Opportunities Missed Opportunities Seize

Fred Grünfeld, Wessel N. Vermeulen

Opportunities Missed Opportunities Seize:

Opportunities Missed, Opportunities Seized Bruce W. Jentleson, 2000 The basic logic of preventive diplomacy is unassailable Act early to prevent disputes from escalating reduce tensions that could lead to war deal with today s conflicts before they become tomorrow s crises Yet as we look at the record of these first years of the post Cold War era it is quite mixed There have been some preventive diplomacy successes and opportunities that have been seized by major powers and international organizations to help preserve and protect the peace But there also have been other opportunities that have been missed with some of the century s most deadly conflicts the result This study examines ten major post Cold War cases including Croatia Bosnia Rwanda the Baltics Russia Ukraine Macedonia and North Korea_ to assess the key factors contributing to both the success and failure of preventive diplomacy The method of case study analysis employed is based on the work of Alexander L George Authors include both leading academics and prominent policy officials with first hand knowledge

Leashing the Dogs of War Chester A. Crocker, Fen Osler Hampson, Pamela R. Aall, 2007 The definitive volume on the sources of contemporary conflict and the array of possible responses to it Collective Preventive Diplomacy Barry H. Steiner, 2012-02-01 Powerful nations have often assumed a leadership role in international relations by becoming involved in ethnic conflict arising within small states Recently however their willingness to do so at least unilaterally has diminished This study focuses on why and how powerful nations have acted together to dampen or forestall the expansion of small state conflicts while limiting potential risks to themselves Employing a case study method Barry H Steiner distinguishes between two types of collective preventive diplomacy the insulationist and the interventionist In the former powerful nations are motivated to contain small power conflict in order to preserve their relations with other powerful nations In the latter they act to settle conflict between the small power antagonists themselves *The European Union and Conflict Prevention* Emma J. Stewart, 2006 The book examines the evolution of EU conflict prevention as an internal EU process and as an area of external cooperation with the UN OSCE and NATO Conflict prevention has emerged as a prominent EU policy in the post Cold War era Yet how suited is the organisation to practice conflict prevention and what does the record of cooperation with other key European organisations tell us about the EU s external priorities The book critically analyses the EU s policy and outcomes to date concluding that conflict prevention is underdeveloped by the EU and is in danger of being marginalised in favour of shorter term crisis management Moreover EU external cooperation reinforces this the priority is cooperation in crisis management with the UN and NATO rather than longer term cooperation with the OSCE

Failure to Prevent Gross Human Rights Violations in Darfur Fred Grünfeld, Wessel N. Vermeulen, 2014-05-09 The book looks at the role of states and international organisations in their attempts to prevent the genocide in Darfur 2003 2005 from early warning to limited action in the field of humanitarian assistance mediation sanctions and peace keeping The book uses several theories to explain how decision making led to the absence of international responses Peace Lost: The Failure of

Conflict Prevention in Kosovo Marc Weller, 2008-12-31 This book traces the failure of international action in Kosovo from the late 1980s until NATO intervention in 1999 and endeavours to explain why during that time so many opportunities for making peace were squandered Applying methodology developed by the EU Conflict Prevention Network it divides the conflict into four main phases and examines how at each chances for settlement were either lost or overlooked It considers policy alternatives available at the time and hypothesises reasons why these were ultimately discarded Drawing on a wide range of sources including the author's own experience of the negotiations process this book presents a hitherto unexplored thesis of the Kosovo conflict that of a lag in international action in relation to the situation on the ground and seeks to draw from these failures some central lessons for the future of conflict prevention *Doing Qualitative Research in Politics*

Angela Kachuyevski, Lisa M. Samuel, 2018-03-05 This volume offers unique perspectives on how to engage in methods of inquiry in Political Science Applying the debate in the field over the validity of qualitative methods the authors illustrate how various methodological approaches are both rigorous and empirically rich Each of the chapters consists of a particular methodological approach that offers useful insight into pressing political problems important for policy and for theory building Drawing upon both positivist and interpretive approaches the chapters illustrate how to engage in qualitative research involving case studies content analysis and ethnography each outlining the doing part of research The volume is theoretically thematically and geographically diverse important for students and scholars across the field *Preventive*

