Mainline Churches And The Evangelicals A Challenging Crisis

Richard G. Hutcheson

Mainline Churches And The Evangelicals A Challenging Crisis:

Mainline Churches and the Evangelicals Richard G. Hutcheson, 1981 The Quest for Identity in so-called Mainline Churches in South Africa Ernst M Conradie, John Klaasen, 2014-05-01 This volume of essays forms part of a series on the interface between ecumenical theology and social ethics in the South African context This contribution is the result of a public conference hosted at the University of the Western Cape in May 2013 under the same title It explores the quest for identity in so called mainline churches in South Africa given the history of the establishment of various denominations of mainly European origin in Southern Africa ecumenical efforts to find common ground between such churches and breakaway movements among independent and Pentecostal churches where this search for identity is evidently found wanting

American Evangelicals and the 1960s Axel R. Schäfer, 2013-08-23 In the late 1970s the New Christian Right emerged as a formidable political force boldly announcing itself as a unified movement representing the views of a moral majority But that movement did not spring fully formed from its predecessors American Evangelicals and the 1960s refutes the thesis that evangelical politics were a purely inflammatory backlash against the cultural and political upheaval of the decade Bringing together fresh research and innovative interpretations this book demonstrates that evangelicals actually participated in broader American developments during the long 1960s that the evangelical constituency was more diverse than often noted and that the notion of right wing evangelical politics as a backlash was a later creation serving the interests of both Republican conservative alliances and their critics Evangelicalism s involvement with rather than its reaction against the main social movements public policy initiatives and cultural transformations of the 1960s proved significant in its 1970s political ascendance Twelve essays that range thematically from the oil industry to prison ministry and from American counterculture to the Second Vatican Council depict modern evangelicalism both as a religious movement with its own internal dynamics and as one fully integrated into general American history **Change and Conflict in the U.S. Army**

Chaplain Corps since 1945 Anne Loveland, 2014-07-30 Army chaplains have long played an integral part in America s armed forces In addition to conducting chapel activities on military installations and providing moral and spiritual support on the battlefield they conduct memorial services for fallen soldiers minister to survivors offer counsel on everything from troubled marriages to military bureaucracy and serve as families points of contact for wounded or deceased soldiers all while risking the dangers of combat alongside their troops In this thoughtful study Anne C Loveland examines the role of the army chaplain since World War II revealing how the corps has evolved in the wake of cultural and religious upheaval in American society and momentous changes in U S strategic relations warfare and weaponry From 1945 to the present Loveland shows army chaplains faced several crises that reshaped their roles over time She chronicles the chaplains initiation of the Character Guidance program as a remedy for the soaring rate of venereal disease among soldiers in occupied Europe and Japan after World War II as well as chaplains response to the challenge of increasing secularism and religious pluralism

during the culture wars of the Vietnam Era Religious accommodation evangelism and proselytizing public prayer and spiritual fitness provoked heated controversy among chaplains as well as civilians in the ensuing decades Then early in the twenty first century chaplains themselves experienced two crisis situations one the result of the Vietnam era antichaplain critique the other a consequence of increasing religious pluralism secularization and sectarianism within the Chaplain Corps as well as in the army and the civilian religious community By focusing on army chaplains evolving sometimes conflict ridden relations with military leaders and soldiers on the one hand and the civilian religious community on the other Loveland reveals how religious trends over the past six decades have impacted the corps and in turn helped shape American military culture

The Holy Spirit Movement in Korea Young-Hoon Lee,2009 This book traces the historical and theological development of the Holy Spirit in Korea through six successive periods

Evangelical Theories of Biblical Inspiration Kern Robert Trembath,1987-12-03 The inspiration of the Bible is central to Christian faith yet there is no general agreement on the nature of this inspiration In this provocative book Kern Robert Trembath reviews seven major evangelical explanations of inspiration and demonstrates that all either view the Bible itself as the actual recipient of inspiration or explain biblical authority on grounds more appropriate to the doctrine of God in effect investing the Bible with characteristics that properly belong only to God Building on the work of William Abraham Trembath constructs his own theory of inspiration one that regards inspiration as a tripartite concept involving the elements of initiator means and receiver He insists that only a human being can be the recipient of inspiration and that the Bible must therefore be understood as the means rather than the end of the process He goes on to articulate a new definition of biblical inspiration as a mediated enhancement of human experience by God through the Bible and argues that this new understanding of inspiration is most compatible with a Thomistic doctrine of God which insists that God's acts are mediated through the world rather than immediately occurring in it

