viewpoint of a psychoanalytic supervisor including the supervisor's reactions to the individual being analysed he has exposed another rich topic to consideration With this book Vamik Volkan has given us much to reflect upon

Finding a Place to Stand Edward R. Shapiro, 2020-04-29 What stands between us and authoritarianism seems increasingly fragile Democratic practices are under attack by foreign intrusion into elections voter suppression restricts citizen participation Nations are turning to autocratic leaders in the face of rapid social change Democratic values and open society can only be preserved if citizens can discover and claim their voices We access society through our organisations yet the collective voices and irrationalities of these organisations do not currently offer clear pathways for individuals to locate themselves How can we move through the mounting chaos of our social systems through our multiple roles in groups and institutions to find a voice that matters What kind of perspective will allow institutional leaders to facilitate the discovery of active citizenship and support engagement This book draws on psychodynamic systems thinking to offer a new understanding of the journey from being an individual to joining society as a citizen With detailed stories the steps and the conscious and unconscious linkages from being a family member to entering outside groups to taking up and making sense of institutional roles illuminate the process of claiming the citizen role With the help of leaders who recognise and utilise the dynamics of social systems there may be hope for us as citizens to use our institutional experiences to discover a place to stand

Principles and Practice of Forensic Psychiatry Richard Rosner, Charles

Scott,2017-02-03 The third edition of this award winning textbook has been revised and thoroughly updated Building on the success of the previous editions it continues to address the history and practice of forensic psychiatry legal regulation of the practice of psychiatry forensic evaluation and treatment psychiatry in relation to civil law criminal law and family law as well as correctional forensic psychiatry New chapters address changes in the assessment and treatment of aggression and violence as well as psychological and neuroimaging assessments *We Don't Speak of Fear* M Gerard Fromm,Regine Scholz,Vamik Volkan,2023-04-04 With contributions from Lord John Alderdice Deniz Aribog an Abdulkadir Cevik Senem B Cevik Coline Covington Robi Friedman David Fromm M Gerard Fromm Hiba Husseini Aleksandr V Obolonski Ford Rowan Regine Scholz Edward R Shapiro Vamik D Volkan The International Dialogue Initiative IDI is a private international multidisciplinary group comprised of psychoanalysts academics diplomats and other professionals who bring a psychologically informed perspective to the study and amelioration of societal conflict It aims to provide a reflective space to enable an understanding of how the emotional and historical background of hostile relations often related to trauma is being experienced in the present By doing so antagonists can overcome resistances to dialogue and facilitate the discovery of peaceful solutions to intergroup problems This book brings together key members of the IDI to present the theory and practice of the important work they do At its heart the book holds the idea that while traumatic experiences may happen to an individual or a family they also affect society and large group identity over long periods of time In that way trauma plays out between generations and between countries The book is divided into three parts theory application and methodology Trauma is the key thread running throughout and the distinguished contributors investigate healing dehumanisation memory the pandemic war terrorism identity culture the law justice and religion among many other fascinating topics The authors bring in case studies from all over the world including the United States Northern Ireland Russia Israel Turkey Germany Egypt and Palestine To make sense of these they draw on a wide range of approaches group relations theory group analytic theory psychoanalysis large group psychology psychodynamic theory psychology economics sociology political science history journalism and the law to name but a few This must read book brings theory to vivid life and brings hope that our fractured world can learn to heal **Beyond the Psychoanalytic Dyad** John P. Muller,2014-01-14 In this original work of psychoanalytic theory John Muller explores the formative power of signs and their impact on the mind the body and subjectivity giving special attention to work of the French psychoanalyst Jacques Lacan and the American philosopher Charles Sanders Peirce Muller explores how Lacan s way of understanding experience through three dimensions the real the imaginary and the symbolic can be useful both for thinking about cultural phenomena and for understanding the complexities involved in treating psychotic patients and develops Lacan s perspective gradually presenting it as distinctive approaches to data from a variety of sources *Love's Return* Gail M. Boldt,Paula M. Salvio,2012-11-12 The idea that teachers love children is often taken for granted in education Rarely is the idea of love itself examined Bringing together the work of

educators curriculum theorists and clinical psychoanalysts and drawing upon autobiographical and narrative case studies this groundbreaking collection examines the collision of love and learning including the ways in which such intersections are provoked repressed and denied Contributors turn to psychoanalysis to explore questions of love in all of its varying permutations ambivalence sexuality hatred desire projection and loss in order to demonstrate how the social ramifications of such work is critical to the ways teachers are currently being prepared for life in the classroom

