Romance Of The State And The Fate Of Dissent In The Tropics:

The Romance of the State and the Fate of Dissent in the Tropics Ashis Nandy, 2010 The Romance of the State Ashis Nandy, 2007 The essays in this volume written as part of psychological biography of the Indian state explore the scope limits and fate of some key concepts in the mainstream culture of politics that have come to structure India's public life These concepts constitute the dominant public ideology within the consciousness of the expanding middle classes in the country and they range from concrete concerns like secularism and development to more abstract ones such as dissent and history The essays mostly inquire into the culture of the Indian state suggest tangentially the directions in which to move for a cultural and psychological biography of the state The idea of a moderate state which was of a state that was neither overburdened with the responsibility of engineering all aspects of its citizens' lives nor of seeking to extend the market and global capital into every corner of every society was not unknown to all societies at all times While such moderate states may not have been great successes and may not have survived neither can the modern nation state system claim to be the greatest success story of all times The question of its survival as an arrangement of political communities too remains to be finally decided The essays in this book explore the vicissitudes of the idea of the modern state under different cultural and psychological conditions Global Modernity, Development, and Contemporary Civilization José Maurício Domingues, 2013-07-03 This book investigates modern global civilization offering an alternative to post colonial theories and the multiple modernities approach as well as the civilizational theory linked to it It argues that modernity has become a global civilization that is heterogeneous and intertwined with other civilizations and also aims at a renewal of critical theory that is not US centric and Eurocentric focusing instead on China South Asia India and Latin America Brazil Dealing with the themes of centre periphery relations complexity including culture and religion democracy and emancipatory possibilities this book is based on general theoretical ideas such as collective subjectivity the interplay of memory and creativity and the concept of modernizing moves so as to deal with historical contingency Revisiting Gendered States Swati Parashar, J. Ann Tickner, Jacqui True, 2018-03-01 Two decades ago V Spike Peterson's *Gendered States* asked what difference gender makes in international relations and the construction of the sovereign state system This book connects the earlier debates of Peterson's book with the gendered state today one that exists within a globalized and increasingly securitized world Bringing together an international group of contributors from the Global South United States Europe and Australia this volume answers three overarching questions First it answers whether the concept of a gendered state is generic or if some states are particularly gendered in their identities and interests and with what implications for the type of citizenship society and international security Second it looks at the continued theoretical significance of the gendered state for current IR scholarship And finally it explains to what extent postcolonial states are distinctive from metropolitan states with regard to gender Including scholars from International Relations Postcolonial Studies and Development Studies this volume collectively theorizes the

Christianity in India Rebecca Samuel Shah, Joel Carpenter, 2018-11-08 Christianity has been present in India since at least the third century but the faith remains a small minority Even so Christianity is growing rapidly in parts of the subcontinent and has made an impact far beyond its numbers Yet Indian Christianity remains highly controversial and it has suffered growing discrimination and violence This book shows how Christian converts and communities continue to make contributions to Indian society even amid social pressure and violent persecution In a time of controversy in India about the legitimacy of conversion and the value of religious diversity Christianity in India addresses the complex issues of faith identity caste and culture It documents the outsized role of Christians in promoting human rights providing education and healthcare fighting injustice and exploitation and stimulating economic uplift for the poor Readers will come away surprised and sobered to learn how these active initiatives often invite persecution today The essays draw on intimate and personal encounters with Christians in India past and present and address the challenges of religious freedom in contemporary India

Power and Contestation Nivedita Menon,Aditya Nigam,2013-07-04 1989 marks the unraveling of India s Nehruvian

Consensus around the idea of a modern secular nation with a self reliant economy Caste and religion have come to play major roles in national politics Global economic integration has led to conflict between the state and dispossessed people but processes of globalization have also enabled new spaces for political assertion such as around sexuality Older challenges to the idea of India continue from movements in Kashmir and the North East while Maoist insurgency has deepened its bases In a world of American Empire India as a nuclear power has abandoned non alignment a shift that is contested by voices within Power and Contestation shows that the turbulence and turmoil of this period are signs of India s continued vibrancy and democracy The book is an ideal introduction to the complex internal histories and external power relations of a major global player for the new century Orienting Hollywood Nitin Govil,2015-03-27

Orienting Hollywood moves beyond the conventional popular wisdom that Hollywood and Bombay cinema have only recently become intertwined because of economic priorities instead uncovering a longer history of exchange Through archival research interviews industry sources policy documents and cultural criticism Nitin Govil not only documents encounters between Hollywood and India but also shows how connections were imagined over a century of screen exchange **Toward a Politics of The (Im)Possible**

Anirban Das,2012-10 This book works at the intersection of two related yet different fields One is the heterogeneous feminist effort to question universal forms of knowing The second field follows from this conundrum how does one think of the body when s he speaks of embodiment Toward a Politics of the Im Possible engages the forefront of contemporary thought on the body while remaining mindful of the requirements of a feminist approach Gender, Conflict and Migration Navnita Chadha

Behera,2006-04-14 Research on the subject of women s migration and conflict is generally organised along the twin axes of gender and conflict and gender and migration The reality of women s conflict driven migration however falls between these two axes The essays in this volume seek to fill this gap by examining the changes in status identities and power relations among women and men as they move from a conflict situation at home to migrant camps to the post conflict or peace building phase when they return home The contributors use a variety of research methods including ethnography dialogue oral history textual analyses and consciousness raising techniques **The Crisis of Secularism in India** Anuradha

Dingwaney Needham,Rajeswari Sunder Rajan,2007-01-18 In this timely nuanced collection twenty leading cultural theorists assess the contradictory ideals policies and practices of secularism in India **Churning the Earth** Aseem

Shrivastava,2012-05-24 The world stands so dazzled by India s meteoric economic rise that we hesitate to acknowledge its consequences to the people and the environment In Churning the Earth Aseem Shrivastava and Ashish Kothari engage in a timely enquiry of this impressive growth story They present incontrovertible evidence on how the nature of this recent growth has been predatory and question its sustainability Unfettered development has damaged the ecological basis that makes life possible for hundreds of millions resulting in conflicts over water land and natural resources and increasing the chasm between the rich and the poor threatening the future of India as a civilization Rich with data and stories this eye

opening critique of India's development strategy argues for a radical ecological democracy based on the principles of environmental sustainability, social equity and livelihood security. Shrivastava and Kothari urge a fundamental shift towards such alternatives already emerging from a range of grassroots movements if we are to forestall the descent into socio-ecological chaos. Churning the Earth is unique in presenting not only what is going wrong in India but also the ways out of the crises that globalised growth has precipitated.
