Roman Culture Weapons The Man:

Roman Culture: Weapons and the Man Garry Wills, **Men Astutely Trained** Peter McDonough, 2008-06-30 A perceptive provocative analysis of the transformation that swept through American Catholicism in the decades leading up to Vatican II The Jesuits have been the carriers of a culture borne along by a fruitful often frustrating tension between their dual commitment to ancient virtues to the pursuit of the free play of ideas This book explains developments among the Jesuits and sets them in the larger context of the sea changes that shook the world and the Catholic Church in the world during the mid 20th century **Weapons, Weaponry, and Man** Audronė Bliujienė, 2007 *Inventing America* Garry Wills, 2018-01-02 From acclaimed historian Garry Wills author of *Lincoln at Gettysburg* a celebrated re appraisal of the meaning and the source of inspiration of The Declaration of Independence based on a reading of Jefferson's original draft document *Inventing America* upended decades of thinking about The Declaration of Independence when it was first published in 1978 and remains one of the most influential and important works of scholarship about this founding document Wills challenged the idea that Jefferson took all his ideas from John Locke Instead by focussing on Jefferson's original drafts he showed Jefferson's debt to Scottish Enlightenment philosophers such as Lord Kames and Francis Hutcheson and even the metaphysics of Aristotle Wills's close reading of the previously overlooked drafts of the Declaration have altered and deepened the meaning and consequences of the single most important document that continues to define America **The Cultivation of Character and Culture in Roman Rhetorical Education** Anthony Edward Zupancic, 2023-08-04 At its very center *The Cultivation of Character and Culture in Roman Rhetorical Education The Available Means* is a study of the subtle organic ways that rhetoric can work to cultivate a particular character This is an extension of the current work in composition studies which focus on the ways that writing instruction contributes to the development of individual power and agency in students combined with an ancient understanding of the ways that students learned to act within a particular accepted cultural framework It recognizes and reclaims a lost dimension of rhetoric a dimension that is conceptually linked to the martial culture of the ancient world to show how ancient rhetorical theory framed the discipline as an education in thinking speaking and acting in ways that were necessary to be both a persuasive speaker and an effective leader Through close readings and analysis of particular rhetorical exercises the book shows how rhetorical education shaped characters that were appropriate in the eyes of the dominant culture but were also capable of working independently to progressively alter that culture In showing the ways that rhetorical education shaped a particular character the book demonstrates the ways that the combination character culture and virtue are vital to leadership in any time **Bronze and Iron** Janet Lembke, 2023-11-15 *Bronze and Iron Old Latin Poetry from Its Beginnings to 100 B C* offers an in depth exploration of the fragments and traditions of early Roman poetry tracing its evolution from archaic ritual chants to more developed literary forms This volume situates Old Latin poetry within its historical and cultural context posing profound questions about the

nature of art the role of poetry in society and the symbolic shifts it underwent during Rome's formative years Through engaging with the surviving fragments ranging from the mystical Salian hymns to the sophisticated works of Naevius and Ennius this study illuminates the poetic transition from collective survival and state celebration to the exploration of individual possibilities Divided into three sections *Historia Mythos* and *Plasmata* the book examines the factual preservation of Old Latin texts proposes imaginative insights into their cultural and artistic significance and offers a methodological approach to their translation Through this framework it investigates the maturation of poetic expression the influence of early Roman deities like the *Camenae* and the evolving purposes of poetry in the state and personal realms Whether addressing questions about Ennius as a mathematical poet or the cinematic qualities of archaic epic this work provides fresh perspectives on the foundations of Western poetic tradition making it indispensable for classicists literary historians and anyone intrigued by the early origins of Roman art and thought This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 **Catalog of**

Women and Slaves in Greco-Roman Culture Sandra R. Joshel, Sheila Murnaghan, 2005-08-12 Women and Slaves in Classical Culture examines how ancient societies were organized around slave holding and the subordination of women to reveal how women and slaves interacted with one another in both the cultural representations and the social realities of the Greco Roman world The contributors explore a broad range of evidence including the mythical constructions of epic and drama the love poems of Ovid the Greek medical writers Augustine's autobiography a haunting account of an unnamed Roman slave the archaeological remains of a slave mining camp near Athens They argue that the distinctions between male and female and servile and free were inextricably connected This erudite and well documented book provokes questions about how we can hope to recapture the experience and subjectivity of ancient women and slaves and addresses the ways in which femaleness and servility interacted with other forms of difference such as class gender and status Women and Slaves in Classical Culture offers a stimulating and frequently controversial insight into the complexities of gender and status in the Greco Roman world