Evangelicalism and Karl Barth Phillip R. Thorne,1995-01-01 This long standing series provides the guild of religion scholars a venue for publishing aimed primarily at colleagues It includes scholarly monographs revised dissertations Festschriften conference papers and translations of ancient and medieval documents Works cover the sub disciplines of biblical studies history of Christianity history of religion theology and ethics Festschriften for Karl Barth Donald W Dayton James Luther Mays Margaret R Miles and Walter Wink are among the seventy five volumes that have been published Contributors include C K Barrett Francois Bovon Paul S Chung Marie Helene Davies Frederick Herzog Ben F Meyer Pamela Ann Moeller Rudolf Pesch D Z Phillips Rudolf Schnackenburgm Eduard Schweizer John Vissers

Are Southern Baptists "Evangelicals"? James Leo Garrett,E. Glenn Hinson,James E. Tull,1983 *Reformed Theology in America* David F. Wells,1985 Modern Reformed Theology In America Has shown astonishing variety in its expression Grouped under the name Reformed are in fact five diverse traditions the Princeton theology Westminster Calvinism the Dutch schools Southern Reformed thought and Neoorthodoxy This book provides penetrating analysis of these five traditions and the two leading

theologians of each The result is an important advance in our understanding of what being Reformed has meant and what it should now mean in the late twentieth century Publisher *The Rise and Fall of the Religious Left* L. Benjamin Rolsky, 2019-11-12 For decades now Americans have believed that their country is deeply divided by culture wars waged between religious conservatives and secular liberals In most instances Protestant conservatives have been cast as the instigators of such warfare while religious liberals have been largely ignored In this book L Benjamin Rolsky examines the ways in which American liberalism has helped shape cultural conflict since the 1970s through the story of how television writer and producer Norman Lear galvanized the religious left into action The creator of comedies such as *All in the Family* and *Maude* Lear was spurred to found the liberal advocacy group People for the American Way in response to the rise of the religious right Rolsky offers engaged readings of Lear's iconic sitcoms and published writings considering them as an expression of what he calls the spiritual politics of the religious left He shows how prime time television became a focus of political dispute and demonstrates how Lear's emergence as an interfaith activist catalyzed ecumenical Protestants Catholics and Jews who were determined to push back against conservatism's ascent Rolsky concludes that Lear's political involvement exemplified religious liberals' commitment to engaging politics on explicitly moral grounds in defense of what they saw as the public interest An interdisciplinary analysis of the definitive cultural clashes of our fractious times *The Rise and Fall of the Religious Left* foregrounds the foundational roles played by popular culture television and media in America's religious history *Beyond the Congregation* Christopher P. Scheitle, 2010-09-09 The growth of Christian nonprofits popularly called parachurch organizations has been recognized by churchgoers and social scientists alike as an important development in American religion *Beyond the Congregation* utilizes data on almost 2 000 of the largest and most influential Christian nonprofits to answer key questions raised by these organizations **American Religious History** Gary Scott Smith, 2020-12-07 A mix of thematic essays reference entries and primary source documents covering the role of religion in American history and life from the colonial era to the present Often controversial religion has been an important force in shaping American culture Religious convictions strongly influenced colonial and state governments as well as the United States as a new republic Religious teachings values and practices deeply affected political structures and policies economic ideology and practice educational institutions and instruction social norms and customs marriage and family life By analyzing religion's interaction with American culture and prominent religious leaders and ideologies this reference helps readers to better understand many fascinating often controversial religious leaders ideas events and topics The work is organized in three volumes devoted to particular periods Volume one includes a chronology highlighting key events related to religion in American history and an introduction that overviews religion in America during the period covered by the volume and roughly 10 essays that explore significant themes These essays are followed by approximately 120 alphabetically arranged reference entries providing objective fundamental information about topics related to religion in America Each volume

presents nearly 50 primary source documents each introduced by a contextualizing headnote A selected general bibliography closes volume three

Religion in American Public Life James A. Reichley, 2010-12-01 We are said Supreme Court Justice William O Douglas a religious people and his observation is continually borne out in every aspect of American public life Religious ideals underlay the founding of the colonies and the firming of the new nation the activities of churches have been closely intertwined with politics in the abolition of slavery the drive for women s suffrage the prohibition of liquor and the civil rights movement of the 1960s The recent revival of arguments over the participation of religious groups in politics points up the continuing controversy about the separation of church and state In this study A James Reichley places religion and politics within a conceptual framework that considers the values in which both are rooted and examines in light of that framework the actual impact of religion and religious groups on American public life He analyzes the underlying causes and issues involved their contemporary impact and their continuing evolution Finally he discusses how the involvement of religious groups in politics can be carried on within the context of the separation of church and state without threat to civil liberties or secular politicalization of religion

