Isotopography Niels Wilde, 2024-08-19 While the concept of place remains undertheorized in Kierkegaard research this study argues that place is at the center of Kierkegaard's thinking The first part of the book shows that Kierkegaard's notion of situatedness as being placed in a socio historical situation conditioned by a situation prior to situatedness points to a realist position and a flat ontology Secondly the book develops a detailed analysis of the ontological structure of the existential place the place we ourselves are and concrete places the places where we are Place opens a qualified space within bounds the existence sphere an atmosphere of elemental attunement and attuned elementality Finally the book collects the dots from part one and two in a topological realist approach to Kierkegaard's theology and three main definitions of God God is love God is that everything is possible and God is the middle term The book concludes that Kierkegaard's existential topography reveals a realist position where we are is never exhausted by being the place where we are Passion and Defiance Mira Liehm, 1986-03-17 Since World War II aesthetic impulses generated in Italy have swept through every film industry in the world and in her book Mira Liehm analyses the roots in literature philosophy and contemporary Italian life which have contributed to this extraordinary vigor An introductory chapter offers a unique overview of the Italian cinema before 1942 It is followed by a full and profound discussion of neorealism in its heyday its difficult aftermath in the fifties the glorious sixties and finally by an analysis of the contemporary cinematic crisis Mira Liehm has known personally many of the leading figures in Italian cinema and her work is rich in insights into their lives and working methods This impressive scholarly work immediately outclasses all other available Italian film histories It will be essential reading for anyone seriously interested in the cinema Magic Ernesto de Martino, 2015-06-15 Though his work was little known outside Italian intellectual circles for most of the twentieth century anthropologist and historian of religions Ernesto de Martino is now recognized as one of the most original thinkers in the field This book is testament to de Martino's innovation and engagement with Hegelian historicism and phenomenology a work of ethnographic theory way ahead of its time This new translation of *Sud e Magia* his 1959 study of ceremonial magic and witchcraft in southern Italy shows how De Martino is not interested in the question of whether magic is rational or irrational but rather in why it came to be perceived as a problem of knowledge in the first place Setting his exploration within his wider pathbreaking theorization of ritual as well as in the context of his politically sensitive analysis of the global south's historical encounters with Western science he presents the development of magic and ritual in Enlightenment Naples as a paradigmatic example of the complex dynamics between dominant and subaltern cultures Far ahead of its time Magic is still relevant as anthropologists continue to wrestle with modernity's relationship with magical thinking **Pindar** Gilbert Norwood, 2023-07-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1945 *The*

Enchantments of Technology Lee Bailey, 2010-10-01 In *The Enchantments of Technology* Lee Worth Bailey erases the conventional distinction between myth and machine in order to explore the passionate foundations concealed in technological culture and address its complex ethical moral and social implications Bailey argues that technological society does not simply disenchant the world with its reductive methods and mechanical metaphors then shape machines with political motives but is also borne by a deeper subversive undertow of enchantment Addressing examples to explore the complexities of these enchantments his thought is full of illuminating examinations of seductively engaging technologies ranging from the old camera obscura to new automobiles robots airplanes and spaceships This volume builds on the work of numerous scholars including Jacques Ellul and Jean Brun on the phenomenological and spiritual aspects of technology Carl Jung on the archetypal collective unconscious approach to myth and Martin Heidegger on Being itself Bailey creates a dynamic interdisciplinary postmodern examination of how our machines and their environments embody not only reason but also desires

Consent Pamela Susan Haag, 2018-09-05 Whom over the past two centuries has society construed as sexual victims Where and when did the notion of consent so crucial for law and politics today emerge In this brilliantly insightful work Pamela Susan Haag traces the evolution of public wisdom on some of society's most private and controversial matters At once an investigation of social history popular culture legal doctrine and political theory her book shows how in contemporary America the history of sexual rights is inextricably intertwined with that of liberalism Haag examines the nineteenth century obsession with the perils of seduction and twentieth century disputes over white slavery arranged marriages interracial relationships and rape The history of heterosexual modernity and identity must she argues be viewed as a crucial component of a much larger historical narrative that of the ways in which individual freedom and citizenship have been continually redefined in American liberal culture She illuminates the development of liberalism from its classic stage that ended after the post Reconstruction era to a modern version that came to fruition with the judicial acceptance of the right to privacy Finally she shows how debates over the meaning of heterosexual consent and violence contributed to this transformation

Love in the Religions of the World Paul Caringella, Gregory Kaplan, 2011-11-15 The study of comparative religion is no longer a matter merely for those interested in religion it is a matter of concern for everybody For irrespective of whether one believes in God religion is a major characteristic of identity And in the post 9 11 world every educated person is aware of how important it is to understand what others believe This collection of essays by international scholars emerged from an intense and powerful dialogue at the University of Hong Kong about love in the major religions of the world Eschewing the comforting but ultimately erroneous and dangerous idea that all religions believe more or less the same thing each essay examines the role and nature of love in a major religion of the world It is an invaluable guide for students teachers and the general reader wanting to cut through the morass of doctrinal differences and emphases in the world s religions It also makes an important contribution to the urgent issue of dialogue amongst faiths and cultures

Restoring Soul, Passion, and Purpose in Teacher Education Peter Grimmer, 2021-12-30 This text both challenges and traces the development of a culture of regulation standardization performativity and governmentality evident in Anglophone teaching practice and education Framed by a brief history of teacher education research and policy in North America over the last six decades the text argues that the instrumentalization of curriculum and pedagogy has robbed teachers of their pedagogical soul passion and purpose Using a conceptual model Grimmer forges a pathway for teachers to adopt a soulful way forward in professional practice individually and collectively enhancing autonomy over programs and protecting the public trust placed in them as educators This text will benefit researchers academics and educators with an interest in teachers and teacher education educational policy and politics and curriculum thinking and enactment more broadly Those specifically interested in pedagogy educational change and reform and the philosophy of education will also benefit from this
