Within the past few years transcultural learning has become one of the key terms in TEFL theory Central concerns in current research include differentiating between inter and transcultural learning navigating processes of understanding otherness and assessing cultural competences Using these aspects this study investigates texts recommended for cultural learning and key components of implementing literature in ELT The results call for a more holistic perception of alterity and argue in favour of transcultural literature as a basis for transcultural learning All of this dissertation is in English Subjects Literary Criticism Education Series Fremdsprachendidaktik in globaler Perspektive Vol 5 **Next-Generation Memory and Ukrainian Canadian Children's Historical Fiction** Mateusz Świetlicki,2023-03-24 This is the first book monograph devoted to Anglophone Ukrainian Canadian children s historical fiction published between 1991 and 2021 It consists of five chapters offering cross sectional and interdisciplinary readings of 41 books novels novellas picturebooks short stories and a

graphic novel The first three chapters focus on texts about the complex process of becoming Ukrainian Canadian showcasing the experiences of the first two waves of Ukrainian immigration to Canada including encounters with Indigenous Peoples and the First World War Internment The last two chapters are devoted to the significance of the cultural memory of the Holodomor the Great Famine of 1932 1933 and the Second World War for Ukrainian Canadians All the chapters demonstrate the entanglements of Ukrainian and Canadian history and point to the role Anglophone children s literature can play in preventing the symbolical seeds of memory from withering This volume argues that reading imagining and reimagining history can lead to the formation of beyond textual next generation memory Such memory created through reading is multidimensional as it involves the interpretation of both the present and the past by an individual whose reality has been directly or indirectly shaped by the past over which they have no influence Next generation memory is of anticipatory character which means that authors of historical fiction anticipate the readers both present day and future not to have direct links to any witnesses of the events they discuss and to have little knowledge of the transcultural character of the Ukrainian Canadian diaspora

Nischik,2007-10-25 In the last thirty years of the twentieth century Canadian federal governments offered varying degrees of support for literary and other artistic endeavour A corollary of this patronage of culture at home was an effort to make the resulting works available for audiences elsewhere in the world Current developments in the study of translation and its influence as cultural transfer have made possible new assessments of such efforts to project a national image abroad Translating Canada examines cultural materials exported by Canada in addition to those selected for acquisition by German publishers theatres and other culture brokers It also considers the motivations of particular translators and the reception by German reviewers of works by a wide variety of Canadian writers novelists and poets playwrights and children s authors literary and social critics Above all the book maps for its readers a number of significant though frequently unsuspected roles that translation assumes in the intercultural negotiation of national images and values The chapters in this collection will be of value to students teachers and scholars in a number of fields Informed lay readers too will appreciate the authors insights into the different ways in which translation has contributed to German reception of Canadian books and culture Translating Canada examines cultural materials exported by Canada in addition to those selected for acquisition by German publishers theatres and other culture brokers It also considers the motivations of particular translators and the reception by German reviewers of works by a wide variety of Canadian writers Published in English
