Radionics - Medicine of the Future Langstone Day, George La De Warr, 2021-11-08 Radionics is an extraordinary technique of energy balancing that was born at the beginning of 900 and now has operators all over the world The great English pioneer George de la Warr defined it The science that studies the action of mind on matter and the union of all things One of its peculiarities is in fact the possibility to operate at a distance By means of the radiesthetic faculty and with specific instruments the radionic operator can analyze and intervene on any system living or not living that is near him as well as on the other side of the world Although this may seem absurd the new discoveries of Physics confirm that at certain levels there is no separation and we are one as claimed by the ancient Knowledge Radionics demonstrates this daily to thousands of people around the world who use it to send or receive treatment To carry out its action Radionics uses pendulums graphs symbols shapes instruments of many types Although it uses in some cases electronic instruments it has nothing to do with this science in fact it operates exclusively at those pre physical levels which subtend matter The fields of action of Radionics are many In reality there is no sector on which it is not possible to intervene positively with this very special technique precious for the health and the future of man and of the whole planet This text offers the reader the basis for making the most of this wonderful and fascinating branch of human knowledge **Healing with the Chakra Energy System** John R. Girl on the Dancing Horse Charlotte Dujardin, 2018-03-08 THE TOP 10 BESTSELLER FROM THE MOST DECORATED BRITISH FEMALE OLYMPIAN IN HISTORY Refreshingly honest a highly enjoyable fascinating read Horse and Hound

To ride into that arena next to a sea of British flags and hear the roar of clapping and cheering was so exciting It's a sound I will never ever forget Charlotte Dujardin and her charismatic horse Valegro burst onto the international sports scene with their record breaking performance at the London 2012 Olympics The world was captivated by the young woman with the dazzling smile and her dancing horse But no one quite knew what it took to get there nor how hard the path to success would be until now Dujardin began riding horses at the age of two but

dressage was firmly the domain of the wealthy not the life of a girl from a middle class family Her parents sacrificed all and with a undeterred focus Charlotte left school at 16 to follow her dream When she was invited to be a groom for the British Olympian Carl Hester she began to ride Valegro a dark bay gelding and an unbreakable bond was formed This is their incredible story

Radionics & The Subtle Anatomy Of Man David V Tansley, 2011-05-31 Radionics is defined as a method of diagnosis and therapy which is primarily concerned with the utilization of subtle force fields and energies for the purpose of investigating and combating the causes of disease which ravage humanity and the other kingdoms of nature But in examining the history and development of radionics from the pioneering work of Dr Albert Abrams and Ruth Drown to the latest experimental work at the de la Warr Laboratories David Tansley discovered a curious paradox In literature on the subject and in the rare books which provide the very core of radionic therapeutic measures there are plenty of references to man's physical organic systems but little regarding the probability of underlying force fields which might govern and determine the health of the physical form This book represents an informed endeavour to redress the balance by providing a simple yet practical outline of the subtle anatomy of man The theory is not new Abrams diagnosed at a distance and Drown treated absent patients David Tansley believes that the time is ripe for radionics to bear witness to an energy field of a more subtle nature that is in fact its innate purpose
