Novitas Mundi:

Novitas Mundi D. G. Leahy, 1994-07-01 The Prolegomena sets out the fundamental perception of the history of being now operative in consciousness The center of the book is comprised of a two part Reflection on the History of Being Part I is an examination of the impact made on the shape of scientific philosophy by the fact of Christian faith Aristotle the sacra doctrina of Thomas Aquinas and their relationship with the modern thinkers Descartes Kant Hegel and Kierkegaard are examined in this section In Part II the history of the conception of time becomes the measure of a prospective analysis of the limits essential to the modern enterprise Augustine Leibniz Husserl and Heidegger become the major figures here and there is a specific delineation of the relationship of the phenomenologists to Kierkegaard and Hegel **Novitas Mundi** D. G. Leahy, 1980-01-01 Living the Death of God Thomas J. J. Altizer, 2012-02-01 Theologian Thomas J J Altizer became both famous and infamous as the chief spokesman for death of God theology in the 1960s In the years that followed he has created a theological tradition that has influenced all succeeding generations of theologians Living the Death of God is Altizer s theological memoir Taking us from his transformation as a theological student to his present life of solitude Altizer recapitulates the voyage to create a truly new theology The memoir recounts each stage of this voyage from being overwhelmed by Satan to a conversion to the death of God and an extensive and even ecstatic preaching of the death of God However this is the death of that God who is the wholly alienated God a death realizing anew the crucified God or the apocalyptic Christ Written with Altizer s characteristic elegance this book is fascinating on its own account but can also serve the reader as a companion or introduction to Altizer s body of work **The Apocalyptic Trinity** T. Altizer, 2012-12-05 This book is a major step forward in radical theology via a sustained and creative challenge to conventional and orthodox thinking on the Trinity Altizer presents a radical rethinking of the apocalyptic trinity and recovers the apocalyptic Jesus of Hegel Blake and Nietzsche Graceful reason Lloyd P. Gerson, 2024-10-07 **Texts for Students**, 1927 *Auden's O* Andrew W. Hass, 2013-11-01 Explores the rise of the idea of nothing in Western modernity and how its figuration is transforming and offering new possibilities In this groundbreaking interdisciplinary history of ideas Andrew W Hass explores the ascendancy of the concept of nothing into late modernity He argues that the rise of the reality of nothing in religion philosophy and literature has taken place only against the decline of the concept of One a shift from a sovereign understanding of the One unity universality toward the figure of the O a cipher figure that as nonentity is nevertheless determinant of other realities The figuring of this O culminates in a proliferation of literary expressions of nothingness void and absence from 1940 to 1960 but by century s end this movement has shifted from linear progression to mutation whereby religion theology philosophy literature and other critical modes of thought such as feminism merge into a shared circular activity The writer W H Auden lends his name to this O his long poetic work The Sea and the Mirror an exemplary manifestation of its implications Hass examines this work along with that of a host of writers philosophers and theologians to trace the revolutionary hermeneutics

and creative space of the O and to provide the reasoning of why nothing is now such a powerful force in the imagination of the twenty first century and of how it might move us through and beyond our turbulent times **Myth and Poetry in**

Lucretius Monica R. Gale,1994-03-10 This book attempts to provide a more positive assessment of Lucretius aims and methodology by considering the poet s attitude to myth and the role which it plays in the De Rerum Natura against the background of earlier and contemporary views **Lucretius on Creation and Evolution** Gordon Lindsay Campbell,2003

Lucretius account of the origin of life the origin of species and human prehistory is the longest and most detailed account extant from the ancient world It gives an anti teleological mechanistic theory of zoogony and the origin of species that does away with the need for any divine aid or design in the process and accordingly it has been seen as a forerunner of Darwin s theory of evolution This commentary locates Lucretius in both the ancient and modern contexts and treats Lucretius ideas as very much alive rather than as historical concepts The recent revival of creationism makes this study particularly relevant to contemporary debate and indeed many of the central questions posed by creationists are those Lucretius attempts to answer

The first six books of the Aeneid Virgil,1876
