**Intermarium** Marek Jan Chodakiewicz,2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and

Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

*Romania and the European Union* Tom Gallagher,2013-07-19 According to Tom Gallagher Romania s predatory rulers the heirs of the sinister communist dictator Ceausescu have inflicted a humiliating defeat on the European Union He argues convincingly that Brussels was tricked into offering full membership to this Balkan country in return for substantial reforms which its rulers now refuse to carry out This book unmasks the failure of the EU to match its visionary promises of transforming Romania with the shabby reality Benefiting from access to internal reports and leading figures involved in a decade of negotiations it shows how Eurocrats were outwitted by unscrupulous local politicians who turned the EU s multi level decision making processes into a laughing stock The EU s famous soft power turned out to be a mirage as it was unable to summon up the willpower to insist that this key Balkan state embraced its standards of behaviour in the political and economic realms The book unravels policy failures in the areas of justice administrative and agricultural reform and shows how Romania moved backwards politically during the years of negotiations
