Railroads Across America A Celebration Of 150 Years Of Railroading:

Railroads Across America Mike Del Vecchio, Michael J. Del Vecchio, 1998 Railroads across America The Railroad Comes to America (1820-1830) Karen Gibson, 2012-09-30 When the railroad first came to America mine owners used it to haul coal and rocks to towns and to canals and rivers for transportation Train cars were moved by horses gravity and even the wind Then the steam locomotive came to town announcing its presences with a loud chuffing and smoke winding from the chimney Life in the newly independent country of America was changed forever Inventors and businessmen saw infinite possibilities America adopted the train and rails from Great Britain and made them an American way of life New railroads and new trains competed with each other to be the best Soon they would cross the vast nation and it all started when the railroad came to America *Railroads Across America* Michael J. Del Vecchio, 1999 **Key, Lock & Lantern News Issue 18**, *Modern Trains and Splendid Stations* Martha Thorne, Art Institute of Chicago, 2001 Inter city rail travel is one of the dominant facts of modern life From the early nineteenth century when the first train stations cathedrals of technology buildings without precedent in the history of architecture were constructed these focal points of transportation have enjoyed a unique status in public life They have come a long way from the simple wooden shed erected in Liverpool England in 1830 In the wake of the rail renaissance of the 1980s and 1990s new train stations from the U S to Japan must respond to increasingly complex challenges as high speed trains become more and more common and the next generation of magnetically levitated trains approaches The state of the art examples featured in *Modern Trains and Splendid Stations* are analyzed from several perspectives as generators of urban renewal as new architectural icons and as connecting points from different means of transportation Such internationally renowned architects as Helmut Jahn in the United States Nicholas Grimshaw in England and Arata Isozaki in Japan have all been involved in station design BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved American Book Publishing Record, 1999 Seventy-five Years of Railroad History, 1997 **Cumulated Index to the Books**, 1999 The Carriage Journal: Vol. 57.
