**Nuclear Weapons and British Strategic Planning, 1955-1958** Martin S. Navias, 1991 During the 1950s nuclear weapons began to play an increasingly important role in Britain's defence policy The development of thermonuclear bombs and assessments of the great destruction that would result from an exchange of nuclear warheads helped alter Britain's planning for war and influenced the structure and deployment of her armed forces In this study Martin Navias seeks to analyse the significance of the 1957 White Paper on Defence in the context of British strategic planning during the mid 1950s He assesses claims that the White Paper represented a culmination of trends already prevalent in British defence planning discusses whether the basis for a truly independent deterrent was established during 1955-6 and identifies continuities and discontinuities in strategic policies A major theme throughout is the relationship between nuclear deterrence and the shape and size of conventional forces Before Duncan Sandys became Minister of Defence that ministry seemed unable to impose itself on the service departments Sandys however was able to override many traditional service preferences The result was the adoption of a British New Look conventional forces were reduced greater relative importance was placed on the nuclear deterrent but once more the requirements of a truly independent deterrent did not receive priority

The Official History of the UK Strategic Nuclear Deterrent Matthew Jones, 2017-05-12 Volume II of The Official History of the UK Strategic Nuclear Deterrent provides an authoritative and in depth examination of the British government's strategic nuclear policy from 1964 to 1970 Written with full access to the UK documentary record Volume II examines the controversies that developed over nuclear policy following the arrival in office of a Labour government led by Harold Wilson in October 1964 that openly questioned the independence of the deterrent Having decided to preserve the Polaris programme Labour ministers were nevertheless committed not to develop another generation of nuclear weapons beyond those in the pipeline placing major doubts over the long term future of the nuclear programme and collaboration with the United States Defence planners also became increasingly concerned that the deployment of Soviet anti ballistic missile ABM defences around Moscow threatened to undermine the ability of Polaris to fulfil its role as a national strategic nuclear deterrent During 1967 under heavy pressures to control defence spending a protracted debate was conducted within Whitehall over the future of Polaris and how to respond to the evolving ABM challenge The volume concludes with Labour's defeat at the general election of June 1970 by which time the Royal Navy had assumed the nuclear deterrent role from the RAF and plans had already been formulated for a UK project to improve Polaris which could both ensure its continuing credibility and rejuvenate the Anglo American nuclear relationship This book will be of much interest to students of British politics Cold War history nuclear proliferation and international relations

**The Anglo-American Military Relationship** Wyn Rees, 2024-02-19 The Anglo American Military Relationship explores military cooperation since the end of the Cold War Much of the literature on the Anglo American Special Relationship has focused on the personal linkages between American Presidents and British Prime Ministers This book argues that much of what is special between the two countries has resided in their military cooperation This has provided the ballast that has underpinned other aspects of the political and economic relationship and given it durability The book focuses on how the British armed services have worked alongside a superpower in both peacetime and

conflict This military cooperation has been a challenging task not least because it has occurred within a dynamic strategic context in which the nature of conflict has been evolving British armed forces have engaged with their American allies in high intensity warfare as well as in developing military doctrines to address insurgency peace enforcement and nation building tasks Working so closely with the US military has generated risks as well as benefits for Britain's armed forces It has led them to engage in tasks that have weighed heavily upon their resources and has resulted in numerous tensions between the two sides

The Bomber In British Strategy S. J. Ball,2022-04-30 Between 1945 and 1960 Great Britain constructed a substantial nuclear armed bomber force The creation of this force had ramifications that extended well beyond the confines of military policy The process played a large part in defining relations with the United States and the belief that these bombers could replace conventional forces convinced successive British governments that Great Britain could maintain a significant global military role Originally published in 1995 and drawing on both archives and oral testimony this book analyses British strategic discourse and its influence on British foreign policy in the early decades of the Cold War

James, 2001-11-28 During the Cold War the small state of Cyprus was of great strategic importance to the West Britain the United States and Nato all had valuable installations there and any armed conflict between Greek and Turkish Cypriots could easily suck two nearby Nato members Greece and Turkey into war When therefore intercommunal fighting broke out in Cyprus in December 1963 the West was deeply embarrassed This book examines the consequential efforts of first Britain and then the UN to keep the peace **The British Way in Cold Warfare**
