Roman Jakobson's Approach To Language Phenomenological Structuralism:

Roman Jakobson's Approach to Language Elmar Holenstein, 1976 **Roman Jakobson's approach to language** Elmar Holenstein, 1976 **Saussure's Philosophy of Language as Phenomenology** Beata Stawarska, 2015-02-12 This book draws on recent developments in research on Ferdinand de Saussure's general linguistics to challenge the structuralist doctrine associated with the posthumous *Course in General Linguistics* 1916 and to develop a new philosophical interpretation of Saussure's conception of language based solely on authentic source materials. This project follows two new editorial paradigms: 1 a critical re-examination of the 1916 *Course* in light of the relevant sources and 2 a reclamation of the historically authentic materials from Saussure's Nachlass, some of them recently discovered. In Stawarska's book, this editorial paradigm shift serves to expose the difficulties surrounding the official Saussurean doctrine with its sets of oppositional pairings: the signifier and the signified, *la langue* and *la parole*, synchrony and diachrony. The book therefore puts pressure not only on the validity of the posthumous editorial redaction of Saussure's course in general linguistics in the *Course* but also on its structuralist and post-structuralist legacy within the works of Lévi-Strauss, Lacan, and Derrida. Its constructive contribution consists in reclaiming the writings from Saussure's Nachlass in the service of a linguistic phenomenology which intersects individual expression in the present with historically sedimented social conventions. Stawarska develops such a conception of language by engaging Saussure's own reflections with relevant writings by Hegel, Husserl, Roman Jakobson, and Merleau-Ponty. Finally, she enriches her philosophical critique with a detailed historical account of the material and institutional processes that led to the ghostwriting and legitimizing of the *Course* as official Saussurean doctrine. *Roman Jakobson and Beyond: Language as a System of Signs* Rodney B. Sangster, 2017-12-04 No detailed description available for *Roman Jakobson and Beyond: Language as a System of Signs*. **Roman Jakobson's Prism** The Rev. Dr. Ronald Hunt, 2018-05-22 *Roman Jakobson's Prism: Learning the Language of Faith* is a dissertation that examines the common elements found in the catechetical documents of the three mainline Canadian churches: the Anglican, Roman Catholic, and United Church. Dr. Hunt employs Roman Jakobson's communication theory for the analysis, as communication is central to faith education. Twenty-first century churches need to respond effectively to the faith education of their membership, and Dr. Hunt hopes that this work will inspire the churches of today to create faith responses to the challenges that the world faces now and into the future. How Non-being Haunts Being Corey Anton, 2020-11-03 *How Non-being Haunts Being* reveals how the human world is not reducible to what is. Human life is an open expanse of what was and what will be, what might be and what should be. It is a world of desires, dreams, fictions, historical figures, planned events, spatial and temporal distances, in a word, absent presences and present absences. Corey Anton draws upon and integrates thinkers such as Jean-Paul Sartre, Henri Bergson, Kenneth Burke, Terrence Deacon, Lynn Margulis, R. D. Laing, Gregory Bateson, Douglas Harding, and E. M. Cioran. He discloses the moral possibilities liberated

through death acceptance by showing how living beings who are of space not merely in it are fundamentally on loan to themselves A heady multidisciplinary work *How Non being Haunts Being* explores how absence incompleteness and negation saturate life language thought and culture It details how meaning and moral agency depend upon forms of non being and it argues that death acceptance in no way inevitably slides into nihilism Thoroughgoing death acceptance in fact opens opportunities for deeper levels of self understanding and for greater compassion regarding our common fate Sure to provoke thought and to stimulate much conversation it offers countless insights into the human condition *The Dynamics of Biblical Parallelism* Adele Berlin, 2007-12-18 Understanding of biblical poetry is enhanced by the study of its structure In this book Adele Berlin analyzes parallelism a major feature of Hebrew poetry from a linguistic perspective This new edition of Berlin s study features an additional chapter *The Range of Biblical Metaphors in Smikhut* by late Russian linguist Lida Knorina Berlin calls this addition innovative and instructive to those who value the linguistic analysis of poetry It is a fitting coda to Berlin s adept analysis **Structure and the Whole** Patrick Sériot, 2014-04-01 This book identifies the Romantic notion of the whole as the fundamental epistemological source of the notion of structure in the thinking of the Prague Linguistic Circle primarily its Russian representatives and studies what amounted to the slow painful process of disengagement from the organicist metaphor in an intellectual world very different from Saussure s *Central and Eastern European Literary Theory and the West* Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the *histoire croisée* the history of translations transformations and migrations that conditioned its relationship with the West *Bloomsbury Semiotics Volume 4: Semiotic Movements* Jamin Pelkey, Paul Copley, 2023-01-12 Bloomsbury Semiotics offers a state of the art overview of the entire field of semiotics by revealing its influence on a wide range of disciplinary perspectives With four volumes spanning theory method and practice across the disciplines this definitive reference work emphasizes and strengthens common bonds shared across intellectual cultures and facilitates the discovery and recovery of meaning across fields It comprises Volume 1 *History and Semiosis* Volume 2 *Semiotics in the Natural and*