Land Expropriation in Ancient Rome and Contemporary Zimbabwe Obert Bernard Mlambo, 2022-06-16 In this highly original book Obert Bernard Mlambo offers a comparative and critical examination of the relationship between military veterans and land expropriation in the client army of the first century BC Roman Republic and veterans of the Zimbabwean liberation war The study centres on the body of the soldier the cultural production of images and representations of gender which advance theoretical discussions around war masculinity and violence Mlambo employs a transcultural comparative approach based on a persistent factor found in both societies land expropriation Often articulated in a framework of patriarchy land appropriation takes place in the context of war shaped masculinities This book fosters a deeper understanding of social processes adding an important new perspective to the study of military violence and paying attention to veterans claims for rewards and compensation These claims are developed in the context of war and its direct consequences namely expropriation confiscation and violence Land Expropriation in Ancient Rome and Contemporary Zimbabwe contributes to current efforts to decolonise knowledge construction by revealing that a non Western perspective can broaden our understanding of veterans war violence land and gender in classical culture

Man and the universe. Japan. Siberia. China Arthur Mee, 1907 **A Cultural History of the Medieval Sword**

Robert W. Jones, 2023 This study takes the sword beyond its functional role as a tool for killing considering it as a cultural artifact and the broader meaning and significance it had to its bearer **Roman Homosexuality** Craig A.

Williams, 1999-06-10 This book provides a thoroughly documented discussion of ancient Roman ideologies of masculinity and sexuality with a focus on ancient representations of sexual experience between males It gathers a wide range of evidence from the second century B C to the second century A D above all from such literary texts as courtroom speeches love poetry philosophy epigram and history but also graffiti and other inscriptions as well as artistic artifacts and uses that evidence to reconstruct the contexts within which Roman texts were created and had their meaning The book takes as its starting point the thesis that in order to understand the Roman material we must make the effort to set aside any preconceptions we might have regarding sexuality masculinity and effeminacy Williams book argues in detail that for the writers and readers of Roman texts the important distinctions were drawn not between homosexual and heterosexual but between free and slave dominant and subordinate masculin and effeminate as conceived in specifically Roman terms Other important questions addressed by this book include the differences between Roman and Greek practices and ideologies the influence exerted by distinctively Roman ideals of austerity the ways in which deviations from the norms of masculine sexual practice were negotiated both in the arena of public discourse and in real men's lives the relationship between the rhetoric of nature and representations of sexual practices and the extent to which same sex marriages were publicly accepted The Greeks and Romans in the Black

Sea and the Importance of the Pontic Region for the Graeco-Roman World (7th century BC-5th century AD): 20 Years On (1997-2017) Gocha R. Tsetskhladze, Alexandru Avram, James Hargrave, 2021-05-20 The proceedings of the Sixth International Congress on Black Sea Antiquities Constanța 2017 is dedicated to the 90th birthday of Prof Sir John Boardman President of the Congress since its inception The central theme returns to that considered 20 years earlier the importance of the Pontic Region for the Graeco Roman World In Eve's Attire Delphine Horvilleur, 2022-03-03 Does modernity trample on tradition

or can it in fact be a vehicle for the sacred How can one determine whether an interpretation is legitimate anachronistic or corrupted Does sexual obsession have a textual origin and is it woman's destiny to be veiled In Eve's Attire confronts these questions and more to suggest another interpretation of religious traditions surrounding the female body and the erotic As current fundamentalist religious discourse expresses a growing fixation on modesty women are increasingly reduced to those parts of their bodies that arouse desire effectively genitalised until the totality of their bodies becomes taboo In resistance to such interpretations of religious text which see even a woman's voice as an erotic organ to be silenced Rabbi Delphine

Horvilleur looks not only at religious texts themselves but also at their interpreters as she unpicks readings that make the woman a temptress and modesty the instrument of her oppression. She shows us how nakedness as expressed by Adam, Eve or Noah refers to a culture of desire and not a wish to suppress it and explores how the veil was originally intended not to reject but to approach the other. Through her analysis of the meaning of modesty and nudity in Judaism, Delphine Horvilleur explores the societal and religious obsession with the female body and its representation and asks questions about how we can engage more critically with interpretations of sacred texts.
