The City in the Roman West, c.250 BC-c.AD 250 Ray Laurence, Simon Esmonde Cleary, Gareth Sears, 2011-07-14 The city is widely regarded as the most characteristic expression of the social cultural and economic formations of the Roman Empire This was especially true in the Latin speaking West where urbanism was much less deeply ingrained than in the Greek speaking East but where networks of cities grew up during the centuries following conquest and occupation This well illustrated synthesis provides students and specialists with an overview of the development of the city in Italy Gaul Britain Germany Spain and North Africa whether their interests lie in ancient history Roman archaeology or the wider history of urbanism It accounts not only for the city's geographical and temporal spread and its associated monuments such as amphitheatres and baths but also for its importance to the rulers of the Empire as well as the provincials and locals

The Roman City and its Periphery Penelope Goodman, 2006-11-07 The first and only monograph available on the subject The Roman City and its Periphery offers a full and detailed treatment of the little investigated aspect of Roman urbanism the phenomenon of suburban development Presenting archaeological and literary evidence alongside sixty three plans of cities building plans and photographs Penelope Goodman examines how and why Roman suburbs grew up outside Roman cities what was distinctive about the nature of suburban development and what contributions buildings and activities in the suburbs might make to the character and function of the city as a whole With full bibliography and annotations throughout this will not only provide a coherent treatment of an essential theme for students of Roman urbanism but archaeologists urban planners and geographers also will have an excellent comparative tool in the

study of modern urbanism *Economic evidence and the changing nature of urban space in late antique Rome* Paul S. Johnson,2013-02-11 *Economic Evidence and Changing Nature of Urban Space in Late Antique Rome* by Paul Johnson is an innovative study that focuses upon the relationship between the importation of amphora borne foodstuffs their distribution and discard within the City and what this tells us about changing uses of urban space between the 3rd and 6th centuries AD There have been a number of archaeological studies of late antique Rome in recent years most notably Roma dall antichit all alto Medioevo I and II as well as a long tradition of studies that have focused upon the pattern of imports to the City However the relationship between imported foodstuffs and the City as an urban unit has not been so well served PUGNARE: Economic Success and Failure George Maher,2021-02-02 What is one of the best ways to successfully predict the future Winston Churchill believed that the further back you look the further forward you are likely to see This intriguing book is testimony to this idea It looks back two thousand years to the Roman Empire to help us see into our own future The causes of the triumphs and disasters of our time are much the same as those of the Roman Empire The Romans were people just like us and the wisest of their great men and women were as wise as the best of ours Unfortunately the most foolish of theirs were just as foolish as the worst of ours Pugnare is the first historical account of the Roman Empire written from a practical business perspective It is also about people because business is about people We can learn a lot from their behaviour from their successes and failures **Collegia Centonariorum: The Guilds of Textile Dealers in the Roman West** Jinyu Liu,2009-09-28 The collegia centonariorum were often seen as the municipal fire brigades or status groups of sorts in the Roman cities Through a close investigation of the chronological development and geographical distribution of the collegia centonariorum their legal privileges and the prosopographical data of members and patrons this volume reveals a much more complex picture of their origins characters and compositions in various regions from the first century BC to the fourth century AD Intricately connected with the textile economy the collegia centonariorum illustrate how elements as diverse as material demand from the military and the city of Rome legal infrastructure urban development and organizations of urban based craftsmen and tradesmen may have interfaced with each other in the Roman world *Money, Labour and Land* Paul Cartledge,Edward E. Cohen,Lin Foxhall,2005-06-29 *Money Labour and Land* explores a wide range of case studies in the economic history of the ancient Greek world to reveal an explosion of ideas which open new pathways into the study of the economies of ancient Greece **Remembering and Forgetting the Ancient City** Javier Martínez Jiménez,Sam Ottewill-Soulsby,2022-03-24 The Greco Roman world is identified in the modern mind by its cities This includes both specific places such as Athens and Rome but also an instantly recognizable style of urbanism wrought in marble and lived in by teeming tunic clad crowds Selective and misleading this vision may be but it speaks to the continuing importance these ancient cities have had in the centuries that followed and the extent to which they define the period in subsequent memory Although there is much that is mysterious about them the cities of the Roman Mediterranean are for the most part

