Romanian And East German Policies In The Third World:

Romanian and East German Policies in the Third World Thomas PM Barnett, 1992-09-17 This book is a unique comparison of the Third World policies of the two East European regimes that were most active in the South during the 1970s and 1980s. The study examines why Romania's and East Germany's high activity levels in the South cannot be explained away as mere surrogacy for Moscow and shows that those attempts represented the particular agendas of Honecker and Ceausescu in their efforts to alter their ties with the Soviet Union. Barnett concludes that Romania and East Germany saw opportunities in the Third World in the 1970s to forge strong diplomatic and security profiles within the Warsaw Pact's overall presence. Romania sought to lessen its economic and ideological dependence on the Soviet Union by expanding its trade ties and political relations with the Third World. In the case of East Germany, détente opened up new opportunities for relations with West Germany that were both lucrative in terms of trade and dangerous in terms of ideological pollution. Scholars of the Soviet bloc will find this book of interest.

Development Policies of Central and Eastern European States Ondřej Horký-Hlucháň, Simon Lightfoot, 2013-09-13 The states from Central and Eastern Europe that joined the EU in 2004 and 2007 provide a fascinating series of case studies for scholars interested in politics, IR and development studies. The interest comes from the fact that never before had so many recipients of EU aid joined the Union and taken on the commitment to become aid donors. The journey from recipients of aid to aid donors is interesting because not only does it tell us about development policy in CEE states, this policy area gives us an insight into governmental structures in CEE states, foreign policy priorities, public opinion, the role of NGOs, civil society and how well CEE states have taken on board the EU acquis, the EU's rule book. The book also explores whether the development cooperation programmes of the majority of CEEs reflect the so-called transition experience of moving from authoritarianism and socialism to democracy and modern liberalism. It also explores the extent to which these donors are aligned with the approaches of the DAC donors. Finally, by extending the scrutiny to the bottom-up development activities of non-state actors and public opinion, the book will analyse the dynamics of the solidarity of the former East with the global South. This book was published as a special issue of *Perspectives on European Politics and Society*.

Beyond Alterity Qinna Shen, Martin Rosenstock, 2014-07-01 With the economic and political rise of East Asia in the second half of the twentieth century, many Western countries have re-evaluated their links to their Eastern counterparts. Thus, in recent years, Asian German Studies has emerged as a promising branch within interdisciplinary German Studies. This collection of essays examines German language cultural production pertaining to modern China and Japan and explicitly challenges orientalist notions by proposing a conception of East and West not as opposites but as complementary elements of global culture, thereby urging a move beyond national paradigms in cultural studies. Essays focus on the mid-century German-Japanese alliance, Chinese-German Leftist collaborations, global capitalism, travel, identity and cultural hybridity. The authors include historians and scholars of film and literature and employ a wide array of approaches from postcolonial globalization.

media and gender studies The collection sheds new light on a complex and ambivalent set of international relationships while also testifying to the potential of Asian German Studies

Socialist Internationalism and the Gritty Politics of the Particular Kristin Roth-Ey, 2023-04-06 This collection takes a case study approach to enter into and explore spaces of Second Third World interaction during the Cold War From the dining halls of a university to hospital wards construction sites military barracks pubs and more the chapters drop the scale down from the global to the particular to better see understand and interpret the complex nature of these spaces These ordinary spaces are examined to understand how they were conceived constructed shaped and reshaped by people over time Many are physical places of encounter while others are more abstract embodying ideological goals In exploring these spaces the contributors show how the Second and Third World actors understood them and connected them to ideas such as gender and space the space of the nation of the modern and of the self Essentially it seeks to unravel how these spaces between Second and Third Worlds worked and what if anything was distinctive and consequential about them Second Third World Spaces in the Cold War explores the ways in which these Second and Third World actors collaborated and clashed in these everyday spaces and brings these multi faceted multi actor histories to a vital centre ground

The Eastern Bloc and Sub-Saharan Africa Barbora Buzássyová, 2024-06-03 This book analyses the shifting patterns of Czechoslovak educational aid programmes for sub Saharan African countries within the broader framework of the global debates on the nature of development aid in education discussed on the UNESCO grounds during the three development decades Starting in the early 1960s Czechoslovakia sent abroad hundreds of experts hoping to stimulate the development of local educational and scientific institutions However over the years the development aid to African countries transformed into a special form of foreign trade and distribution of experts turned into a profitable business Yet the tendencies towards sustainability and higher return on investment in the field of development aid were not limited just to the socialist bloc but emerged globally This book therefore not only revisits the roles of Czechoslovakia and Africa in the Cold War history but also reflects on the function of aid in international politics The Eastern Bloc and Sub Saharan Africa will appeal to students and historians specializing in the global Cold War and particularly those curious about development international organizations economic history and transfers of knowledge in transnational networks

Eastern Europe Since 1970 Bulent Gokay, 2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold

