Bradley Lane,2022-01-11 Mizora 1890 is a novel by Mary E Bradley Lane Originally serialized between 1880 and 1881 in the Cincinnati Commercial the novel was rediscovered a decade later and printed by prominent editor Murat Halstead While little is known about Lane she seems to have been a dedicated feminist and a gifted writer who nevertheless by the time Halstead reached out to republish her work seemed to want nothing to do with the appearance of Mizora in novel form Regardless Mizora remains a pioneering work of feminist utopian science fiction and an early example of the hollow earth subgenre of science fiction and fantasy Overhead clouds of the most gorgeous hues like precious gems converted into vapor floated in a sky of the serenest azure The languorous atmosphere the beauty of the heavens the inviting shores produced in me a feeling of contentment not easily described To add to my senses another enjoyment my ears were greeted with sounds of sweet music in which I detected the mingling of human voices Princess Vera Zarovitch has lived a tragic life Born into wealth she studied in Paris and gained an understanding of the world beyond Tsarist Russia Imprisoned for criticizing the state after witnessing her friend s murder at the hands of Russian soldiers she escapes with a party of smugglers toward the North Pole Following a devastating

shipwreck their party takes refuge with the local Eskimo who care for the captain until his death from exposure Abandoned by the men tasked with bringing her to safety Vera is lost in a storm When she awakens she finds herself in the underground world of Mizora where an advanced society of women has eliminated war and poverty altogether With a beautifully designed cover and professionally typeset manuscript this edition of Mary E Bradley Lane s Mizora is a classic of feminist utopian science fiction reimagined for modern readers *Restless* Tawdra Kandle,Tamara Kendall,2012-06-12 Every gift has consequences Aside from the fact that I can hear other people s thoughts I used to be a fairly boring girl But then I moved to King Florida and everything in my life went crazy When I agreed to allow Ms Lacusta to help me develop my powers I had no idea how deep and dark the journey would become Trapped between fascination and fear I end up moving farther away from my friends and family even from my boyfriend Michael Leading a double life forces me into decisions that will threaten my sanity and my future and the very lives of those I love Save Tomorrow is a series of paranormal romances that begins in the small town of King Florida winds through the Serendipity and Recipe for Death books and finally culminates in Age of Aquarius the inevitable showdown that ties all the characters together in a fight to stop the ultimate evil **Mizora** Mary E. Bradley,2011-05-01 Being a true and faithful account of her Journey to the Interior of the Earth with a careful description of the Country and its Inhabitants their Customs Manners and Government Excerpt Having little knowledge of rhetorical art and possessing but a limited imagination it is only a strong sense of the duty I owe to Science and the progressive minds of the age that induces me to come before the public in the character of an author True I have only a simple narration of facts to deal with and am therefore not expected to present artistic effects and poetical imagery nor any of those flights of imagination that are the trial and test of genius Yet my task is not a light one I may fail to satisfy my own mind that the true merits of the wonderful and mysterious people I discovered have been justly described I may fail to interest the public which is the one difficulty most likely to occur and most to be regretted not for my own sake but theirs It is so hard to get human nature out of the ruts it has moved in for ages To tear away their present faith is like undermining their existence Yet others who come after me will be more aggressive than I I have this consolation whatever reception may be given my narrative by the public I know that it has been written solely for its good That wonderful civilization I met with in Mizora I may not be able to more than faintly shadow forth here yet from it the present age may form some idea of that grand that ideal life that is possible for our remote posterity Again and again has religious enthusiasm pictured a life to be eliminated from the grossness and imperfections of our material existence The Spirit the Mind that mental gift by or through which we think reason and suffer is by one tragic and awful struggle to free itself from temporal blemishes and difficulties and become spiritual and perfect Yet who sweeping the limitless fields of space with a telescope glancing at myriads of worlds that a lifetime could not count or gazing through a microscope at a tiny world in a drop of water has dreamed that patient Science and practice could evolve for the living human race the ideal life of exalted knowledge the life that I found in Mizora that

Science had made real and practicable The duty that I owe to truth compels me to acknowledge that I have not been solicited to write this narrative by my friends nor has it been the pastime of my leisure hours nor written to amuse an invalid nor in fact for any of those reasons which have prompted so many men and women to write a book It is on the contrary the result of hours of laborious work undertaken for the sole purpose of benefiting Science and giving encouragement to those progressive minds who have already added their mite of knowledge to the coming future of the race We owe a duty to posterity says Junius in his famous letter to the king A declaration that ought to be a motto for every schoolroom and graven above every legislative hall in the world It should be taught to the child as soon as reason has begun to dawn and be its guide until age has become its master It is my desire not to make this story a personal matter and for that unavoidable prominence which is given one's own identity in relating personal experiences an indulgence is craved from whomsoever may peruse these pages In order to explain how and why I came to venture upon a journey no other of my sex has ever attempted I am compelled to make a slight mention of my family and nationality I am a Russian born to a family of nobility wealth and political power Had the natural expectations for my birth and condition been fulfilled I should have lived loved married and died a Russian aristocrat and been unknown to the next generation and this narrative would not have been written
