Promoters Patriots And Partisans The Writing Of English Canadian History In The Nineteenth Century:

Promoters, Patriots, and Partisans Martin Brook Taylor, 1989-01-01 During the nineteenth century the writing of history in English speaking Canada changed from promotional efforts by amateurs to an academically based discipline Professor Taylor charts this transition in a comprehensive history The early historians the promoters of the title sought to further their own interests through exaggerated accounts of a particular colony to which they had developed a transient attachment Eventually this group was replaced by patriots whose writing was influenced by loyalty to the land of their birth and residence This second generation of historians attempted both to defend their respective colonies by explaining away past disappointments and to fit events into a predictive pattern of progress and development In the process they established distinctive identities for each of the British North American colonies Eventually a confrontation occurred between those who saw Canada as a nation and those whose traditions and vistas were provincial in emphasis Ultimately the former prevailed only to find the present and future too complex and too ominous to understand Historians subsequently lost their sense of purpose and direction and fell into partisan disagreement or pessimistic nostalgia This abandonment of their role paved the way for the new professional breed of historian as the twentieth century opened In the course of his analysis Taylor considers a number of key issues about the writing of history the kind of people who undertake it and their motivation for doing so the intended and actual effects of their work its influence on subsequent historical writing and the development of uniform and accepted standards of professional practice

Canadian History: Confederation to the present Martin Brook Taylor, Doug Owram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover

Clio's Warriors Tim Cook, 2011-11-01 Clio's Warriors examines how the Canadian world war experience has been constructed and reconstructed over time Tim Cook elucidates the role of historians in codifying the sacrifice and struggle of a generation as he discusses historical memory and writing the creation of archives and the war of reputations that followed each of the world wars on the battlefield Only recently have academic military historians pushed the discipline to explore the impact of war on society Even so the publications of official historians remain the central narrative of the national experience In analyzing where the profession has come from and where it needs to go Clio's Warriors plays a vital role in the ongoing challenge of writing critical history It will be an essential addition to the library of all Canadian military historians and students of military history and historiography

New England and the Maritime Provinces Stephen J. Hornsby, John G. Reid, 2005-09-19 A significant addition to the growing field of transnational studies New England

and the Maritime Provinces reveals a relationship that although sometimes troubled retains its importance in the current era of globalization *Writing British Columbia History, 1784-1958* Chad Reimer, 2010-07-01 Captain James Cook first made contact with the area now known as British Columbia in 1778 The colonists who followed soon realized they needed a written history both to justify their dispossession of Aboriginal peoples and to formulate an identity for a new settler society Writing British Columbia History shows how Euro Canadian historians took up this task and struggled with the newness of colonial society and overlapping alliances to the British Empire the United States and Canada In explorers accounts promotional literature pioneer histories and academic studies they eased these tensions by defining British Columbia as part of a global British Empire incorporating it into an expanding Anglo Saxon civilization and writing it into the empire of history itself This sweeping study of the role of history writing in colonialism and nation building will appeal to anyone interested in British Columbia history the history of the Pacific Northwest or history writing in Canada **The Oxford History of the British Empire: Historiography** Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries *From Nursery Rhymes to Nationhood* Elizabeth Galway, 2010-12-22 As Canada came to terms with its role as an independent nation following Confederation in 1867 there was a call for a literary voice to express the needs and desires of a new country Children s literature was one of the means through which this new voice found expression Seen as a tool for both entertaining and educating children this material is often overtly propagandistic and nationalistic and addresses some of the key political economic and social concerns of Canada as it struggled to maintain national unity during this time From Nursery Rhymes to Nationhood studies a large variety of children s literature written in English between 1867 and 1911 revealing a distinct interest in questions of national unity and identity among children s writers of the day and exploring the influence of American and British authors on the shaping of Canadian identity The visions of Canada expressed in this material are often in competition with one another but together they illuminate the country s attempts to define itself and its relation to the world outside its borders *The Oxford History of Historical Writing* Stuart Macintyre, Juan Maiguashca, Attila Pók, 2011-10-27 Volume 4 of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally from 1800 to 1945 Divided into four parts it first covers the rise consolidation and crisis of European historical thought and the professionalization and institutionalization of history The chapters in Part II analyze how historical scholarship connected to various European national traditions Part III considers the historical writing of Europe s Offspring the United States Canada South Africa Australia New Zealand Mexico Brazil and Spanish South America The concluding part is devoted to histories of non European cultural traditions China Japan India South East Asia Turkey the Arab world and Sub Saharan Africa This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world This volume aims at once to provide an authoritative survey of the field and especially to provoke cross

