Men Of Our Times:

Men of Our Times: Leading Patriots of The Day Harriet Beecher Stowe, 2020-09-28 In these sketches of some of the leading public men of our times the editor professes to give such particulars of their lives and such only as the public have a right to know Every such man has two lives his public and his private one The one becomes fairly the property of the public in virtue of his having been connected with events in which every one has a share of interest but the other belongs exclusively to himself his family and his intimate friends and the public have no more right to discuss or pry into its details than they have into those of any other private individual The editor has aimed to avoid all privacies and personalities which might be indelicate in relation to family circles She has indeed in regard to all the characters so far as possible dwelt upon the early family and community influences by which they were formed particularly upon the character and influence of mothers but such inquiries relate for the most part to those long dead and whose mortal history has become a thing of the past Whenever the means have been at hand the family stock from which each man has been derived has been minutely traced The question of inherited traits is becoming yearly one of increasing interest and most striking results come from a comparison of facts upon this subject The fusion of different races is said to produce marked results on the characteristics of the human being America has been a great smelting furnace in which tribes and nations have been melted together and the result ought to be some new developments of human nature It will always be both interesting and useful to know both the quality of the family stock and the circumstances of the early training of men who have acted any remarkable part in life Our country has recently passed through a great crisis which has concentrated upon it for a time the attention of the civilized world It has sustained a shock which the whole world judging by past experience said must inevitably shatter the republic to fragments and yet like a gallant ship in full sail it has run down the terrible obstacle and gone on triumphant and is this day stronger for the collision This wonderful success is owing to the character of the people which a Christian Democracy breeds Of this people we propose to give a specimen to show how they were formed in early life from the influences which are inherent in such a state We are proud and happy to know that these names on our list are after all but specimens Probably every reader of this book will recall as many more whom he will deem equally worthy of public notice There is scarcely one of them who would not say in reference to his position before the public what Lincoln said I stand where I do because some man must stand there but there are twenty others that might as well have been leaders as myself On the whole we are not ashamed to present to the world this list of men as a specimen of the graduates from the American school of Christian Democracy So far as we know the American government is the only permanent republic which ever based itself upon the principles laid down by Jesus Christ of the absolute equal brotherhood of man and the rights of man on the simple ground of manhood Notwithstanding the contrary practices of a section of the States united in the Union and the concessions which they introduced into the constitution nobody doubts that this was the leading idea of the men who founded our government

The declaration of American Independence crystalized a religious teaching within a political act The constitution of the United States still further elaborates these principles and so strong was the logic of ideas that the conflict of opinions implied in the incidental concessions to opposite ideas produced in the government of the country a continual and irrepressible discord For a while it seemed doubtful which idea would triumph and whether the accidental parasite would not strangle and wither the great original tree The late war was the outcome of the whole The fierce fire into which our national character has been cast in the hour of trial has burned out of it the last lingering stain of compromise with anything inconsistent with its primary object to ordain justice and perpetuate liberty *Men of our Times ... Tarbell,2025-05-13

The Tariff in Our Times by Ida M Tarbell offers a compelling examination of the role tariffs and trade policies played in shaping the economic landscape of early 20th century America As a leading figure in the Progressive Era and a pioneering investigative journalist Tarbell meticulously analyzes the intricate relationships between government industry and the public offering insights that remain relevant to today s discussions about economic policy and social justice In this thought provoking work Tarbell tackles the contentious issue of tariffs dissecting how they functioned as a tool for both protectionism and industry favoritism She delves into the complexities of how tariffs not only affect the economy but also have profound implications for everyday Americans With a keen analytical eye she explores the intricate balance between supporting burgeoning American industries and the potential hindrance of consumer choice and market competition Through detailed case studies and historical examples Tarbell illustrates the impact of tariff legislation on various sectors including manufacturing agriculture and labor Tarbell s writing reflects her commitment to uncovering the truth and advocating for the average citizen Her exploration reveals how tariffs can create barriers that disproportionately affect lower income families while benefiting powerful corporate interests Throughout the book she presents a strong case for the need for transparent and fair economic policies that prioritize consumer protection and equitable growth over monopolistic practices By shedding light on the abuses of power and the exploitation often hidden behind tariff laws Tarbell invites readers to engage critically with the economic systems that govern their lives The narrative is enriched by Tarbell s personal insights and observations drawn from her extensive experience as a journalist and her commitment to social reform Her eloquence and clarity make complex economic concepts accessible to a broad audience encouraging readers to reflect on their own experiences with commerce and government Moreover Tarbell s passionate advocacy for economic justice positions her as a powerful voice for women and reformists of her time emphasizing the need for active participation in shaping public policy Ultimately The Tariff in Our Times is more than just a study of tariffs it is an essential exploration of American values and the ongoing struggle for fairness in society Tarbell s historical analysis reveals the interconnectedness of economic decisions and social outcomes prompting readers to consider the long term effects of their country s policies on both individual lives and

the collective fabric of American society Her work serves as both a historical document and a call to action urging citizens to stay informed and engaged in the democratic process This book is a significant addition to the discourse on economic reform and public policy providing valuable insights into the debates that have shaped the modern economic landscape Ida M Tarbell s masterful writing and sharp critique of the status quo ensure that The Tariff in Our Times remains an essential read for those interested in understanding the historical context of tariffs trade and the evolving dynamics of American industry making it a timeless piece for economists historians and concerned citizens alike A Tragi-Comical History of our Times,