Diplomacy, Peacebuilding And Security In The Asia-Pacific: Evolving Norms, Agenda And Practices Yanjun Guo, Ji Miao, 2022-01-18 Preventive diplomacy constitutes an important part of international conflict resolution mechanisms This book presents the latest research trends in ideations institutions and practices in preventive diplomacy and other peacebuilding measures of Asia Pacific countries to ensure traditional and non traditional security within and beyond the region It studies peacebuilding issues range from North Korea nuclear issue in Northeast Asia disputes in the South China Sea Afghanistan peace process and China India Pakistan interaction in South Asia UN peacebuilding in Central Asia etc It explores general security issues at the state international regional and global levels by experts from the Asia Pacific This book is a useful guide for those interested to know the security and preventive diplomacy status in the region's distinctive context **Security and Environment in the Mediterranean** Hans Günter Brauch, Peter H. Liotta, Antonio Marquina, Paul F. Rogers, Mohammad El-Sayed Selim, 2012-12-06 In this volume security specialists peace researchers environmental scholars demographers as well as climate desertification water food and urbanisation specialists from the Middle East and North Africa Europe and North America review security and conflict prevention in the Mediterranean They also analyse NATO's Mediterranean security dialogue and offer conceptualisations on security and perceptions of security challenges as seen in North and South The latter half of the book analyses environmental security and conflicts in the Mediterranean and environmental consequences of World War II the Gulf War the Balkan wars and the Middle East conflict It also examines

factors of global environmental change population growth climate change desertification water scarcity food and urbanisation issues as well as natural disasters Furthermore it draws conceptual conclusions for a fourth phase of research on human and environmental security and peace as well as policy conclusions for cooperation and partnership in the Mediterranean in the 21st century No More Killing Fields David A. Hamburg, 2002 Drawing on work conducted by the Carnegie Commission on Preventing Deadly Conflict a study of the prevention of war and genocide examines such concepts as preventive diplomacy the role of civil society socioeconomic development and international cooperation International Law on Peacekeeping Hitoshi Nasu, 2009 It is generally considered that the UN Security Council has been galvanised since the end of the Cold War However the existence and development of armed conflicts remain the reality in the international scene Is the upsurge in instances of invoking Chapter VII of the UN Charter truly a sign of the invigoration of the Security Council's authority or mere evidence of its failure to prevent the aggravation of armed conflicts To what extent is the Security Council authorised to exercise the peacekeeping power in order to take a more flexible approach to conflict management from an earlier stage of conflict This book explores the potential of the UN peacekeeping power placing Article 40 of the UN Charter at the centre of the legal regime governing peacekeeping measures It traces the origins of peacekeeping measures primarily in the experience of the League of Nations and identifies Article 40 of the Charter as the primary legal basis for and the legal restraints upon the exercise of the peacekeeping power It examines the regulatory framework within which the United Nations particularly the Security Council is authorised and may even be required to direct peacekeeping measures to prevent the aggravation of armed conflicts It suggests that the legal accountability of the Security Council in directing peacekeeping measures will be enhanced by utilising procedural mechanisms for self regulation

Confronting Ethnic Conflict Jennifer L. De Maio, 2009-01-01 *Confronting Ethnic Conflict* critically assesses the role of external intervention in managing selected ethnic conflicts in Africa Given the pervasive threat of ethnic conflict and the growing incidence of internal wars spilling across borders understanding the impact of third party intervention on conflict prevention durable peaceful governance and amicable social relations becomes a critical exercise for any scholar of conflict management The purpose of this project is to determine whether intervention strategies undertaken by international regional and subregional actors can be devised or improved so as to maximize the likelihood of successful conflict management in the case of internal conflicts particularly ethnic conflicts As the literature and empirical evidence suggest third party intervention does not always prevent or end violence De Maio contends that external involvement is more likely to lead to effective conflict management if it works to alter the perceptions of the antagonists and ensures that the parties truly own the peace This book focuses on four cases in detail the Somali crisis from 1988 to 1992 the Burundi conflict from 1995 to 2003 the protracted conflict in Sudan from 1983 to 2005 and the 1994 KwaZulu Natal civil conflict in South Africa The cases were selected because their varying outcomes and different types of third party involvement suggest that insights can be gained

