Notion Of Ditthi In Theravada Buddhism:

The Notion of Ditthi in Theravāda Buddhism Paul Fuller, 2005 The notion of view or opinion ditthi as an obstacle to seeing things as they are is a central concept in Buddhist thought This book considers the two ways in which the notion of views are usually understood Are we to understand right view as a correction of wrong views the opposition understanding or is the aim of the Buddhist path the overcoming of all views even right view the no views understanding The author argues that neither approach is correct Instead he suggests that the early texts do not understand right view as a correction of wrong view but as a detached order of seeing completely different from the attitude of holding to any view wrong or right Arguing that by the term right view we should understand an order of seeing which transcends all views this book makes a valuable addition to the study of Buddhist philosophy *Wisdom of Not-Knowing* Bob Chisholm, 2016-02-01 These essays most by practising psychotherapists some of them Buddhists take as their starting point the idea that not knowing is fundamental to conscious reflection and the desire to know must always arise in the first instance from the self awareness of not knowing

Toleration in Comparative Perspective Vicki A. Spencer, 2017-10-24 Toleration in Comparative Perspective is a collection of essays that explores conceptions of toleration and tolerance in Asia and the West It tests the common assumption in Western political discourse and contemporary political theory that toleration is a uniquely Western virtue Toleration in modern Western philosophy is understood as principled noninterference in the practices and beliefs of others that one disapproves of or at least dislikes Although toleration might be seen today as a quintessential liberal value precedents to this modern concept also existed in medieval times while Indigenous American stories about welcome challenge the very possibility of noninterference The modern Western philosophical concept of toleration is not always easily translated into other philosophical traditions but this book opens a dialogue between various traditions of thought to explore precisely the ways in which overlap and distinctions exist What emerges is the existence of a family of resemblances in approaches to religious and cultural diversity from a program of pragmatic noninterference in the Ottoman Empire to deeper notions of acceptance and inclusiveness amongst the Newar People in the Kathmandu Valley The development of an Islamic ethic of tolerance the Daoist idea of all inclusiveness and Confucian ideas of broad mindedness respect and coexistence to the idea of the one in the many in Hindu thought are examined along with sources for intolerance tolerance and toleration in Pali Buddhism early modern Japan and contemporary India **Tsongkhapa** David Gray, 2024-10-22 Tsongkhapa s seminal contributions to Buddhist thought and practice and to the course of history are illuminated and celebrated by some of his foremost modern interpreters Few figures have impacted the trajectory of Buddhism as much as the great philosopher and meditator scholar and reformer Tsongkhapa Losang Drakpa 1357 1419 the founder of the Geluk school of Tibetan Buddhism and teacher of the First Dalai Lama His Ganden tradition spread throughout Central Asia and Mongolia and today through figures such as the Dalai Lama who calls Tsongkhapa a second Nagarjuna his teachings are shaping intellectual