cultural comparisons **Making Public Pasts** Alan Gordon, 2001 It conscripts historical events in a bid to guide shared memories into a coherent narrative that helps individuals negotiate their place in broader collective identities The contest over public memories involves an exclusiveness that packages other according to the ideological preferences of the dominant cultures Gordon shows that in Montreal ethnic class and gender voices strove to stake their own claims to legitimacy BOOK JACKET **National Dreams** Daniel Francis, 2002-07-01 As Canadians we remember the stories told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike National Dreams is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves National Dreams is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis examines various aspects of this national mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNWMP Also revealed in National Dreams are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop Boundless Dominion Denis McKim, 2017-11-30 In the twenty first century the word Presbyterian is virtually synonymous with austere and parochial These associations are by no means historically unfounded as early Canadian Presbyterians insisted on Sabbath observance and had a penchant for inter and intra denominational disagreement However many other ideas circulated within this religious community's collective psyche Boundless Dominion delves into the elaborate worldview that galvanized nineteenth century Canadian Presbyterianism Denis McKim uncovers a vibrant print culture and Presbyterian support for such initiatives as Indigenous evangelism temperance advocacy and anti slavery activism and finds that many of the denomination's characteristics contrast sharply with its dour and quarrelsome reputation Tracing the themes of providence politics nature and history in Presbyterian communities across five provinces from Prince Edward Island Nova Scotia and New Brunswick to Lower and Upper Canada this book reveals that at the heart of this denomination lay a desire to facilitate God's dominion and to promote Protestant piety across northern North America and beyond Through an innovative approach to the study of religious ideas Boundless Dominion highlights the permeability of borders and the myriad

ways in which nineteenth century Canada including its Presbyterian community shaped and was shaped by interactions with the wider world *Encyclopedia of Historians and Historical Writing* Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **Ontario History**, 1991 Vols 29 include the society's Report 1931-32 except 1938-39 1939-40 which were issued separately The Romance of Science: Essays in Honour of Trevor H. Levere Jed Buchwald, Larry Stewart, 2017-07-04 The Romance of Science pays tribute to the wide ranging and highly influential work of Trevor Levere historian of science and author of *Poetry Realised in Nature Transforming Matter Science and the Canadian Arctic Affinity and Matter* and other significant inquiries in the history of modern science Expanding on Levere's many themes and interests The Romance of Science assembles historians of science all influenced by Levere's work to explore such matters as the place and space of instruments in science the role and meaning of science museums poetry in nature chemical warfare and warfare in nature science in Canada and the Arctic Romanticism aesthetics and morals in natural philosophy and the dismal science of economics The Romance of Science explores the interactions between science's romantic material institutional and economic engagements with Nature *History of the Canadian Peoples* Margaret Conrad, Alvin Finkel, 2002 **Essays in the History of Canadian Law, Volume X** J. Phillips, R. Roy McMurtry, John T. Saywell, 2008-09-18 Covering a broad range of topics this volume examines developments over the last two hundred years in the legal profession and the judiciary nineteenth century prison history as well as the impact of the 1815 Treaty of Paris From the Ruins of Colonialism Chris Healy, 1997-03-27 This book throws fresh light on the history of memory forgetting and colonialism It considers key moments of historical imagination and analyses the strange ensemble of elements that constitute Australian History It is an innovative and stimulating investigation of historical cultures and narratives *The Oxford History of the British Empire: Volume V: Historiography* Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire

as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future