into the conditions that determine successful third party intervention *Detention in the 'War on Terror'* Fiona de Londras,2011-07-28 In this book Fiona de Londras presents an overview of counter terrorist detention in the US and the UK and the attempts by both states to achieve a downward recalibration of international human rights standards as they apply in an emergency Arguing that the design and implementation of this policy has been greatly influenced by both popular and manufactured panic Detention in the War on Terror addresses counter terrorist detention through an original analytic framework In contrast to domestic law in the US and UK de Londras argues that international human rights law has generally resisted the challenge to the right to be free from arbitrary detention largely because of its relative insulation from counter terrorist panic She argues that this resilience gradually emboldened superior courts in the US and UK to resist repressive detention laws and policies and insist upon greater rights protection for suspected terrorists **Environmental Protection, Security and Armed Conflict**

Onita Das,2013-01-01 Environmental Protection Security and Armed Conflict is a timely reminder of the need to integrate sustainable development into key areas of international law including all phases of armed conflict Onita Das cleverly picks her way through the applicable law and derives solid suggestions for the future Karen Hulme University of Essex UK This book explores environmental protection relevant to security and armed conflict from a sustainable development perspective The author details how at each stage of the armed conflict life cycle policy law and enforcement have fallen short of the sustainable development model and concludes with a set of suggestions for how to address this pressing concern The book considers and discusses Environmental protection relevant to security and armed conflict from a holistically sustainable development perspective Environmental protection relevant to security and armed conflict in the life cycle of armed conflict pre conflict in conflict and post conflict Uses substantive sustainable development principles duty of states to ensure sustainable use of natural resources equity and the eradication of poverty common but differentiated responsibilities precautionary principle public participation good governance integration and interrelationship and polluter pays principle as tools or objectives to achieve sustainable development in the context of environmental protection relevant to security and armed conflict The concept of sustainable development is utilized to fill the gaps left by policy and law in the field of environmental protection relevant to security and armed conflict The book also examines 5 case studies relating to Somalia Darfur Sudan Sierra Leone the First Gulf war and the Kosovo conflict This fascinating and detailed study will strongly appeal to academics and postgraduate students in the fields of both environmental protection and international law researchers policy makers NGOs and individuals working in the field **Case Studies and Theory**

Development in the Social Sciences Alexander L. George,Andrew Bennett,2005-04-15 The use of case studies to build and test theories in political science and the other social sciences has increased in recent years Many scholars have argued that the social sciences rely too heavily on quantitative research and formal models and have attempted to develop and refine rigorous methods for using case studies This text presents a comprehensive analysis of research methods using case studies

and examines the place of case studies in social science methodology It argues that case studies statistical methods and formal models are complementary rather than competitive The book explains how to design case study research that will produce results useful to policymakers and emphasizes the importance of developing policy relevant theories It offers three major contributions to case study methodology an emphasis on the importance of within case analysis a detailed discussion of process tracing and development of the concept of typological theories Case Studies and Theory Development in the Social Sciences will be particularly useful to graduate students and scholars in social science methodology and the philosophy of science as well as to those designing new research projects and will contribute greatly to the broader debate about scientific methods

The United Nations Security Council and War, 2010-04-15 This is the first major exploration of the United Nations Security Council's part in addressing the problem of war both civil and international since 1945 Both during and after the Cold War the Council has acted in a limited and selective manner and its work has sometimes resulted in failure It has not been and was never equipped to be the centre of a comprehensive system of collective security However it remains the body charged with primary responsibility for international peace and security It offers unique opportunities for international consultation and military collaboration and for developing legal and normative frameworks It has played a part in the reduction in the incidence of international war in the period since 1945 This study examines the extent to which the work of the UN Security Council as it has evolved has or has not replaced older systems of power politics and practices regarding the use of force Its starting point is the failure to implement the UN Charter scheme of having combat forces under direct UN command Instead the Council has advanced the use of international peacekeeping forces it has authorized coalitions of states to take military action and it has developed some unanticipated roles such as the establishment of post conflict transitional administrations international criminal tribunals and anti terrorism committees The book bringing together distinguished scholars and practitioners draws on the methods of the lawyer the historian the student of international relations and the practitioner It begins with an introductory overview of the Council's evolving roles and responsibilities It then discusses specific thematic issues and through a wide range of case studies examines the scope and limitations of the Council's involvement in war It offers frank accounts of how belligerents viewed the UN and how the Council acted and sometimes failed to act The appendices provide comprehensive information much of it not previously brought together in this form of the extraordinary range of the Council's activities This book is a project of the Oxford Leverhulme Programme on the Changing Character of War

