Romania: the Industrialization of an Agrarian Economy Under Socialist Planning ,1979 **Romania, the Industrialization of an Agrarian Economy Under Socialist Planning** Andreas C. Tsantis,Roy Pepper,World Bank,1979 Agrarian Policies in Communist Europe K.-E. Wädekin,2024-09-02 **World Bank** Anne C. M. Salda,1995 **Romania In The 1980s** Daniel N. Nelson,2019-06-04 Among communist states Romania is in several respects a unique case Romania has been the only Warsaw Pact member to deviate consistently from Soviet foreign policy norms and alone within Eastern Europe to avoid oil imports from the USSR The leadership of Nicolae Ceausescu since 1965 has meanwhile governed through a studious commitment to socio economic centralization and control often reminiscent of Stalinist orthodoxy Intellectual freedom artistic liberty and workers rights have changed little relative to Poland Hungary or the transient Prague Spring Such international and domestic policy distinctions as well as a record of impressive industrial growth necessitate an effort to understand the dynamics of Romania s socio economic and political life This volume is meant to delineate trends in political social and economic life which will constitute dynamic elements for the Romanian system during the 1980s and beyond Contributors all scholars with lengthy research experience in Romania the Balkans and communist states generally have sought to identify factors likely to be influential during this and ensuing decades In that sense this is a predictive volume containing not crystal ball gazing but the careful identification and assessment of trends influencing Romanian foreign and domestic policies economic and political performance and societal transformations By suggesting elements crucial to socio economic and political change in Romania we hope to make observing this intriguing communist state somewhat less haphazard and more systematic Socialist Economies and the Transition to the Market Ian Jeffries,1993-05-27 First published in 1993 Routledge is an imprint of Taylor Francis an informa company **Catalog World Bank Publications, 1963-June 1980** Sonya Shazly,1980 Communism in Eastern Europe Teresa Rakowska-Harmstone,1984 Romania World Bank,1978 **Eastern Europe Bibliography** ,1993 A selective work that documents the formative impact of the region s earlier history Includes reference aids and bibliographies general and descriptive histories of the land peoples and economies and works depicting intellectual and cultural life Bibliographic Guide to Government Publications New York Public Library. Research Libraries,1981 East European Economic Assessment ,1981 Sociopolitical Aspects of International Marketing Erdener Kaynak,1991 Social economic political business and cultural environmental factors affect the international marketing operation and performance of international firms This highly insightful volume focuses on four of the most significant forces with which companies must deal on an international level macro international marketing issues sociopolitical international marketing issues international marketing strategies and special international marketing topics Within this framework experts examine the impact of two major environmental factors namely the social and political

conditions on international companies to adopt corresponding marketing techniques and practices in different international markets They also explore how specific details of a country such as income level cultural attributes consumer characteristics laws and politics influence the market potential of international firms and thus the scale of the company operations

Indispensable reading for scholars economists and business people who are interested in marketing on a global scale **The Statesman's Year-Book 1987-88** J. Paxton,2016-12-16 The classic reference work that provides annually updated information on the countries of the world Mortgaging the Earth Bruce Rich,1994 The World Bank is the single biggest source of finance for international development and its policies have a critical impact on the future of more than 110 borrowing countries In this dramatic and lively new critique Bruce Rich internationally known expert on the environment and the World Bank analyzes how the Bank has become a seemingly unstoppable and often destructive environmental and political force The author chronicles the life and death impact of Bank funded projects around the world huge dams that have forced the resettlement of millions of the poorest people on earth road building and jungle colonization schemes in Brazil Indonesia and Africa that have left vast deforestation and social conflict in their wake and much more Rich also recounts the bold grassroots campaigns of nongovernmental groups seeking alternatives to Bank style development Confidential internal Bank documents expose chronic misrepresentations by Bank management to its donor nations and to the public Rich reveals how senior officials continue to push money into projects with disastrous ecological and human rights consequences despite early and persistent protests of Bank staff He shows how repeatedly and without political accountability the Bank has increased its support for regimes that torture and murder their subjects from Ceaucescu s Romania to Suharto s Indonesia

Mortgaging the Earth explains the so called pressure to lend that emerges as a leitmotif in the Bank s fifty year history and shows how this institutional dynamic has taken on a damaging life of its own Rich traces the history of the Bank from its inception at Bretton Woods where it was conceived as a way to funnel reconstruction loans for war torn Europe through the surreally top down tenure of Robert McNamara to the Rio de Janeiro Earth Summit At Rio governments poured billions of dollars more into the Bank to save our global environment while the Bank financed new ecological disasters The World Bank Rich demonstrates in a provocative history of development from Descartes to Max Weber to Chico Mendes is a crucible of the goals of the modern age goals that in the very moment of their worldwide triumph have become problematic He shows how the Bank s dilemmas mirror our global civilization s crisis of values and gives expert prescription for reform

Mortgaging the Earth makes disturbingly clear why every American should be concerned about the World Bank as a critical arena where the global politics of technology development and the environment are played out on a small planet one where the stakes are increasingly for keeps **The Statesman's Year-Book 1988-89** J. Paxton,2016-12-16 The classic reference work that provides annually updated information on the countries of the world **1988-1989** John Paxton,2021-06-21 No detailed description available for 1988 1989 **Europe in the Classroom** Simona Szakács,2017-10-13 This book provides an unconventional

account of post 1989 education reform in Romania By drawing on policy documentation interviews with key players qualitative data from everyday school contexts and extensive textbook analysis this groundbreaking study explores change within the Romanian education system as a process that institutionalises world culture through symbolic mediation of the concept Europe The book argues that the education system s structural and organisational evolution through time is decoupled from its self depiction by ultimately serving a nation building agenda It does so despite notable changes in the discourse reflecting increasingly transnational definitions of the mission of the school in the post 1989 era The book also suggests that the notions of nation and citizen institutionalised by the school are gradually being redefined as cosmopolitan matching post war patterns of post national affiliations on a worldwide level *International Monetary Cooperation Since*

Bretton Woods Mr.Harold James,1996-06-15 This comprehensive history published jointly by the IMF and Oxford University Press was written to mark the fiftieth anniversary of international monetary cooperation From the establishment of the postwar international monetary system in 1944 to how the framework functions in a vastly expanded world economy historian Harol James describes the tensions negotiations challenges and progress of international monetary cooperation This narrative offers a global perspective on the events and decisions that have shaped the world economy during the past fifty years

Communist Planning versus Rationality János Mátyás Kovács,2022-04-14 This volume examines concepts of central planning a cornerstone of political economy in Soviet type societies It revolves around the theory of optimal planning which promised a profound modernization of Stalinist style verbal planning Encouraged by cybernetic dreams in the 1950s and supporting the strategic goals of communist leaders in the Cold War optimal planners offered the ruling elites a panacea for the recurrent crises of the planned economy Simultaneously their planning projects conveyed the pride of rational management and scientific superiority over the West The authors trace the rise and fall of the research program in the communist era in eight countries of Eastern Europe including the Soviet Union and China describing why the mission of optimization was doomed to fail and why the failure was nevertheless very slow The theorists of optimal planning contributed to the rehabilitation of mathematical culture in economic research in the communist countries and thus to a neoclassical turn in economics all over the ex communist world However because they have not rejected optimal planning as computopia there is a large space left behind for future generations to experiment with Big Optimal Plans anew based at this time on artificial intelligence and machine learning
