Naming Names With A New Afterword By The Author:

Naming Names Victor S. Navasky, 2003-04-30 The moral issues that continue to haunt the Hollywood blacklist generation have never been fully explored This book is the first serious attempt to capture the painful history of not only the blacklist s victims but also the men and women who named names who cooperated with the degradation ceremonies of congressional committees investigating Hollywood during the 1950s Some of these people were influential and well known Sterling Hayden Lee J Cobb Elia Kazan Budd Schulberg Larry Parks others less famous were caught equally in the vise of the times Victor S Navasky has unabashedly asked them and their children lawyers therapists and agents why did they do what they did His brilliant book about their answers is an extraordinary moral detective story The subject is cold war Hollywood but Mr Navasky goes far beyond that small town and brings the subject right up to the present For the issues posed during this peculiar episode in American history continue to reverberate through many central aspects of American life and culture What happens to a society when the state pressures its citizens to betray their fellows Mr Navasky s dramatic essay in the sociology of indignation combining oral history interviews and research from gossip columns to the literature of social psychology traces the consequences of what he calls the state s adoption of the Informer Principle according to which the informer became for a brief and inglorious time America s cultural hero and prophet Dust jacket

The Oldest Trick in the Book Ben M. Debney, 2020-07-03 This book investigates the normalisation of blame shifting within ideological discourse as a broad feature of history working from Churchill s truism that history is written by the victors To that end it explores historical episodes of political persecution carried out under cover of moral panic highlighting the process of Othering common to each and theorising a historical model of panic driven scapegoating from the results Building this model from case studies in witch panic communist panic and terrorist panic respectively The Oldest Trick in the Book builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill s maxim On this basis it argues that the periodic construction of bogeymen or folk demons is a useful device for enabling the kind of victim playing and victim blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically panic driven scapegoating retains great ongoing value to the privileged and powerful and thus conspicuously remains an ongoing feature of world politics