historically known That the names and pasts of these cities remain known to us is the product of an extraordinary process of remembering and forgetting stretching back to antiquity that took place throughout the former Roman world This volume tackles this subject of the survival and transformation of the ancient city through memory drawing upon the methodological and theoretical lenses of memory studies and resilience theory to view the way the Greco Roman city lived and vanished for the generations that separate the present from antiquity This book analyzes the different ways in which urban communities of the post Antique world have tried to understand and relate to the ancient city on their own terms examining it as a process of forgetting as well as remembering Many aspects of the ancient city were let go as time passed but those elements that survived that were actively remembered have shaped the many understandings of what it was In order to do so this volume assembles specialists in multiple fields to bring their perspectives to bear on the subject through eleven case studies that range from late Antiquity to the mid twentieth century and from the Iberian Peninsula to Iran Through the examination of archaeological remains changing urban layouts and chronicles travel guides and pamphlets they track how the ancient city was made useful or consigned to oblivion

Pre-Industrial Cities and Technology Colin Chant,David Goodman,2005-11-08 See series selling points *A Companion to Roman Britain* Malcolm Todd,2008-04-15 This major survey of the history and culture of Roman Britain spans the period from the first century BC to the fifth century AD Major survey of the history and culture of Roman Britain Brings together specialists to provide an overview of recent debates about this period Exceptionally broad coverage embracing political economic cultural and religious life Focuses on changes in Roman Britain from the first century BC to the fifth century AD Includes pioneering studies of the human population and animal resources of the island *Jerusalem* Lee I. Levine,2002-12-02 Jerusalem in the Second Temple period experienced dramatic growth as it achieved unprecedented political religious and spiritual prominence Lee Levine traces the development of Jerusalem during this time through its urban demographic topographical and archaeological features its political regimes public institutions and its cultural and religious life **Edicta munerum: Advertising and Promotion of Gladiatorial Games in Ancient Pompeii** Anna Beata Miączewska,2025-03-06 Edicta munerum Advertising and Promotion of Gladiatorial Games in Ancient Pompeii delves into the intriguing realm of behind the scenes preparations for the gladiatorial games in ancient Pompeii shedding light on how advertising played a pivotal role in informing and enticing the public to witness gladiators engage in life and death combat By examining epigraphic evidence the book highlights the spatial and aesthetic significance of inscriptions as ancient means of conveying information about mass events held in the local amphitheatres This study demonstrates that the world of advertising was well established and thriving over two millennia ago **Every City Shall Be Forsaken'** Lester L. Grabbe,Robert D. Haak,2001-10-01 Urbanism in ancient society has now become an important topic for both classical and ancient Near Eastern scholars Equally the question of prophecy as social institution and literary corpus has been increasingly problematized The essays in this volume bring together these crucial aspects of modern biblical

research the scope ranging from methodological issues about sociology and urbanism to Assyrian prophecies and specific biblical texts An introductory chapter surveys recent anthropological study on urbanism summarizes the essays and places the different contributions in context

The Ancient City Arjan Zuiderhoek, 2017 This book provides a survey of modern debates on Greek and Roman cities and a sketch of the cities chief characteristics

