Continental regiments of the Connecticut Line which were not extensively addressed in the previous volumes There are also some rolls of companies in service which had not previously been printed particularly in 1782 and 1783 Comparatively few new names of soldiers or additional records of service are printed in this volume Its chief value will be found to consist in the addition in the case of a great majority of the soldiers of the name of the town from which the soldier came This will supply much sought for information and in many cases will doubtless serve to identify the soldier