War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region *Comrades of Color* Quinn Slobodian,2015-12-01 In keeping with the tenets of socialist internationalism the political culture of the German Democratic Republic strongly emphasized solidarity with the non white world children sent telegrams to Angela Davis in prison workers made contributions from their wages to relief efforts in Vietnam and Angola and the deaths of Patrice Lumumba Ho Chi Minh and Martin Luther King Jr inspired public memorials Despite their prominence however scholars have rarely examined such displays in detail Through a series of illuminating historical investigations this volume deploys archival research ethnography and a variety of other interdisciplinary tools to explore the rhetoric and reality of East German internationalism **Global Development** Sara Lorenzini,2022-07-26 In the Cold War development was a catchphrase that came to signify progress modernity and economic growth Development aid was closely aligned with the security concerns of the great powers for whom infrastructure and development projects were ideological tools for conquering hearts and minds around the globe from Europe and Africa to Asia and Latin America In this sweeping and incisive book Sara Lorenzini provides a global history of development drawing on a wealth of archival evidence to offer a panoramic and multifaceted portrait of a Cold War phenomenon that transformed the modern world Taking readers from the aftermath of the Second World War to the tearing down of the Berlin Wall Lorenzini shows how development projects altered local realities transnational interactions and even ideas about development itself She shines new light on the international organizations behind these projects examining their strategies and priorities and assessing the actual results on the ground and she also gives voice to the recipients of development aid Lorenzini shows how the Cold War shaped the global ambitions of development on both sides of the Iron Curtain and how international organizations promoted an unrealistically harmonious vision of development that did not reflect local and international differences An unparalleled journey into the political intellectual and economic history of the twentieth century this book presents a global perspective on Cold War development demonstrating how its impacts are still being felt today *Peter Lilienthal* Claudia Sandberg,2021-07-16 Best known for his 1979 film *David* Peter Lilienthal was an unusual figure within postwar filmmaking circles A child refugee from Nazi Germany who grew up in Uruguay he was uniquely situated at the crossroads of German Jewish and Latin American cultures while his work emerged from West German auteur filmmaking his films bore the unmistakable imprints of Jewish thought and the militant character of New Latin American cinema Peter Lilienthal is the first comprehensive study of Lilienthal s life and career highlighting the distinctively cross cultural and transnational dimensions of his oeuvre and exploring his role as an early exemplar of a more vibrant inclusive European film culture *The Liverpool Companion to World Science Fiction Film* Sonja Fritzsche,2014-06-16 The Liverpool Companion to World Science Fiction Film offers critical insights into SF far beyond the more common Anglo American narratives Contributors take either a national or transnational

Barnett, 2005-05-03 Since the end of the Cold War America s national security establishment has been searching for a new operating theory to explain how this seemingly chaotic world actually works Gone is the clash of blocs but replaced by what Thomas Barnett has the answers A senior military analyst with the U S Naval War College he has given a constant stream of briefings over the past few years and particularly since 9 11 to the highest of high level civilian and

military policymakers and now he gives it to you The Pentagon's New Map is a cutting edge approach to globalization that combines security economic political and cultural factors to do no less than predict and explain the nature of war and peace in the twenty first century Building on the works of Friedman Huntington and Fukuyama and then taking a leap beyond Barnett crystallizes recent American military history and strategy sets the parameters for where our forces will likely be headed in the future outlines the unique role that America can and will play in establishing international stability and provides much needed hope at a crucial yet uncertain time in world history For anyone seeking to understand the Iraqs Afghanistans and Liberias of the present and future the intimate new links between foreign policy and national security and the operational realities of the world as it exists today The Pentagon's New Map is a template a Rosetta stone Agree with it disagree with it argue with it there is no book more essential for 2004 and beyond Bibliographic Guide to Soviet and East European Studies ,1978 **African Intelligence Services** Ryan Shaffer,2021-09-27 This book argues for making African intelligence services front and center in studies about historical and contemporary African security As the first academic anthology on the subject it brings together a group of international scholars and intelligence practitioners to understand African intelligence services post colonial and contemporary challenges The book's eleven chapters survey a diverse collection of countries and provides readers with histories of understudied African intelligence services The volume examines the intelligence services objectives operations leaderships international partners and legal frameworks The chapters also highlight different methodologies and sources to further scholarly research about African intelligence Blueprint for Action Thomas P.M. Barnett,2023-09-26 Three tectonic and inevitable shifts have left the world at a crossroads North America is poised to either re emerge as a global leader or turn back in time ceding power and influence to competitors The 21st century unleashed unprecedented changes across the globe to its climate to the demographic makeup of its nations and to the very nature of allegiance in the digital age With its global influence waning America must reevaluate its approach to globalization if it wishes to remain a leader In America's New Map Restoring Global Leadership in an Era of Climate Change and Demographic Collapse Thomas P M Barnett bestselling author of The Pentagon's New Map War and Peace in the Twenty First Century and acclaimed geo strategist offers seven throughlines to frame and redefine the ambitions and posture of these United States setting our Union on a bold but entirely familiar national trajectory In these pages Barnett offers a deep yet accessible dive into the three shifts that have lead us to this point As climate change ravages countries closest to the equator global dynamics are shifting from

an East West emphasis to North South in the greatest geopolitical transformation our world has yet experienced and the Western Hemisphere is far better positioned to exploit this radical reorientation than the East Aging demographics worldwide favor more slowly aging nations including the US while challenging rapidly aging nations like China incentivizing countries best to delay that transition by integrating younger faster growing populations into their ranks In combination these two tectonic forces collide with a third the exploding consumption of an expanding and now majority global middle class the bulk of whom reside along the increasingly unstable North South frontier Taking every variable of these unique circumstances into account America s New Map charts a path toward a bigger and better United States We will all be living in somebody s world come mid century this book tells Americans how to make sure it is one we can recognize as our own
