Novelas Ejemplares II:

Novelas Ejemplares Miguel de Cervantes Saavedra, 2013 Originally published in four separate volumes this publication sees all 12 *Novelas Ejemplares* as a single volume for the first time in English Each story has an individual introduction the original Spanish text with facing English translation and notes Cervantes - Two Novelas Ejemplares Jennifer Lowe, 1971

History of Prose Fiction John Colin Dunlop, 1906 *Cervantine Blackness* Nicholas R. Jones, 2024-10-22 There is no shortage of Black characters in Miguel de Cervantes's works yet there has been a profound silence about the Spanish author's compelling literary construction and cultural codification of Black Africans and sub-Saharan Africa In *Cervantine Blackness* Nicholas R. Jones reconsiders in what sense Black subjects possess an inherent value within Cervantes's cultural purview and literary corpus In this unflinching critique Jones charts important new methodological and theoretical terrain problematizing the ways emphasis on agency has stifled and truncated the study of Black Africans and their descendants in early modern Spanish cultural and literary production Through the lens of what he calls Cervantine Blackness Jones challenges the reader to think about the blind faith that has been lent to the idea of agency and its analogues presence and resistance as a primary motivation for examining the lives of Black people during this period Offering a well-crafted and sharp critique through a systematic deconstruction of deeply rooted prejudices Jones establishes a solid foundation for the development of a new genre of literary and cultural criticism A searing work of literary criticism and political debate *Cervantine Blackness* speaks to specialists and nonspecialists alike anyone with a serious interest in Cervantes's work who takes seriously a critical reckoning with the cultural historical and literary legacies of agency antiblackness and refusal within the Iberian Peninsula and the global reaches of its empire **Christians and Moors in Spain. Vol 2 Latin Documents and Vernacular**

Documents AD 1195-1614 Colin Smith, 1989 The two previous volumes draw a fascinating picture of the confrontation between the Christians and Moors in Spain from the Christian side This volume attempts to redress the balance by describing many of the same incidents from the Muslims point of view The close intermingling of Christians and Moors whether in love in politics or in the common enjoyment of popular festivals helps to account for the unique character of Islamic society in the Iberian Peninsula Extracts from Arabic sources cover the relations between Christians and Moors in Spain over nearly 800 years Apart from military encounters some attention is paid to diplomacy and also to lawsuits legal judgments and regulations governing the co-existence of the rival communities These not only reveal the fundamental differences between the two sides but show how in many cases the divisions were not as clear-cut as the jurists and theologians would have wished Only a handful of these texts have ever been translated into English before and it is hoped that this selection will make a contribution to the understanding of this remarkable period in Spanish and Islamic history

Sub-versions of the Archive Carlos Riobó, 2010-12-29 Sub Versions of the Archive Manuel Puig's and Severo Sarduy's Alternative Identities analyzes recent theories of the archive to examine how Manuel Puig and Severo Sarduy reformulate the Latin American literary tradition This study focuses on eclectic theories of the archive as both repository and danger drawing from an array of sources both within and outside the Hispanic literary tradition from Borges Foucault Arrom Derrida Gonz lez Echevarra and Guillory to digital media and biotechnology This book also applies theories of cultural contamination Maria Lugones and symbolic capital Pierre Bourdieu to the novels of Puig and Sarduy to explore the representation of marginal cultures within a body of literature that previously altered or elided these subaltern cultures from the tradition Through close readings and critical theoretical applications this book demonstrates how archival fiction continues to be one of the most popular strategies among Latin American novelists and most importantly how they have successfully managed to find new ways to inscribe their alternative fictions within this tradition Puig's and Sarduy's novels reproduce discourses popular culture and the mass media that lack prestige within the traditional archive These discourses mirror realities of marginal groups gay people children the poor the illiterate women and racial minorities Their cultural variants sub versions of hegemonic masterstories are endowed with truth bearing power for them but were previously left out of the archive as legitimate novelistic models To date this is the only study of contemporary Latin American fiction that puts current theories of the archive especially that of Roberto Gonz lez Echevarra to practice in such a systematic way Riob's analysis of how Puig and Sarduy reformulate the Latin American canon is both a necessary complement of Gonz lez Echevarra's work and an intelligent answer to the first of his projected masterstories Riob's multidisciplinary approach

Ficino in Spain Susan Byrne, 2015-07-27 As the first translator of Plato's complete works into Latin the Florentine writer Marsilio Ficino 1433-99 and his blend of Neoplatonic and Hermetic philosophy were fundamental to the intellectual atmosphere of the Renaissance In Spain his works were regularly read quoted and referenced at least until the nineteenth century when literary critics and philosophers wrote him out of the history of early modern Spain In *Ficino in Spain* Susan Byrne uses textual and bibliographic evidence to show the pervasive impact of Ficino's writings and translations on the Spanish Renaissance Cataloguing everything from specific mentions of his name in major texts to glossed volumes of his works in Spanish libraries Byrne shows that Spanish writers such as Miguel de Cervantes Lope de Vega Bartolom de las Casas and Garcilaso de la Vega all responded to Ficino and adapted his imagery for their own works An important contribution to the study of Spanish literature and culture from the fifteenth to the seventeenth centuries *Ficino in Spain* recovers the role that Hermetic and Neoplatonic thought played in the world of Spanish literature

Pedro de Valencia and the Catholic Apologists of the Expulsion of the Moriscos Grace Magnier, 2010 Drawing on arguments for and against the expulsion of the Moriscos and using previously unpublished source material this book compares the case against banishment made by the Christian humanist Pedro de Valencia with that in favour pleaded by Catholic apologists
