Nothing Doting Blindness:

Nothing Henry Green, 2017-10-17 Years ago Jane Weatherby had a torrid affair with John Pomfret the husband of her best friend Divorces ensued World War II happened Prewar partying gave way to postwar austerity and Jane and John's now grown children Philip and Mary both as serious and sober as their parents were not seem earnestly bent on marriage which John and Jane consider a mistake The two old lovers conspire against the two young lovers and nothing turns out quite as expected Nothing like the closely related *Doting* is a book that is almost entirely composed in dialogue since in these late novels nothing so interested Green as how words resist twist and expose our intentions how they fail us lead us on make fools of us and may in spite of ourselves even save us at least for a time Nothing spills over with the bizarre and delicious comedy and poetry of human incoherence **Nothing ; Doting ; Blindness** Henry Green, 1993 [Nothing, Doting, Blindness](#) [Kindle](#) Henry Green, 2009-12-23 , **Henry Green at the Limits of Modernism** Marius Hentea, 2013-11-01 Although Henry Green has been recognised by James Wood David Lodge and John Updike as one of the most innovative writers of his time his significant achievement remains largely neglected Henry Green at the Limits of Modernism provides a theoretically sophisticated and historically nuanced reading of Green's novels and makes the case for Green's importance in reconsiderations of modernism late modernism and post war realism This work is the most ambitious reassessment of Green's oeuvre to date and thus critical reading for scholars interested in modernism late modernism and the evolution of British post war fiction Arguing against the predominant view of Green's fiction as an autonomous literary construction the work connects Green to a number of social and literary contexts resulting in fresh readings of his novels and also a greater accessibility to an author long considered oblique and elusive With significant investigations of Green's connection to his literary generation his multifaceted and formally innovative handling of social class his negotiations of narrative authority and authorship and the importance of disability studies to understanding Green's fiction this study charts the complex trajectories of Green's fiction against both social and literary contexts The work also moves beyond the narrow confines of British literature to explore Green's connections to broader trends in European literature **The Politics of 1930s British Literature** Natasha Periyar, 2018-06-14 Winner of the 2018 International Standing Conference for the History of Education's First Book Award Drawing on a rich array of archival sources and historical detail The Politics of 1930s British Literature tells the story of a school minded decade and illuminates new readings of the politics and aesthetics of 1930s literature In a period of shifting political claims educational policy shaped writers social and gender ideals This book explores how a wide array of writers including Virginia Woolf W H Auden George Orwell Winifred Holtby and Graham Greene were informed by their pedagogic work It considers the ways in which education influenced writers analysis of literary style and their conception of future literary forms The Politics of 1930s British Literature argues that to those perennial symbols of the 1930s the loudspeaker and the gramophone should be added the textbook and the blackboard [Granular Modernism](#) Beci

Carver,2014-11-27 Granular Modernism understands the way that some Modernist texts put themselves together as a way of pulling themselves apart In this volume Beci Carver offers a new way of reading Modernist novels and poems by drawing attention to the anomalies that make them difficult to summarise or simplify Carver proposes that rather than trying to find the shapes of narrative or argument in their writing the Granular Modernists namely Joseph Conrad William Gerhardt Evelyn Waugh Henry Green T S Eliot W H Auden and Samuel Beckett experiment in certain of their works in finding the shapelessness of a moment in history that increasingly confidently called itself modern which was to call itself shapeless The project of Modernism in the late nineteenth and the first half of the twentieth century was to find a story to tell about an era full of beginnings The project of Granular Modernism was to find a way of turning the inchoateness of the modern moment into art Granular Modernism takes from the Naturalist movements of the nineteenth and early twentieth century its attentiveness to the process of mundane experiences like eating or waiting But where Naturalism sets out to offer a complete picture of a way of life Granular Modernism s eating and waiting fail to amount to anything more to paraphrase Evelyn Waugh The most they can hope for is a cumulative futility Frank Norris once described one of Stephen Crane s narrators as a locust in a grain elevator attempting to empty the silo by carrying off one grain at a time Norris is being dismissive But his image of pointless meticulous indefinite manoeuvre potentially defines the ambition of the Granular Modernists **Life**

Unseen Selina Mills,2023-06-15 Imagine a world without sight Is it dark and gloomy Is it terrifying and isolating Or is it simply a state of not seeing which we have demonised and sentimentalized over the centuries And why is blindness so frightening In this fascinating historical adventure Broadcaster and author Selina Mills takes us on a journey through the history of blindness in Western Culture to discover that blindness is not so dark after all Inspired by her own experience of losing her sight as she forged a successful journalistic career Life Unseen takes us through a personal and unsentimental historical quest through the lives stories and achievements of blind people as well as those sighted people who sought to patronize demonize and fix them From the blind poet Homer through the myths and moralising of early medieval culture to the scientific and medical discoveries of the Enlightenment and modern times the story of blindness turns out to be a story of our whole culture **Sight Unseen** Georgina Kleege,1999-03-11 This elegantly written book offers an unexpected and unprecedented account of blindness and sight Legally blind since the age of eleven Georgina Kleege draws on her experiences to offer a detailed testimony of visual impairment both her own view of the world and the world s view of the blind I hope to turn the reader s gaze outward to say not only Here s what I see but also Here s what you see to show both what s unique and what s universal Kleege writes Kleege describes the negative social status of the blind analyzes stereotypes of the blind that have been perpetuated by movies and discusses how blindness has been portrayed in literature She vividly conveys the visual experience of someone with severely impaired sight and explains what she can see and what she cannot and how her inability to achieve eye contact in a society that prizes that form of connection has affected her

Finally she tells of the various ways she reads and the freedom she felt when she stopped concealing her blindness and acquired skills such as reading braille as part of a new blind identity Without sentimentality or clichés Kleege offers us the opportunity to imagine life without sight

A Narratology of Drama Christine Schwanecke, 2022-01-19 This volume argues against Gérard Genette's theory that there is an insurmountable opposition between drama and narrative and shows that the two forms of storytelling have been productively intertwined throughout literary history Building on the idea that plays often incorporate elements from other genres especially narrative ones the present study theorises drama as a fundamentally narrative genre Guided by the question of how drama tells stories the first part of the study delineates the general characteristics of dramatic narration and zooms in on the use of narrative forms in drama The second part proposes a history of dramatic storytelling from the Renaissance to the twenty first century that transcends conventional genre boundaries Close readings of exemplary British plays provide an overview of the dominant narrative modes in each period and point to their impact in the broader cultural and historical context of the plays Finally the volume argues that throughout history highly narrative plays have had a performative power that reached well beyond the stage dramatic storytelling not only reflects socio political realities but also largely shapes them
