Nuclear Theology:

The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom *Theology and Modern Physics* Peter E. Hodgson, 2017-09-08 The new discoveries in physics during the twentieth century have stimulated intense debate about their relevance to age old theological questions Views range from those holding that modern physics provides a surer road to God than traditional religions to those who say that physics and theology are incommensurable and so do not relate At the very least physics has stimulated renewed theological discussions In this critical introduction to the science theology debate Peter E Hodgson draws on his experience as a physicist to present the results of modern physics and the theological implications Written for those with little or no scientific background Hodgson describes connections between physics philosophy and theology and then explains Newtonian physics and Victorian physics the theories of relativity astronomy and quantum mechanics and distinguishes the actual results of modern physics from speculations The connections with theology are explored throughout The concluding section draws discussions together and makes an important new contribution to the debate *Theology for a Nuclear Age* Gordon D. Kaufman, 1985 **Forrester on Christian Ethics and Practical Theology** Duncan B. Forrester, 2010 Bringing together articles and chapters from his considerable work in theological ethics India and the social order Duncan Forrester incorporates new writing and introductions to each thematic section to guide readers through this invaluable resource This book offers stimulating studies in three related areas Indian Christianity with particular attention to the caste system contemporary Christian theological ethics and the distinctive and challenging theological approach that Forrester has developed in relation to public issues *India's Doctrine Puzzle* Ali Ahmed, 2014-09-25 The balance of power in South Asia is tenuous Neighbouring states with nuclear arsenal pose a serious threat in times of conflict and the danger of escalation into a nuclear holocaust in South are ever present This book locates the change in India's war doctrine at the turn of the century following the Kargil War in 1999 between India and Pakistan It examines how war policy was shaped by the threat posed by India's neighbours and the need for greater strategic assertion It also reveals that this change was forced by the military's need to adapt itself to the nuclear age Finally it raises questions

of whether the Limited War doctrine has made India more secure An astute analysis of not only India's military strategy but also of military doctrine in general this book will be valuable to scholars and researchers of defence and strategic studies international relations peace and conflict studies South Asia studies as well as government and military institutions The Nuclear Freeze Debate Paul M Cole, William J Taylor Jr, 2019-06-26 From a local ballot initiative in Massachusetts the nuclear weapons freeze movement has grown during the last three years into an important national issue By 1983 Congress had been asked to consider more than two dozen freeze resolutions and more than 25% of the voters in the U S had the opportunity to vote on state wide and regional freeze initiatives This book explores the issues behind the current debate over nuclear weapons and the freeze movement from a wide range of perspectives The contributors assess the goals and implications of the freeze movement examine its origins in religious and secular pacifism explain the amendments to the original freeze proposal introduced in Congress and discuss the reaction and policies of the Reagan administration The nuclear freeze movement is placed in an international context with discussions of recent arms negotiations European views of U S policies and the possible effects of a freeze on NATO allies and on U S national security The book includes a comprehensive annotated bibliography The Rise of Indian Military Power: Evolution of an Indian Strategic Culture , 2015-07-15 This is a monumental and decisively shape outcomes For this economic power must be rapidly converted into usable military power India must field dominant war fighting capabilities in South Asia The Spirit of American Liberal Theology Gary Dorrien, 2023-09-05 The Spirit of American Liberal Theology is an interpretation of the entire U S American tradition of liberal theology A highly condensed and far more accessible summary of Gary Dorrien's three volume trilogy The Making of American Liberal Theology Westminster John Knox Press 2001 2003 and 2006 Dorrien here presses the argument that the most abundant diverse and persistent tradition of liberal theology is the one that blossomed in the United States and is still refashioning itself While discussions of English and German liberalism persist new material includes expanded treatment of the Black social gospel the Universalists developments into early 2020s and a robust expression of the author's post Hegelian liberal liberationist perspective *Soviet Military Doctrine and Western Policy* Gregory Flynn, 2021-01-26 This book first published in 1989 analyses Western and Soviet perceptions of each other's military thoughts and doctrines a key part of the Cold War where both sides planned to both win a possible conflict and to avoid one The work demonstrates that both East and West made judgments about each other's military profile on the basis of political preconceptions **Ethics of War and Peace in Iran and Shi'i Islam** Mohammed Jafar Amir Mahallati, 2016-11-14 Nearly four decades after a revolution experiencing one of the longest wars in contemporary history facing political and ideological threats by regional radicals such as ISIS and the Taliban and having succeeded in negotiations with six world powers over her nuclear program Iran appears as an experienced Muslim country seeking to build bridges with its Sunni neighbours as well as with the West Ethics of War and Peace in Iran and Shi'i Islam explores the wide spectrum of theoretical approaches and practical attitudes

concerning the justifications causes and conduct of war in Iranian Shi'i culture By examining primary and secondary sources and investigating longer lasting factors and questions over circumstantial ones Mohammed Jafar Amir Mahallati seeks to understand modern Iranian responses to war and peace His work is the first in its field to look into the ethics of war and peace in Iran and Shi'i Islam It provides a prism through which the binary source of the Iranian national and religious identity informs Iranian response to modernity By doing so the author reveals that a syncretic and civilization conscious soul in modern Iran is re emerging