From Belief to Knowledge Neil Douglas,Terry Wykowski,2010-10-18 Belief is not knowledge but we tend to hold our beliefs as if they represent knowledge selecting whatever evidence is required to justify them And because humans tend to cling to their beliefs as truths organizations often ignore the need for change no matter how urgent that need From Belief to Knowledge Achieving and Sustaining an Adaptive Culture in Organizations offers potential change agents an integrative analysis and treatment of the problem of organizational learning It demonstrates the importance of looking beneath beliefs and assumptions to find the roots and persistent influences that preserve them It gives us a much broader definition of organizational knowledge than that associated with information technology and the currently popular idea of knowledge as an asset Furthermore it provides an alternative view of culture and change one that is defined by the ability to continually align collective beliefs with reality Douglas and Wykowski answer the question that lingers in the minds of many managers What does organizational learning mean and how does it influence ongoing organizational success Lee Newick Shell Downstream Rather than offer simple recipes this book shows how good leaders can evolve and sustain an adaptive culture that develops knowledge through purposeful human interaction It explores key dynamics of learning considers the diversity of beliefs present in any group and demonstrates ways that those leaders can explore and encourage the potential of both the group and individuals within the group Although this book is geared to organizational change it has the potential to change all areas of human endeavor David Julian Hodges City University of New York

The Basecamp Manifesto Terence C. Young,2024-10-23 It is often said that it is lonely at the top But this loneliness can be dangerous not only to the leader but also to the led It turns out we hold our environments as we are held If we are not held in a caring and daring fashion it shows up in how we live and lead The Basecamp Manifesto is a formative work on developing and sustaining leadership skills Here Terence Young outlines the development of a changed narrative around leading organizations Rather than the often stereotyped perception of leadership as a solitary ascent to the top followed often by an equally solitary descent down the leadership peak Young has created a framework for leadership that relies on developing a basecamp of companions Like the familiar basecamps of extraordinary physical ascents of Mount Everest and other spectacular and spectacularly challenging peaks a leader s basecamp is a secure base of trusted and trusting peers that shape and nurture you during the ascent to leadership Young presents the gifts that current and future leaders should find in a secure base greater clarity in the sense making process enhancement of agility in navigating dynamic situations building endurance to face challenges and fostering

generativity for greater productivity and innovation in one's life quest The Basecamp Manifesto is written for leaders of all organizations whether for profit or nonprofit Whether a business leader an educational leader a political leader a religious leader or other society facing leader all leaders face particular and specific challenges in leadership How do I lead and navigate with those in my circle through a world of increasing volatility uncertainty complexity and ambiguity For the sake of those you lead Young's groundbreaking work says to leaders find your people find your secure base find and shape and nurture the circle of trust that can make you a quality leader The Basecamp Manifesto can help you to become intentional about shaping relationships where clarity agility durability and generativity can be found and fostered **Unmasking**

Administrative Evil Danny L. Balfour, Guy B. Adams, Ashley E. Nickels, 2019-08-08 The relationship between evil and public affairs as well as other fields and professions in public life has come to the fore as institutions of government seek new ways to operate in an environment of extreme mistrust Unmasking Administrative Evil 5th Edition argues that the tendency toward administrative evil as manifested in acts of dehumanization and genocide is deeply woven into the identity of public affairs Indeed ordinary people may simply act appropriately in their organizational role in essence just doing what those around them would agree they should be doing and at the same time participate in what a critical and reasonable observer usually well after the fact would call evil Even worse under conditions of moral inversion ordinary people can all too easily engage in acts of administrative evil while believing that what they are doing is not only correct but in fact good This 5th edition offers important updates including A thorough discussion of contemporary virtue ethics as the field has evolved to offer an alternative to technical rational ethics An all new three part structure What is Administrative Evil History and Cases and The Future of Ethics in Praetorian Times designed to aid in course organization and instruction All new cases including an examination of the Flint water disaster to provide contemporary examples of how populations can be marginalized and harmed by administrative processes that are blind to their consequences until it is too late Laying the groundwork for a more ethical and democratic public life one that recognizes its potential for evil and avoids state sponsored dehumanization and destruction Unmasking Administrative Evil 5th Edition is required reading for all students of administrative ethics and public service ethics as well those in other administrative sciences *Taking the Transference, Reaching Toward Dreams* M.

