Spiritual Direction and the Care of Souls David G. Benner, Gary W. Moon, 2025-06-23 In recent years many Christian clergy laity and mental health professionals have rediscovered the ancient practices of spiritual direction Seen as a refreshing alternative to the techniques and limitations of modern psychology such practices offer new insights for pastoral care But many remain unclear on what spiritual direction is and whether its methods are applicable to their own clients and parishioners Spiritual direction is a practice of Christian soul care that is found most notably in the Catholic Orthodox and Episcopal traditions but is also present in Wesleyan Holiness Pentecostal charismatic social justice and Reformed communities Predating modern counseling and psychotherapy movements but sharing key principles and insights for spiritual formation spiritual direction offers significant resources for today s pastors counselors therapists chaplains and other caregivers attuned to the work of God in people s lives In this landmark volume editors Gary W Moon and David G Benner along with a team of expert contributors provide a comprehensive survey of spiritual direction in its myriad Christian forms Specific chapters offer careful historical perspective and contemporary analysis of how Christians from various backgrounds have practiced spiritual direction with particular attention to each tradition s definition of spiritual direction the

process of authentic transformation the role of the spiritual director indicators of mature spirituality and other aspects of the spiritual direction process Chapters also provide psychological and clinical insight into how spiritual direction is similar to different from and can be integrated with psychotherapy and pastoral counseling to help others experience spiritual transformation and union with God Gay Unions Gray Temple,2004 Gray Temple presents the argument for the sacramental equality of gay and lesbian couples which is to say they are entitled to full participation in the sacraments including Marriage Gray Temple bases his discussion on the Anglican concept of discerning the will of God through Scripture Tradition and Reason In the argument from Scripture Gray Temple s basic premise is that we cannot presume to know what the Bible says to us if we do not understand what the biblical writers thought they were saying He discusses the ways in which the concept of sexuality in the minds of biblical writers was very different than ours He carefully analyzes the most often cited biblical passages assumed to prohibit homosexual activity and shows why they are not saying what we think they are saying In the argument from Tradition Gray analyzes the roots of various traditions coming to the conclusion that traditions generally evolve to maintain privilege Tradition has been used for example to bar women from ordination We are veering dangerously away from the Anglican tradition of the via media In the argument from Reason he presents answers to assumptions about homosexuality both from an impassioned liberal stance and from a stance designed to lead to a dialogue engaging the hopes and fears of the conservative and liberal sides As a liberal charismatic who prayerfully came to the conclusion that his homophobia was not a stance favored by God Temple is in a unique position to take on this topic Gray Temple deeply understands the ethos of conservatism and his understanding of that ethos provokes him to engage conservative arguments with rigor and sympathy *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004
