**Railway Tickets, Timetables & Handbills** Maurice I. Bray, 1986      Bradley's Railway Guide Simon

Bradley, 2024-10-10 A lifetime of railway love distilled into a most beautiful volume Lucy Worsley Our railway history could not have been told more palatably or more nourishingly David Kynaston The most attractive comprehensive and easily digestible history of the oldest railway system in the world Michael Palin In 1825 the Stockton Darlington company strode into history with the opening of the world's first public steam railway What the SDR had pioneered soon picked up speed transforming lives and landscapes connecting far flung corners of the nation and creating its own distinctive environments and working worlds This ambitious and lavishly illustrated volume brings the story of Britain's railways to life spanning two centuries of achievement and change Full of colour and incident it is an exhilarating journey through time and space revisiting favourite themes and introducing unfamiliar stories and places With original and engaging entries on everything from dining saloons to collecting dogs wartime salvage efforts and the iconic Rail Alphabet Simon Bradley gives George Bradshaw's famous 19th century guide a run for its money in this fresh and distinctive chronicle of the making of Britain's railways

**Encyclopedia of Ephemera** Maurice Rickards, 2018-10-24 The joy of finding an old box in the attic filled with postcards invitations theater programs laundry lists and pay stubs is discovering the stories hidden within them The paper trails of our lives or ephemera may hold sentimental value reminding us of great grandparents They chronicle social history They can be valuable as collectibles or antiques But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day to day life The Encyclopedia of Ephemera is the first work of its kind providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts from bookmarks to birth certificates to lighthouse dues papers Continuing a tradition that started in the Victorian era when disposable paper items such as trade cards die cuts and greeting cards were accumulated to paste into scrap books expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace His artifacts come from around the world and include such throw away items as cigarette packs and crate labels as well as the ubiquitous faxes parking tickets and phone cards of daily life As this major new reference shows simple slips of paper can speak volumes about status taste customs and taboos revealing the very roots of popular culture      *The Railways* Simon Bradley, 2015-09-24 Sunday

Times History Book of the Year 2015 Britain's railways have been a vital part of national life for nearly 200 years Transforming lives and landscapes they have left their mark on everything from timekeeping to tourism As a self contained world governed by distinctive rules and traditions the network also exerts a fascination all its own From the classical grandeur of Newcastle station to the ceaseless traffic of Clapham Junction from the mysteries of Brunel's atmospheric railway to the lost routines of the great marshalling yards Simon Bradley explores the world of Britain's railways the evolution of the trains and the changing experiences of passengers and workers The Victorians private compartments railway

rugs and footwarmers have made way for air conditioned carriages with airline type seating but the railways remain a giant and diverse anthology of structures from every period and parts of the system are the oldest in the world Using fresh research keen observation and a wealth of cultural references Bradley weaves from this network a remarkable story of technological achievement of architecture and engineering of shifting social classes and gender relations of safety and crime of tourism and the changing world of work The Railways shows us that to travel through Britain by train is to journey through time as well as space     **The Railway Magazine** ,1911     *British Railway Tickets* Jan Dobrzynski,2013-01-20 In 1838 Thomas Edmondson an employee of the fledgling Newcastle Carlisle Railway revolutionised the ticket issuing process in Britain and left an enduring legacy the Edmondson ticket Purchased as proof of the contract between passenger and railway company the ticket was a receipt travel pass and an ephemeral record of almost every train journey ever taken in the British Isles reflecting the nostalgia of the railways and a period of history when the movement of millions of people brought together England Ireland Scotland and Wales The railways printed millions of tickets for every conceivable journey and category of passenger Most were destroyed after use but remarkably many survive in the care of libraries museums and collectors and form the basis of a fascinating hobby     *Railway Printed Ephemera* William Fenton,1992     *City of Lake and Prairie* Kathleen A. Brosnan,Ann Durkin Keating,William C. Barnett,2020-09-08 Known as the Windy City and the Hog Butcher to the World Chicago has earned a more apt sobriquet City of Lake and Prairie with this compelling innovative and deeply researched environmental history Sitting at the southwestern tip of Lake Michigan one of the largest freshwater bodies in the world and on the eastern edge of the tallgrass prairies that fill much of the North American interior early residents in the land that Chicago now occupies enjoyed natural advantages economic opportunities and global connections over centuries from the Native Americans who first inhabited the region to the urban dwellers who built a metropolis in the nineteenth and twentieth centuries As one millennium ended and a new one began these same features sparked a distinctive Midwestern environmentalism aimed at preserving local ecosystems Drawing on its contributors interdisciplinary talents this volume reveals a rich but often troubled landscape shaped by communities of color workers and activists as well as complex human relations with industry waterways animals and disease     **Food on the Rails** Jeri Quinzio,2014-10-10 In roughly one hundred years from the 1870s to the 1970s dining on trains began soared to great heights and then fell to earth The founders of the first railroad companies cared more about hauling freight than feeding passengers The only food available on trains in the mid nineteenth century was whatever passengers brought aboard in their lunch baskets or managed to pick up at a brief station stop It was hardly fine dining Seeing the business possibilities in offering long distance passengers comforts such as beds toilets and meals George Pullman and other pioneering railroaders like Georges Nagelmackers of Orient Express fame transformed rail travel Fine dining and wines became the norm for elite railroad travelers by the turn of the twentieth century The foods served on railroads from consomm to turbot to souffl always accompanied by champagne equaled that of

