Seekins, 2017-03-27 Burma Myanmar is a

Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma's president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country's pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people's security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country's religious minorities especially Muslims Today Burma's prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the Historical Dictionary of Burma Myanmar encompasses not only current

developments but also Burma's over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture *Eyewitness to Early Reform in Myanmar* Trevor Wilson,2016-03-17 By 2000 a ruthless military regime had ruled Myanmar for more than a decade polarising opinion inside and outside Burma Myanmar with Western countries locked into non UN sanctions and Asian countries and the rest of the world locked into unenthusiastic cooperation with Myanmar While the United Nations and its agencies faced numerous obstacles as they sought to encourage national reconciliation in Myanmar conditions in Myanmar were slowly starting to change With a reform faction in charge the military regime itself after 1999 slowly began experimenting with modest changes before committing in 2008 to transfer power via a constitutional referendum and national elections both of which it effectively controlled This book provides the first eyewitness account of the early reform experiments **Historical Dictionary of World War II** Anne Sharp

Wells,2023-12-15 World War II was the largest and most costly conflict in history the first true global war Fought on land on sea and in the air it involved numerous countries and killed maimed or displaced millions of people both civilian and military around the world In spite of the alliances that bound many of the same participants the war was essentially two separate but simultaneous conflicts one involved Japan as the major antagonist and took place mostly in Asia and the Pacific and the other initiated by Germany and Italy was contested mainly in Europe North Africa the Mediterranean and the Atlantic This book focuses on the lesser known war the war with Japan It begins with Japan's seizure of Manchuria from China in 1931 and covers Japan's ambitious attacks on Pearl Harbor and other territories ten years later the use of atomic bombs on Japan's cities and the end of the Allied occupation of Japan in 1952 Although Japan renounced war in its 1947 constitution conflict continued across Asia as former colonies fought for independence and civil war engulfed other areas **Historical Dictionary of World War II The War Against Japan** Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on the military diplomatic political social economic and scientific aspects of the war in addition to the lives of the people who participated in and directed the war This book is an excellent resource for students researchers and anyone wanting to know more about the war against Japan during World War II **Hell under the Rising Sun** Kelly E. Crager,2008-01-22 Late in 1940 the young men of the 2nd Battalion 131st Field

Artillery Regiment stepped off the trucks at Camp Bowie in Brownwood Texas ready to complete the training they would need for active duty in World War II Many of them had grown up together in Jacksboro Texas and almost all of them were eager to face any challenge Just over a year later these carefree young Texans would be confronted by horrors they could never have imagined The battalion was en route to bolster the Allied defense of the Philippines when they received news of the Japanese bombing of Pearl Harbor Soon they found themselves ashore on Java with orders to assist the Dutch British and

Australian defense of the island against imminent Japanese invasion When war came to Java in March 1942 the Japanese forces overwhelmed the numerically inferior Allied defenders in little more than a week For more than three years the Texans along with the sailors and marines who survived the sinking of the USS Houston were prisoners of the Imperial Japanese Army Beginning in late 1942 these prisoners of war were shipped to Burma to accelerate completion of the Burma Thailand railway These men labored alongside other Allied prisoners and Asian conscript laborers to build more than 260 miles of railroad for their Japanese taskmasters They suffered abscessed wounds near starvation daily beatings and debilitating disease and 89 of the original 534 Texans taken prisoner died in the infested malarial jungles The survivors received a hero's welcome from Gov Coke Stevenson who declared October 29 1945 as Lost Battalion Day when they finally returned to Texas Kelly E Crager consulted official documentary sources of the National Archives and the U S Army and mined the personal memoirs and oral history interviews of the Lost Battalion members He focuses on the treatment the men received in their captivity and surmises that a main factor in the battalion's comparatively high survival rate 84 percent of the 2nd Battalion was the comradeship of the Texans and their commitment to care for each other This narrative is grueling yet ultimately inspiring Hell under the Rising Sun will be a valuable addition to the collections of World War II historians and interested general readers alike

Imperial Military Transportation in British Asia Michael W. Charney, 2019-02-07 Imperial Military Transportation in British Asia sheds light on attempts by royal engineers to introduce innovations devised in the UK to wartime India Iraq and Burma as well as the initial resistance of local groups of colonial railwaymen to such metropolitan innovations Michael W Charney looks at the role of the railways in the First Burma Campaign to show how some kinds of military technology as an example of imperial knowledge faced resistance due to 1930s era colonial insularity The delay this caused significantly compromised the early defense of the colony when the
