The Religious Experience of the Roman People W. Warde Fowler, 2020-03-24 The Religious Experience of the Roman People William Warde Fowler, 1911

Religious Experience of the Roman People W. Warde Fowler, 2020-07-30 Reproduction of the original Religious Experience of the Roman People by W Warde Fowler **The Religious Experience of the Roman People, from the Earliest Times to the Age of Augustus** William Warde Fowler, 1911 **Henry James and the Language of Experience** Collin Meissner, 1999-06-28 In *Henry James and the Language of Experience* Collin Meissner examines the political dimension to the representation of experience as it unfolds throughout James's work Meissner argues that for James experience was a private and public event a dialectical process that registered and expressed his consciousness of the external world Adapting recent work in hermeneutics and phenomenology Meissner shows how James's understanding of the process of consciousness is not simply an aspect of literary form it is in fact inherently political as it requires an active engagement with the full complexity of social reality For James the civic value of art resided in this interactive process one in which the reader becomes aware of the aesthetic experience as immediate and engaged This wide ranging study combines literary theory and close readings of James's work to argue for a redefinition of the aesthetic as it operates in James's work

Shelley's Italian Experience Alan M. Weinberg, 2016-07-27 Focusing on Shelley's Italian experience the present study both addresses itself to the living context which nurtured Shelley's creativity and explores a neglected but essential component of his work The poet's four years of self exile in Italy 1818-1822 were in fact the most decisive of his career As he responded to Italy his poetry acquired a new subtlety and complexity of vision Endowed with remarkably keen powers of absorption the poet imaginatively reshaped the rich cultural heritage of Italy and the vital qualities of its landscape and climate

Light as Experience and Imagination from Paleolithic to Roman Times David S. Herrstrom, 2017-09-26 This book is an interdisciplinary synthesis and interpretation about the experience of light as revealed in a wide range of art

and literature from Paleolithic to Roman times Humanistic in spirit and in its handling of facts it marshals a substantial body of scholarship to develop an explication of light as a central even dramatic reality of human existence and experience in diverse cultural settings David S Herrstrom underscores our intimacy with light not only its constant presence in our life but its insinuating character Focusing on our encounters with light and ways of making sense of these this book is concerned with the personal and cultural impact of light exploring our resistance to and acceptance of light Its approach is unique The book s true subject is the individual s relationship with light rather than the investigation of light s essential nature It tells the story of light seducing individuals down through the ages Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions to it as reflected in art Paleolithic through Roman architecture Egyptian Grecian Roman mythology and religion Paleolithic Egyptian and literature e g Akhenaten Plato Aeschylus Lucretius John the Evangelist Plotinus and Augustine This book celebrates the complexity of our relation to light s character No individual experience of light is truer than any other none improves on any previous experience of light s tidal pull on us And the wondrous variety of these encounters has yielded a richly layered tapestry of human experience By its broad scope and interdisciplinary approach this pioneering book is without precedent

Religious Experience Craig

Martin, Russell T. McCutcheon, 2014-09-11 Many regard religious experience as the essence of religion arguing that narratives might be created and rituals invented but that these are always secondary to the original experience itself However the concept of experience has come under increasing fire from a range of critics and theorists This Reader presents writings from both those who assume the existence and possible universality of religious experience and those who question the very rhetoric of experience Bringing together both classic and contemporary writings the Reader showcases differing disciplinary approaches to the study of religious experience philosophy literary and cultural theory history psychology anthropology feminist theory as well as writings from within religious studies The essays are structured into pairs with each essay separately introduced with information on its historical and intellectual context The ultimate aim of the Reader is to enable students to explore religious experience as rhetoric created to authorize social identities The book will be an invaluable introduction to the key ideas and approaches for students of Religion as well as Sociology and Anthropology