Gerard Fromm, 2018-03-08 This book reports on clinical work in and at the boundaries of the intermediate space between patient and therapist perhaps the space between reaching toward dreams and taking the transference Though the clinical work to be described here was influenced quite deeply by the writing of Winnicott primarily and then of Lacan it is meant to stand for itself as the record of and a set of stories about one therapist's experiences and learning The chapters that follow take up a range of clinical conditions hopelessness self destructiveness psychosis clinical phenomena regression impasse trauma technical issues interpretation transference free association and related topics dreams creativity the analytic setting Most of this work took place at the Austen Riggs Center a small psychiatric hospital in Stockbridge Massachusetts in which

quite troubled patients are offered intensive psychoanalytic psychotherapy in a completely open and voluntary therapeutic community setting

Psychodynamic Psychopharmacology David Mintz, M.D., 2022-02-10 The troubling increase in treatment resistance in psychiatry has many culprits the rise of biomedical psychiatry and corresponding sidelining of psychodynamic and psychosocial factors the increased emphasis on treating the symptoms rather than the person and a greater focus on the electronic medical record rather than the patient all of which point to a breakdown in the person centered prescriber patient relationship *Psychodynamic Psychopharmacology* illuminates a new path forward It examines the psychological and interpersonal mechanisms of pharmacological treatment resistance integrating research on evidence based prescribing processes with psychodynamic insights and skills to enhance treatment outcomes for patients who are difficult to treat The first part of the book explores the evidence base that guides how rather than simply what to prescribe It describes precisely what psychodynamic psychopharmacology is and why its emphasis on combining the often neglected psychosocial aspects of medication with biomedical considerations provides a more optimized approach to addressing treatment resistance Part II delves into the psychodynamics that contribute to pharmacological treatment resistance both when patients ambivalence about their illness the medication itself or their prescriber manifests in nonadherence and when medications support a negative identity or are used as replacements for healthy capacities Readers will gain basic skills for addressing the psychological and interpersonal dynamics that underpin both scenarios and will be better positioned to ameliorate interferences with the healthy use of medications The final section of the book offers detailed technical recommendations for addressing pharmacological treatment resistance It tackles issues that include countertransference driven irrational prescribing primitive dynamics such as splitting and projective identification and the overlap between psychopharmacological treatment resistance and the dynamics of treatment nonadherence and nonresponse in integrated and collaborative medical care settings By putting the individual patient back at the center of the therapeutic equation psychodynamic psychopharmacology as outlined in this book offers a model that moves beyond compliance and emphasizes instead the alliance between patient and prescriber In doing so it empowers patients to become more active contributors in their own recovery

Learning from Action R D Hinshelwood, Luca Mingarelli, 2022-07-28 Since the early 1990s Enrico Pedriali with R D Hinshelwood organised workshops in Italy known as the learning from action workshops This novel approach evolved from applying the principles of therapeutic communities to a group relations form of experiential conference The group relation tradition however does not focus particularly on mental health organisations and tends to focus on senior management issues of leadership and authority In contrast the learning from action workshops are tailored to the care workers engaged in the direct work in particular for those working with clients and patients with significant problems with verbal and symbolic communication The workshops also include an element of research into the unconscious messaging systems employed in making relations which contribute to therapeutic and other mental health care services

There are also chapters on a related form of workshop the living and learning experience which was established primarily for learning about therapeutic communities which bring further insight to working practices The book brings together a community of 21 authors Giada Boletti Louisa Diana Brunner Davide Catullo Heather Churchill John Diamond Donna M Elmendorf Giovanni Foresti Rex Haigh R D Hinshelwood Yuko Kawai Eriko Koga Jan Lees Simona Masnata Luca Mingarelli Gilad Ovadia Mario Perini Barbara Rawlings Antonio Sama Edward R Shapiro Lili Valko and Zsolt Zalka It will be a must read for those working in mental health care The information within will be of use to those new to the profession for whom there is often very little preparation or reading material and also to more senior members to use not only for their own development but also in training and research activities in mental health