the finest restaurants hotels and steamships After World War II as airline travel and automobiles became the preferred modes of travel elegance gave way to economy Canned and frozen foods self service and quick meals and snacks became the norm By the 1970s the golden era of railroad dining had come grinding to a halt Food on the Rails traces the rise and fall of food on the rails from its rocky start to its glory days to its sad demise Looking at the foods the service the rail station restaurants the menus they dining accommodations and more Jeri Quinzio brings to life the history of cuisine and dining in railroad cars from the early days through today *Information* Micky Lee,2021-07-22 This book provides a comprehensive easy to understand introductory guide to information offering students the critical tools they need to shift their positioning from consumers and users to creators and critics Searching accessing and using information are central to most daily lives Yet many users are not able to define what information is identify who controls information and create information to achieve a common good In this book Micky Lee teaches readers to critically interrogate key issues such as the categorization of information and knowledge throughout history what digital divides are why information is gender and race biased how governments and corporations control citizens and consumers as well as how we can resist unbalanced power relations Readers will not only be able to relate these issues to old technologies such as writing and printing but will also be able to examine futurist technologies through the lenses of these enduring issues A thoughtful and comprehensive overview this is an ideal book for students and scholars of media studies information and society and communication and technology

British railway enthusiasm Ian Carter,2017-10-03 Now available in paperback this is the first academic book to study railway enthusiasts in Britain Far from a trivial topic the post war train spotting craze swept most boys and some girls into a passion for railways and for many ignited a lifetime s interest British railway enthusiasm traces this post war cohort and those which followed as they invigorated different sectors in the world of railway enthusiasm train spotting railway modelling collecting railway relics and then in response to the demise of main line steam traction Britain s now huge preserved railway industry Today this industry finds itself riven by tensions between preserving a loved past which ever fewer people can remember and earning money from tourist visitors The widespread and enduring significance of railway enthusiasm will ensure that this groundbreaking text remains a key work in transport studies and will appeal to enthusiasts as much as to students and scholars of transport and cultural history *Ottley's Bibliography of British Railway History. **Bladder, the Naked Dog, Skeleton Barbie and the Poet** Jeff Spoon, 2013-05-30 A moving love story of a naked abandoned dog and a neglected bourgeois teenie who try to escape their ghastly homes to emigrate to find happiness somewhere else on earth Unfortunately the rusty emigration ship was sunk erroneously by a German submarine which escaped WW II But Arthur the poet saved their lives paddling along on his cello After some discouraging adventures where they stranded they end up involuntarily as guinea pigs in a genetic laboratory At last Skeleton Barbie's beautiful body could almost be restored Arthur the poet jobbing as a nightporter of the Municipal Theatre gives them shelter washes the dishes and cheers them up playing on his rotten cello at the wrong moments But the longing for an ideal world forces forces our three brave companions inevitably back to the road in their eternal search for happiness This is a rather sarcastic black humored story told and illustrated by Jeff Spoon the pseudonym of a rather

wellknown theatre director and stage designer
