Values George David Miller, Conrad P. Pritscher, 2021-09-20 The educationally emaciated suffering from intellectual and spiritual bilumia binge on facts and linear thinking The imprimatur of clarity and the infatuation with quantification are accoutrements of this affliction often characterized by apathy Chaos is introduced as the wrecking ball for the hierarchical skyscrapers that overcrowd the educational skyline The type of chaos proposed can be explained by the neutron bomb analogy Chaos destroys all that is inessential but leaves standing the essential and promotes holistic rather than compartmentalized learning The authors further contend that one insight is better than a myriad of facts in being vigilant of serendipity that the value aspect of facts is as important as the facts themselves Such beliefs form a foundation for educational holism Our goal is to popularize philosophy in the same way science has become popular without a mass understanding Empiricism is criticized for creating the theoretical basis for fragmentation forming the basis for an island ideology by excising essence Founded on inessential empirical ideology efforts to teach multiculturalism merely exacerbate difference promote alienation and discourage tolerance Within the framework of value hierarchies we favor tolerance is not understood as open armed acceptance of just anything but the forbearance of an evil for the promise of greater good Essence cannot be removed even in the idiosyncratic we can find the essential In the absence of chaotic methodology critical thinking remains an apolitical amoral and atemporal process displaced from social and political reality We propose a critical thinking that is not legalistic but is action oriented The pipe dream for education is a political moral temporal and decompartmentalized critical thinking that disseminates philosophy across the curriculum Those who risk becoming pariahs and nomads are essential to the rejuvenation of the educational system Encyclopedia of Contemporary LGBTQ Literature of the United States Emmanuel S. Nelson, 2009-07-14 In this two volume work hundreds of alphabetically arranged entries survey contemporary lesbian gay bisexual transgendered and queer American literature and its social contexts Comprehensive in scope and accessible to students and general readers Encyclopedia of Contemporary LGBTQ Literature of the United States explores contemporary American LGBTQ literature and its social political cultural and historical contexts Included are several hundred alphabetically arranged entries written by expert contributors Students of literature and popular culture will appreciate the encyclopedia's insightful survey and discussion of LGBTQ authors and their works while students of history and social issues will value the encyclopedia's use of literature to explore LGBTQ American society Each entry is written by an expert contributor and lists additional sources of information To further enhance study and understanding the encyclopedia closes with a selected general bibliography of print and electronic resources for student research **Reader's Guide to Lesbian and Gay Studies** Timothy Murphy, 2013-10-18 The Reader's Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and

Illness and psychology social sciences and education Kinsey Report *Women, Modernism and British Poetry, 1910-1939*
Jane Dowson, 2017-03-02 Primarily a literary history *Women Modernism and British Poetry 1910 1939* provides a timely discussion of individual women poets who have become or are becoming well known as their works are reprinted but about whom little has yet been written This volume recognizes the contributions overlooked previously of such British poets as Anna Wickham Nancy Cunard Edith Sitwell Mina Loy Charlotte Mew May Sinclair Vita Sackville West and Sylvia Townsend Warner and the impact of such American poets as H D Amy Lowell Edna St Vincent Millay Marianne Moore and Laura Riding on literary practice in Britain This book primarily maps the poetry scene in Britain but identifies the significance of the network of writers between London New York and Paris It assesses women s participation in the diversity of modernist developments which include avant garde experiments quiet but subtly challenging formalism and assertive new woman voices It not only chronicles women s poetry but also their publications and involvement in running presses bookshops and writing criticism Although historically situated it is written from the perspective of contemporary debates concerning the interface of gender and modernism The author argues that a cohering aesthetic of the poetry is a denial of femininity through various evasions of gendered identity such as masking male and female impersonations and the rupturing of realist modes

Blood, Bread, and Poetry: Selected Prose 1979-1985 Adrienne Rich, 1994-07-17 That Adrienne Rich is a not only a major American poet but an incisive compelling prose writer is made clear once again by this collection in which she continues to explore the social and political context of her life and art Examining the connections between history and the imagination ethics and action she explores the possible meanings of being white female lesbian Jewish and a United States citizen both at this particular time and through the lens of the past
