Nuclear Madness What You Can Do:

Nuclear Madness Helen Caldicott, Nancy Herrington, Nahum Stiskin, Menahum Nahum Stiskin, 1980 First published in 1978 Helen Caldicott's *cri du coeur* about the dangers of nuclear power became an instant classic In the intervening sixteen years much has changed the Cold War is over nuclear arms production has decreased and there has been a marked growth in environmental awareness But the nuclear genie has not been forced back into the bottle The disaster at Chernobyl and the incidents at other plants around the world have disproven the image of safe nuclear power Nuclear waste dumping has further poisoned our environment and developing nuclear technology in the Third World poses still further risks In this completely revised updated and expanded edition Dr Caldicott defines for the 1990s the dangers of this madness including the insidious influence of the nuclear power industry and the American government's complicity in medical experiments using nuclear material and calls on us to accept the moral challenge to fight against it both for our own sake and for that of future generations

Nuclear Madness Helen Caldicott, 1994 Nuclear waste dumping has further poisoned our environment and developing nuclear technology in the Third World poses still further risks *WHAT YOU CAN DO! : NUCLEAR MADNESS*. Gifts of Virtue, Alice Walker, and Womanist Ethics M. Harris,2010-10-25 Melanie L Harris dives into the spirituality and life work of Alice Walker literary genius and poet Through the lens of Womanist ethics Harris takes an inside look into the virtues and values that can be lifted from a study of Walker s non fiction work This work enlivens the debate in African and African American religious thought about the fluidity of spirituality and widens the conversation to encourage readers to embrace religious traditions inclusive of and beyond Christianity as the foundations for empowerment of both women and ethical values **Writing Ground Zero** John Whittier Treat,1995 Treat summarizes the Japanese contribution to such ongoing international debates as the crisis of modern ethics the relationship of experience to memory and the possibility of writing history This Japanese perspective he shows both confirms and amends many of the assertions made in the West on the shift that the death camps and nuclear weapons have jointly signaled for the modern world and for the future