Security and Development Robert Picciotto, Rachel Weaving, 2013-10-28 The new contributions in this book by acknowledged leaders in the field examine the delivery of effective aid under fire and securing the peace in environments where governance is fragile They bridge the cultural divide between the security and development professions at a time of unprecedented global economic integration geopolitical turbulence and novel threats to international peace and security More than a billion people live in countries where

governance is weak poverty is rampant and economies are depressed Failed and frail states provide ideal breeding grounds for civil strife criminality and new wars that target civilians use children as combatants and commit massive human rights violations The new security risks loom within national borders while the capacity of the international community to intervene behind borders remains inadequate Policy making for security still relies heavily on military responses Yet military responses cannot address and may even worsen the social and cultural antecedents of civil strife and social resentment Similarly development aid policy and practice are poorly adapted to the new realities of frail governance and insecure operating environments in aid recipient countries This book was previously published as a special issue of the leading journal Conflict Security and Development

Civil Wars, Insecurity, and Intervention Barbara F. Walter, Jack L. Snyder, 1999 Since the end of the Cold War a series of costly civil wars many of them ethnic conflicts have dominated the international security agenda This volume offers a detailed examination of four recent interventions by the international community

Creating the Third Force Maureen P. Flaherty, Hamdesa Tusso, 2016-11-21 The profession of peacemaking has been practiced by indigenous communities around the world for many centuries however the ethnocentric world view of the West which dominated the world of ideas for the last five centuries dismissed indigenous forms of peacemaking as irrelevant and backward tribal rituals Neither did indigenous forms of peacemaking fit the conception of modernization and development of the new ruling elites who inherited the postcolonial state The new profession of Alternative Dispute Resolution ADR which emerged in the West as a new profession during the 1970s neglected the tradition and practice of indigenous forms of peacemaking The scant literature which has appeared on this critical subject tends to focus on the ritual aspect of the indigenous practices of peacemaking The goal of this book is to fill this lacuna in scholarship More specifically this work focuses on the process of peacemaking exploring the major steps of process of peacemaking which the peacemakers follow in dislodging antagonists from the stage of hostile confrontation to peaceful resolution of disputes and eventual reconciliation The book commences with a critique of ADR for neglecting indigenous processes of peacemaking and then utilizes case studies from different communities around the world to focus on the following major themes the basic structure of peacemaking process change and continuity in the traditions of peacemaking the role of indigenous women in peacemaking the nature of the tools peacemakers deploy common features found in indigenous processes of peacemaking and the overarching goals of peacemaking activities in indigenous communities

The Prevention and Intervention of Genocide Samuel Totten, 2008-03-31 This volume is comprised of over 2 300 annotations on a wide array of issues and topics germane to the subject of preventing the atrocities of genocide and managing these conflicts when they do arise Samuel Totten brings together in one comprehensive collection the research and findings in various fields such as political science sociology history and psychology to enable specialists in genocide studies peace studies and conflict resolution to benefit from the insights of a diverse range of scholars and foster an understanding of how the various components of genocide studies

connect Among the topics included are key conventions international treaties and covenants genocide early warning signals and forecasting risk data bases sanctions peacekeeping missions conflict resolution the International Criminal Court realpolitik vis vis the issue of genocide prevention and intervention key non governmental agencies key governmental and UN bodies working on these important issues In addition to the annotations Totten frames the bibliography with a major essay that introduces the reader to the subject of prevention and intervention of genocide raising a host of critical issues regarding the strengths weaknesses and limitations of various approaches germane to issues of managing these conflicts
