Queer Brown Voices Uriel Quesada,Letitia Gomez,Salvador Vidal-Ortiz,2015-09-01 In the last three decades of the twentieth century LGBT Latinas os faced several forms of discrimination The greater Latino community did not often accept sexual minorities and the mainstream LGBT movement expected everyone regardless of their ethnic and racial background to adhere to a specific set of priorities so as to accommodate a unified agenda To disrupt the cycle of sexism racism and homophobia that they experienced LGBT Latinas os organized themselves on local state and national levels forming communities in which they could fight for equal rights while simultaneously staying true to both their ethnic and sexual identities Yet histories of LGBT activism in the 1970s 1980s and

1990s often reduce the role that Latinas/os played resulting in misinformation or ignore their work entirely erasing them from history *Queer Brown Voices* is the first book published to counter this trend documenting the efforts of some of these LGBT Latino activists Comprising essays and oral history interviews that present the experiences of fourteen activists across the United States and in Puerto Rico the book offers a new perspective on the history of LGBT mobilization and activism The activists discuss subjects that shed light not only on the organizations they helped to create and operate but also on their broad ranging experiences of being racialized and discriminated against fighting for access to health care during the HIV/AIDS epidemic and struggling for awareness **Electrical Installation Record**, 1928 Old and New Media after Katrina Diane Negra, 2016-02-10 Ten years after Hurricane Katrina this thoughtful collection of essays reflects on the relationship between the disaster and a range of media forms The assessments here reveal how mainstream and independent media have responded sometimes innovatively sometimes conservatively to the political and social ruptures Katrina has come to represent The contributors explore how Hurricane Katrina is positioned at the intersection of numerous early twenty first century crisis narratives centralizing uncertainties about race class region government and public safety Looking closely at the organization of public memory of Katrina this collection provides a timely and intellectually fruitful assessment of the complex ways in which media forms and national events are hopelessly entangled **HIV Impact**, 2002