Semiotics and City Poetics Mary Coghill, 2022-12-05 Roman Jakobson stands alone in his semiotic theory of poetic analysis which combines semiotics linguistics and structuralist poetics This groundbreaking book proposes methods for developing Jakobson's theories of communication and poetic function It provides an extensive range of examples of the kinds of Formalist praxis that have been neglected in recent years developing them for the analysis of all poetry but especially the poetry of our urban future Throughout the book the parameters of a city poetic genre are proposed and established the book also develops the theory of the function of shifters and deixis with special reference to women as narrators It also instantiates an experimental poetic praxis based on the work of one of Jakobson's great influences Charles Sanders Peirce Steadfastly adhering to the text in itself this volume reveals the often surprising hitherto unconsidered structural and semiotic patterns within poems as a whole

A. J. Greimas and the Nature of Meaning Ronald Schleifer, 2016-08-19 In this book first published in 1987 Professor Schleifer sets Greimas work in its intellectual context and sets forth the development of his distinctive style of interpretation Moreover the author goes on to consider Greimas work against the latest examinations of discourse in philosophy depth psychology and literary criticism He tests Greimas semiotic square against Derridean deconstruction Lacanian psychoanalysis and the literary analyses of Paul de Man This book will constitute an important and lucid survey of an often inaccessible critic and will be of interest to students of literature

Smith, 1995-01-01 This book establishes a new paradigm for CAD expanding computer tools beyond the technical processes of computer aided design to include the discussion and negotiation which are a necessary complement to developing design ideas thus introducing the concept that design is fundamentally a social process

Dialogic Ethics Ronald C. Arnett, François Cooren, 2018-06-14 Dialogic Ethics offers an impressionistic picture of the diversity of perspectives on this topic Daily we witness local regional national and international disputes each propelled by contention over what is and should be the good propelling communicative direction and action Communication ethics understood as an answer to problems often creates them If we understand communication ethics as a good protected and promoted by a given set of communicators we can understand how acts of colonialism and totalitarianism could move forward legitimized by the assumption that I am right This volume eschews such a presupposition recognizing that we live in a time of narrative and virtue contention We dwell in an era where the one answer is more often dangerous than correct

The Prague School Peter Steiner, 2014-09-10 The Prague Linguistic Circle came into being on the afternoon of October 6 1926 when five Czech and Russian linguists gathered to hear a lecture by a German colleague From this international beginning the interests of the group grew to first encompass language in all its functional heterogeneity and then finally all of culture which the Circle conceived of as a structure of sign systems Semiotics was thus the overarching discipline for the Prague School serving to organize all phenomena shared and exchanged by a cultural community In recent years increasing attention has been paid to the importance of the Prague School but writing about it has frequently been marred by misconceptions The central aim of this volume is to correct those misconceptions and to present the diversity of interests within the Prague School literary criticism linguistics theory of theater folklore and philosophy These essays by Bogatyr v Jakobson Karcevskij Muka ovsk Rieger Vodi ka and Honzl are here translated into English for the first time Some have a special historical value in illuminating critical stages of structuralist thinking others reveal the timeliness of the School's contributions for the theoretical conflicts of our day Each essay is accompanied by an informative introductory note and the whole is followed by the editor's Postscript tracing the roots of structuralist aesthetics