The Integrity of Biblical Narrative Mark Ellingsen, 2002-06-06 This is one of those rare books that effectively puts theology into practice Ellingsen provides a remarkably comprehensive survey of recent approaches to biblical narrative and shows that not all approaches are compatible Theological integrity requires that they be used discriminately Then in the greater part of the book he explains the homiletical implications As befits an accomplished theologian who is also a preacher he gives apt advice and excellent examples This is also the best book written on narrative theology and preaching George Lindbeck Yale University In this excellent book about biblical narrative preaching Mark Ellingsen has brought together the expertise of the systematician who has one foot in academics and the experience of the parish pastor who has the other foot in the pulpit every week As a systematician he criticizes and corrects the contemporary trend toward developing and preaching story sermons offering a theology of realistic narrative sermons in their place He also functions as a homiletician explaining his system of preparing biblical narrative sermons and caps the entire effort with illustrations from his own homiletical endeavors This insightful work should provoke discussion among biblical and systematic theologians and at the same time prove profitable to pastors seeking to preach the gospel story in interesting convincing and theologically valid sermons George M Bass Luther Northwestern Theological Seminary

Popular Religion in America Erling T. Jorstad, 1993-04-22 The enormous growth of evangelicalism is one of the major developments in recent American life Like other scholars Jorstad acknowledges that evangelicalism has grown because it is theologically attractive But Jorstad also attributes the growth of the evangelical movement to its relationship with American popular culture According to the author the evangelical movement was able to integrate populist democratic traditions with a cultural inclusiveness a mastery of high technology and a willingness to use mass media to spread its views The book contains three sections The first traces the development of evangelical subculture between 1960 and 1990 The second part discusses the

evangelical movement and social and individual values The third part explores popular religion and the media The book considers the involvement of evangelicals in popular religion the appeal of popular religion to many but not to all evangelicals the similarities between popular religion and more traditional religious organizations and the means by which evangelicalism effectively utilizes the many genres and styles of popular culture

Contending for the Faith Daniel Richard Barnett, 2002 Examines how a southern evangelical denomination was able to become the second largest religious body in a region characterized by cultural racial and religious pluralism and the effect this had on their structure and beliefs

God in the Wasteland David F. Wells, 1994 In this sequel to the widely praised *No Place for Truth* David Wells calls for the restoration of the church based on a fresh encounter with the transcendent God By looking anew at the way God's transcendence and immanence have been taken captive by modern appetites Wells argues convincingly for a reform of the evangelical world

Revive Us Again Joel A. Carpenter, 1999 Publicly humiliated by the Scopes monkey trial of 1925 fundamentalism in America seemed extinct by the end of the 1920s and then all but invisible to the mainstream until evangelists like Billy Graham gave new life to the movement in the popular revivals of the 1940s and 50s Here Joel A. Carpenter illuminates these hidden years in the fundamentalist movement's history and in doing so provides answers to the riddle of its survival Blending painstaking research telling anecdotes and astute analysis Carpenter brings this era into focus for the first time ever He shows that contrary to the popular opinion of the day fundamentalism was alive and well in America in the late 1920s and used its isolation over the next 20 years to build new strength from within Taking a reasoned objective approach to a topic frequently reduced to caricature *Revive Us Again* gives us a fresh look at the continuing influence of American fundamentalism an influence still evident in today's newspapers and cable TV newscasts

What Is Truth? James Emery White, 2006-09-01 SEARCHING FOR ABSOLUTES IN A POSTMODERN WORLD In this postmodern age truth especially religious or moral truth is widely criticized and constantly challenged yet perhaps more important than ever It was this realization that led James Emery White to examine the concepts of truth as held by five twentieth century theologians Cornelius Van Til Millard J. Erickson Francis A. Schaeffer Donald G. Bloesch Carl F. H. Henry

The Pluralistic Vision Milton J. Coalter, John M. Mulder, Louis Weeks, 1992-01-01 Essays in this valuable book examine the results of research on theological education in the twentieth century spiritual formation among seminarians and the changing nature of Presbyterian related colleges Several essays review Christian education among Presbyterians focusing on the forming of curricula and publications from denominational presses Through its examination of American Presbyterianism the Presbyterian Presence series illuminates patterns of change in mainstream Protestantism and American religious and cultural life in the twentieth century