Urban Religion Jörg Rüpke, 2020-02-24 So far religion has been seen as cause for dramatic developments in the history of cities it has contributed to the monumentalisation of centres and or has given importance to ex centric places Very recently anthropologists have been discovering religion in the contemporary global city But still awaiting historical investigation is the specific urban character of religious ideas practices and institutions and the role of urban space shaping this very religion in the course of history The time span from the Hellenistic age to Late Antiquity was crucial in the establishment of concepts and institutions of religion and witnessed extended waves of urbanisation Rome being central to this In addressing this problem this book fills a significant gap in the scholarship on urban religion across time Taking seriously the proposition that space is condition medium and outcome of social relations the development of urban religion in lived urban space and urban culture or urbanity offers a lens onto processes of religious change that have been neglected for the history of religion and for the study of urbanism The key thesis is that city space engineered the major changes that revolutionised religions This stimulating book makes use of archaeology and history to address religion as an essential component of urban life in both the past and the present With a strong basis in the ancient Mediterranean as well as an insightful view of modern urban life R pke emphasizes that the practice and performance of religion at the everyday level is as essential in the creation of an urban ethos as the grand temples and institutions promulgated by the elite Monica L Smith author of *Cities The First 6 000 Years* J rg R pke offers a characteristically original and learned series of reflections on some of the many ways in which the history of religions and the history of cities might be entangled Urban Religion offers no single overarching thesis but it is consistently thought provoking and suggests many intriguing lines of investigation for the future Greg Woolf Institute of Classical Studies London

Mediterranean Urbanization 800-600 BC Robin Osborne, Barry Cunliffe, British Academy, 2005-10-27 Urban life as we know it in the Mediterranean began in the early Iron Age settlements of great size and internal diversity appear in the archaeological record This collection of essays offers for the first time a systematic discussion of the beginnings of urbanization across the Mediterranean from Cyprus through Greece and Italy to France and Spain Leading scholars in the field look critically at what is meant by urbanization and analyse the social processes that lead to the development of social complexity and the growth of towns The introduction to the volume focuses on the history of the archaeology of urbanization and argues that proper understanding of the phenomenon demands loose and flexible criteria for what is termed a town The following eight chapters examine the development of individual settlements and patterns of urban settlement in Cyprus Greece Etruria Latium southern Italy Sardinia southern France and Spain These chapters not only provide a general review

of current knowledge of urban settlements of this period but also raise significant issues of urbanization and the economy urbanization and political organization and of the degree of regionalism and diversity to be found within individual towns The three analytical chapters which conclude this collection look more broadly at the town as a cultural phenomenon that has to be related to wider cultural trends as an economic phenomenon that has to be related to changes in the Mediterranean economy and as a dynamic phenomenon not merely a point on the map Wide ranging in its geographical coverage this volume will be essential reading for scholars and students of archaeology settlement studies the archaic period and geographers interested in the history of urban forms **Pompeii** Alex Butterworth, Ray Laurence, 2013-12-17 Please note

that this ebook does not contain the photo insert that appears in the print book The ash of Mt Vesuvius preserves a living record of the complex and exhilarating society it instantly obliterated two thousand years ago In this highly readable lavishly illustrated book Alex Butterworth and Ray Laurence marshal cutting edge archaeological reconstructions and a vibrant historical tradition dating to Pliny and Tacitus they present a richly textured portrait of a society not altogether unlike ours composed of individuals ordinary and extraordinary who pursued commerce politics family and pleasure in the shadow of a killer volcano Deeply resonant in a world still at the mercy of natural disaster Pompeii recreates life as experienced in the city and those frantic awful hours in AD 79 that wiped the bustling city from the face of the earth **The Inner Lives of**

Ancient Houses J. A. Baird, 2014-08-28 Dura Europos on the Syrian Euphrates is one of the best preserved and most extensively excavated sites of the Roman world A Hellenistic foundation later held by the Parthians and then the Romans Dura had a Roman military garrison installed within its city walls before it was taken by the Sasanians in the mid third century The Inner Lives of Ancient Houses is the first study to consider the houses of the site as a whole The houses were excavated by a team from Yale and the French Academy of Inscriptions and Letters in the 1920s and 30s and though a wealth of archaeological and textual material was recovered most of that relating to housing was never published Through a combination of archival information held at the Yale University Art Gallery and new fieldwork with the Mission Franco Syrienne d'Europos Doura this study re-evaluates the houses of the site integrating architecture artefacts and textual evidence and examining ancient daily life and cultural interaction as well as considering houses which were modified for use by the Roman military
