Lost Souls 2nd Edition 2002:

Lost Souls David Weissman, 2012-02-01 *Lost Souls* examines the origins and consequences of the philosophic idea that mind and body are distinct. The author traces mind/body dualism from Plato, Plotinus, Augustine, and Proclus through Descartes and Kant to Nietzsche, Heidegger, Carnap, and Quine. Mind's separation from body has dominated philosophic thinking for millennia, yet most mental activities are now explained in physical terms. What are the implications if mind is material and mortal? Considering both philosophic and scientific ideas about mind, David Weissman explores our options. Rejecting the claim that the character and existence of other things are an effect of the ways we think about or perceive them, he reexamines such topics as meaning and truth, human significance, self and society. He argues that philosophers have the rare opportunity to renew inquiry by invoking the questions that once directed them: What are we? What is our place in the world? What concerns are appropriate to being here?

The Lost Souls' Reunion Suzanne Power, 2003-07 Traces the lives of the women in Sive Moriarty's family from her grandmother's destructive marriage on the austere coastline of Ireland to her own experiences in the overindulgent circles of 1960s London.

Lost Souls James Wright, 2018-05-11 What is the state of contemporary American morality? From their original conception in Christian scripture to their assimilation into Western culture, the Seven Deadly Sins—lust, greed, envy, pride, and all the rest—have guided human morality, steering human behavior and psychology away from evil and toward a full embrace of the good. But their hold on modern life is increasingly tenuous. Indeed, one may observe that these days, deadly sin is far more common and more commonly practiced than its virtuous counterparts: humility, charity, kindness, industriousness, and chastity. Without greed, there is no economy; without anger, no politics; and without pride and envy, surely less motivation and competition would exist. James D. Wright carefully examines the complexities and ambiguities in modern society in the context of the seven deadly sins and their corresponding virtues. Are we all lost souls, condemned by our immoral deeds, or are the trappings of older sin deteriorating? Is it time finally to reconsider the classifications of evil and good? Wright uses each chapter to consider how the social sciences have operationalized each sin, how they have been studied, and what lessons have been learned over time. He reviews recent trends and contemplates the societal costs and benefits of the behaviors in question. *Lost Souls* emerges then as a meditation on contemporary sin, concluding that the line between guilt and innocence, right and wrong, is often very thin.

Ecological Borderlands Christina Holmes, 2016-10-13 Environmental practices among Mexican American women have spurred a reconsideration of ecofeminism among Chicana feminists. Christina Holmes examines ecological themes across the arts, Chicana activism, and direct action groups to reveal how Chicanas can craft alternative models for ecofeminist processes. Holmes revisits key debates to analyze issues surrounding embodiment, women's connections to nature and spirituality's role in ecofeminist philosophy and practice. By doing so, she challenges Chicanas to escape the narrow frameworks of the past in favor of an inclusive model of environmental feminism that alleviates Western biases. Holmes uses readings of theory
