Goose Green Nigel Ely,2022-02-17 As featured in the landmark BBC2 documentary Our Falklands War A Frontline Story Published to mark the fortieth anniversary of the Falklands war There was a time when we did

extraordinary things On 28 May 1982 450 men of the 2nd Battalion the Parachute Regiment 2 Para went into action to retake the settlement of Goose Green on East Falkland where more than 1 000 Argentine soldiers were holding 119 Falkland Islanders men women children and one baby in squalid conditions Forty years on Goose Green is still the biggest and bloodiest battle the British Army has fought in modern times This book is the living narrative of the battle told by the very men who fought it not just the soldiers of 2 Para but also the SAS the Royal Navy and Merchant Navy and others in more than a hundred exclusive and untold personal accounts Some are extremely funny some touching and some heart breaking All were recorded face to face the speakers own words adding a gritty authenticity to each account and conveying the confusion and terror of battle as well as the courage and selflessness of men in action Goose Green is a book that goes beyond the official histories and the many memoirs to bring to life the first and as it turned out the decisive battle of this country s outstanding campaign to retake the Falkland Islands from a foreign invader This is a true story of a great victory against all the odds told by the men who fought it

The Royal Air Force at Home Ian Watson, 2010-06-19 Military public relations endeavors ultimately seek to build a sense of common interests and aims and so generally foster good relations with the people they defend and there in ensure a stable society The armed forces when engaging on any public relations exercise have traditionally sought to provide an entertaining spectacle For years this has been typified by parades bands mock battles drill displays and other relevant feats of military prowess which have captured the imagination of the public and inspired potential recruits The 20th Century brought a new dimension to the field of warfare and subsequently added a new strand to the fabric of public ceremony and displays by the armed forces That new dimension was the arrival of powered flight Display flying began within five years of the Wright Brothers making their milestone first flight The first events staged in Britain which centered on demonstrations by flying machines were organized by the town councils of Blackpool and Doncaster and were held within days of each other in October 1909 1920 was the year that the first of the famed and legendary Hendon Air Pageants was staged and this is where military air shows traditionally began The Hendon Displays were organized and staged by the still fledgling Royal Air Force and it was probably due in no small part to the prestige and spectacle of this fresh new dimension of military pageantry together with other like events held at RAF airfields through the next two decades that the very existence of the RAF was saved from the threat of abolition The history of the RAF s commitment one that compares almost uniquely with other air forces toward display flying through the years after World War II has now come of age This account of their record in this often overlooked but then again traditional field of military customs describes and illustrates the major public RAF events since 1920

[Managing the Defence Estate](#) Great Britain: National Audit Office, 2005-05-25 This report looks at the management by the Defence Estates Agency of the land and property owned by the Ministry of Defence The estate is worth some 15 3 billion and costs 1 3 billion to run with the MoD as one of the largest landowners in the UK with land covering some 240 000 hectares The Estate itself consists of such facilities as barracks depots aircraft

hangers and naval bases as well as training grounds and ranges Also the MoD has direct managerial responsibility for 200 sites of special scientific interest along with responsibility for over 1600 listed buildings and monuments The NAO recognizes the operational challenges of managing such a large utility but commends the MoD for developing a strategy that saw contractual arrangements deliver higher quality and estate rationalization along with improved customer satisfaction There had been a deterioration in the estate due to shortfalls in spending and the use of traditional methods in the procuring and managing of estate services The selling off of surplus land has earned the MoD 1.2 billion and five new regional contracts have been signed to improve the estate Insufficient funding due to conflicting defence priorities may hamper long term efficiencies and that there is more to be done to consolidate recent cultural changes in the organization of contracts for running the estate especially the move towards large centrally managed contracts
